STROKE OF THE SUN.——Persons whose avocations necessarily expose them to the sun cannot be too careful of themselves. It is very evident that all men cannot carry umbrellas, and perhaps there may be some value in a suggestion which has been communicated to the editor of the Alexandria, Va. *Gazette*. The writer says: —'In conversation with the lady of one of our Commodores who has lately been stationed at Pensacola, where the officers and men were much exposed to the heat of a tropical sun, she told me that they adopted a very simple mode of protection by wearing high crowned hats in the inside of which they placed a quantity of *raw wet cotton*, which completely warded off the intense heat.—At this season, when we hear daily of deaths caused by *coup-de soleil*—would it not be well to recommend our omnibus drivers, and all mechanics and laborers, who are so much exposed, to try the experiment?'

LASTING EFFECT OF GUANO.—There is a strange delusion affecting the minds of half the farmers in the country upon the subject of guano not doing any good to crops succeeding that to which it is applied. From a thousand other similar evidences which we have on hand, we select, says the Frederick *Herald*, the following experience of Hon. James A. Pearce, one of Maryland's farmers as well as statesmen. He says, "April 1845, I applied 350 pounds of guano to an acre of growing wheat, the land being very poor. Of course, it was applied as a top dressing, mixed, however, with plaster. The wheat doubled in quantity at least, and fine clover succeeded it; and in two crops, one of corn and the other of small grain last year and the present, the effects are still apparent."

POST OFFICE, CHARLESTON, June 18, 1852.

The undersigned deems it his duty to caution the letter-writing portion of the community against the use of sealing wax, particularly at this season of the year. He will add, that this suggestion is submitted after conferring with the Department, and with prominent offices in other parts of the Union on this subject.

It has frequently happened, that very valuable packages are torn and defaced! and in many instances, the addresses of letters have been entirely obliterated by the adhesion of melted wax. Respectfully,

ALFRED HUGER, P. M.,
Charleston, S. C.

[illegible] Curiosity.—The following extract from a letter of Benjamin to Cadwallader Cobden, [illegible] his interest in an expedition for discovery of a North-west [illegible]

[illegible]ELPHIA, Feb. 28, 1753.

[illegible] believe I have [illegible] at before told you, that I have procured a subscription here of £1,500 to fit out a vessel in search of a North-west passage. She sails in a few days, and is called the Argus, commanded by Captain Swaine, who was in the last expedition in the California, author of a journal of that voyage in two volumes. We think the attempt laudable, whatever may be the success. If he fails, magnus tamen excidit ausis.

With great esteem,

BENJ. FRANKLIN.

JOHN RANDOLPH'S MOTHER.—The late John Randolph, some years before his death, wrote a friend as follows:

'I used to be called a Frenchman, because I took the French side in Politics; and though this was unjust, yet the truth is, I should have been a French atheist, if it had not been for *one recollection*, and that was when my departed mother used to take my little hands in hers, and cause me on my knees to say—'*Our Father who art in Heaven.*'

REVOLT AND BATTLE WITH FRENCH EXILES.—Advices from Cayenne report that a serious revolt had occurred on board a ship containing a large number of French exiles. Two other French ships attacked them, it is said, and after a battle which lasted six hours, the revolt was quelled and the exiles compelled to surrender.

"Merrimack," the Boston correspondent of the Newburyport *Herald*, says the Hon. Abbot [illegible]nce has signified to the President a desire to return to this country, and next October has been determined upon as the period when his resignation will take effect.

The California Mails Changed.—The United States Mail steamers, with the great California and Oregon mails, are to be despatched from New York on the 5th and 20th of each month, direct for Aspinwall, instead of the 9th and 24th as heretofore. When these dates occur on Sunday the sailing will be postponed until the following Monday.

MAIL ROBBERIES.—Three brothers, named Kane, have been committed to jail at Greensburg; Penn., on suspicion of robbing the mail. The Pittsburg Gazette says that checks for between $50,000 and $100,000, recently stolen from the Eastern mail sent from that city, have been recovered.

The area of the Japanese empire is said to be 266,600 square miles, which makes it larger than France and England put together. The population is reckoned by the American writers and probably without exaggeration, at thirty millions; less civilized, no doubt, than the Chinese, but a good deal more hardy and warlike.

☞ Two colored children, connected by the vertebræ, and said to be quite a match for the Siamese twins, are about to be exhibited in the North ern cities, commencing at Petersburg, Va.

☞ Ninety thousand dollars, it is announced in the official organ of M. Kossuth, is the sum total of that distinguished gentleman's levy in this country, since his arrival here in September last.—This is a very handsome sum. The President of the United States gets a salary of only $25,000 a year: Kossuth has raised nearly four times that amount in the short space of nine months.

MASONIC JUBILEE.—One hundred years will have elapsed on the 4th day of November next since General George Washington was made a free and accepted Mason, in Fredericksburg Lodge, in Virginia. Several Grand Lodges, including the G. L., of Tennessee, Michigan, Vermont and North Carolina, have recommended to the Masonic fraternity under their respective jurisdiction to observe the 4th day of November next as a Masonic jubilee. The Grand Lodge of the State of New York will celebrate the day.

