midara A Temperance Joke.

Joe Harris was a whole-souled merry fellow, and very fond of a glass. After living in New Orleans for many years, he came to the conclusion of visiting an old uncle, away up in Massachusetts, whom he had not seen for many years. Now, Mr. Pick, you know the difference between New Orleans and Massachusetts in regard to the use of ardent spirits, and when Joe arrived there and found all the people run mad about temperance, he felt bad, thinking with the old song, that * keeping the spirits up by pouring spirits down" was one of the best ways to make time pass, and began to fear indeed, that he was in a pickle. But on the morning after his arrival, the old man and his sons being out at work, his aunt came to him, and said Joe, you have been living in the South, and, no doubt, are in the ha-

bit of taking a little something to drink, about eleven o'clock. Now, I keep some for medical purposes, but let no one know it, as my husband wants to set the boys a good example." Joe promised, and thinking he would get no more that day, took, as

he expressed it, "a buster." After that he walked out to the stable, and who should he meet but his uncle. Well, Joe," says he, "I expect You are accustomed to drink something in New Orleans, but you find us all temperance here, and for the sake of my sons, I don't let them know that I have any brandy about; but I just keep a little out here for my rheumatism. Another Scientific Wonder! GREAT OURE FOR DYSPEPSIA! DR. J. S. HOUGHTON'S

THE TRUE DIGESTIVE FLUID

OR, GASTRIC JUICE. Prepared from RENNET, or the fourth Stomac

Prepared from MENNET, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constitution, and Debility, Curing after Nature's own method, by Natures's own Agent, the Gastric Juice.

The Half a tenspoonful of Pepsin, infused in water, will digest or dissolve, Five Pounds of Reast Beef, in about two hours, out of the Stomach.

Stomach.

Pepsin is the chief element, or Great Digesting Principle of the Gastrie Juice—the Solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intes-Stimulating Agent of the Stomach and Intes-tines. It is extracted from the Digestive Stom-ach of the Ox, thus forming an artificial Diges-tive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a Complete and Perfect Substitute for it. By the Complete and Period Substitute for it. by the ail of this preparation, the pains and evils of Indigestion and Dyspepsia are remove), just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curi-ous and Remarkable.

SCIENTIFIC EVIDENCE! Baron Liebig in his celebrated work on Animal Chemistry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrate of the stomach of the Calf, in which various arti-

readily prepared from the introds memorate of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, cless of food, as meat and eggs, will be softened, cless of the control of the control of the same manner as they would be in the human stomach.\(^1\)

Dr. Combe, in his valuable writings on the "Physiology of Digestion,\(^1\) observes that "a diminution of the due quantity of the Gastrie Juice is a prominent and all-prevailing cause of Dyspepsia;\(^1\) and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing also to fail, had recourse to the Gastrie Juice, obtained from the stomachs of living animals, which proved completely successfully.\(^1\)

essfully."
Professor Dunglison, of the Jefferson College Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments siology, devotes more than fifty pages to an ex-amination of this subject. His experiments with Dr. Beaumont, on the Gastrie Juice ob-tained from the living human stomach, and from animals, are well known. "In cases." he says, "digestion occurred as perfectly in the artificial as in the natural digestions." Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of

New York, in his "Text Book of Chemistry," page 386, says,: "It has been a question whe-ther artificial digestion could be performed—but ther artificial digestion could be performed—but it is now universally admitted that it may be."
Dr. Carpenter's standard work on Physiology, which is in the library of every physician, and is used as a Text Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or Ox, and used for experiments in Artificial Digestion, or as a remedy for diseases of the Stomach, and deficient secretion of Gastric Juice.

Dr. Kooftand's Celebrated German Bitters
for the cure of Liver Complaint, Jaundice,
Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of
the day. These Bitters have been used by thousands and a friend at our elbow says he has
himself received an effectual and permanent
cure of Liver Complaint from the use of this
remedy. We are convinced that in the use of
these Bitters, the patient constantly gains
strength and vigor—a fact worthy of great consideration. They are pleasant in taste and
smell, and can be used by persons with the most
deficate stomachs with safety, under any circunstances. We are speaking from experience,
and to the afflicted we advise their use.
