Home. Home! 'tis the name of all that sweetens life, it speaks the warm affestions of a wife; The lisping babe that prattles on the knee, in all the playful grace of infancy:
The spot where lond parental love may trace. The growing virtues of a blooming race; Oh! 'tis a word of more than music spell, whose sacred power the wanderer best can tell: He who long distant from his native land, Feels at her name his eager soul expand: Whether as patriot, husband, father, friend, To that dear point his thoughts, his wishes bend, And still he owns, where'er his footsteps roam, Life's choicest bk ssings centre all—ot home.

Another Scientific Wonder! GREAT CURE FOR DYSPEPSIA!

THE TRUE DIGESTIVE FLUID OR, GASTERE JUECE.

Prepared from RENNET, or the fourth Stomac Prepared from RENNET, or the tourth Stomach of the Or, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Hottonten, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspensia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Natures's own Agent, the Gastric Juice.

Jastrie Juice.

₹ Thalf a tenspoonful of Pepsin, infused in water, will digest or dissolve. Five Pounds of Reast Beef, in about two hours, out of the Stomach.

Pepsin is the chief element, or Great Pigesting Principle of the Gastrie Junce—the Solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an artificial Digestive Fluid, precisely like the natural Gastrie Juice in its Chemical powers, and formishing a Complete and Perfect Substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is do ing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the vergs of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

### SCIENTIFIC EVIDENCE!

Baron Liebig in his celebrated work on Animal Chemistry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stemach of the Calt, in which various artithe stomach of the Calf, in which various articles of food, as meat and eggs, will be coftened, changed and digested, just in the same manner as they would be in the human stomach."

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia; "and he states that "a distinguished processor of medicine in London, who was reverly afflicted with this complaint, finding every thing else to fail, had recontree to the Gastric Juice, obtained from the stomache of living animals, which proved completely successfully."