Francis, Brown, Lee & Co., S. M. Green, W. Bogan, A. M. Foster, Mrs. Covert, J. C. Haynsworth, A. A. Solomons, Mrs. M. J. McFadden, S. Terry, Mrs. M. E. Doyle, H. Crougan, L. B. Hanks, S. Harvin, J. B. White, N. Crane.

SPECIAL NOTICES.

Hoofland's German Bitters.

This celebrated medicine is one of the very best in the country, and its good qualities only need to be known, to give it precedence over all others now in use. We have seen its good effects lately, after the total failure of many others. This is saying more than we can for any other medicine within our knowledge, and we feel it a duty to recommend the Bitters to the notice of our friends. The genuine is prepared by Dr. C. M. JACKSON, Philadelphia.

My 2.

Another Scientific Wonder!

IMPORTANT TO DYSPEPTICS.

Dr. J. S. Houghton's *Pepsin*, the true Digestive Fluid, or *Gastric Juice*, prepparred from Rennet, or the Fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia. This is truly a wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation and Debility, curing after Nature's Own Method, by Nature's Own Agent, the *Gastric Juice*. Pamphlets, containing Scientific evidence of its value, furnished by agents, gratis. See notice among the medical advertisements. 8-1y.

These lots may be treated for by applying to JNO. N. FRIERSON.
June 15th, 1852 34—3t

BEING appointed the Agent of NEWMAN & BROTHER'S PIANO FORTES, I can recommend them as being finished in exquisite manner, with an entire Iron Frame to keep them in tune, and not liable to get out of tune so readily, with English Grand Action, 6 to 7 octaves, in Rosewood cases. These Pianos are manufactured in Baltimore, in a Southern State, warranted to stand the climate; not to wind or draw up. I shall be pleased to receive orders, and will have them delivered by a competent person, who will put them up and tune them.

Terms moderate and easy. Call and see before purchasing elsewhere.

PERRY MOSES, Agent.

Found

Between the 15th of May and the 25th of June last, on the Cane Savannah Road, leading from Sumterville to Nelson's Ferry, a plain SILVER WATCH, No. 4480; 80 in case; 8 on stem; buckskin string, and brass key; one hand and Crystal missing; worth put in order $6. The owner is requested to come forward, prove property, pay charges, and take her away within thirty days, or the Watch will be sold to pay expenses. The Watch is in the hands of T. Weeks, Constable, living 2 miles below the line, in Clarendon. Information can be had from Chose Weeks.

Yours respectfully,
JOHN TUCKER, *President.*

The above is but one of the many certificates we have received from gentlemen of our city, who have used Silver's Mineral Paints.

COLORS.—We have seven different colors, viz: three browns, two chocolates, black and yellow, and by combination, make every variety and shade of color.

IRON.—To iron, they furnish a perfect protection against rust, for they contain no metal, which, like white lead, acts destructively on the iron. In fact, this paint makes iron doubly valuable for building purposes.

BRICK WORK.—They give to house-walls a much heavier coating than any other paints, and if standing is required, nothing holds so firmly or finishes so well with it.

OLD ROOFS.—Give us a roof never so old and leaky, Silver's Mineral Paints will make it cheaply new, and more enduring than ever it was.

SHIPS using this extraordinary mineral as we prepare it for them, will be proof against the action of hot seas, worms, and salt water.

DIRECTIONS.—Use Linseed Oil, mix as thick as you can, and use as other paints.

These paints need but little dryer, and for priming and second coatings in all household works, they will be found far cheaper and more durable than lead.

Dealers and consumers can procure this paint of FRENCH & RICHARDS,
Wholesale Agents,
Northwest cor. Tenth and Market-sts., Phil'a.,
Also, Importers of Plate and Colored Window Glass, Dealers in Dregs, Paints, &c.

Wilmington & Manchester Rail Road,

25 Miles in Operation!

On and after the first of April the Mail and Passenger Trains on the Wilmington and Manchester Rail Road will run to Mayes' Station, 25 miles from its junction with the Camden Branch Rail Road, as follows:

Leave junction daily at 2. 55 P. M. after the arrival of the Cars from Charleston.
Arrive at Manchester, - 3. 10 P. M.
" " Sumterville, - 3. 55 " "
" " Mayes' Station, 4. 30 " "
Leave Mayes' Stat'n daily at 6. 00 A. M.
Arrive at Sumterville, - 6. 40 " "
" " Manchester, - 7. 25 " "
" " Junction, - - 40 " "

in time to connect with Charleston.

A Daily line of stages carrying the U. S. Mail through Darlington C. H., and Cheraw to Fayetteville, will run in connection with the Rail Road.

Passengers between Charleston or Columbia and Fayetteville, or intermediate points will find this the most comfortable and expeditious route.

Encourage Home Manufactures.

THE Subscriber, grateful for the liberal patronage heretofore bestowed upon him, takes this method of informing the people of Sumter and the adjoining Districts, that he still continues to carry on the CARRIAGE and HARNESS MAKING business in all its various branches, at his stand in Bishopville, S. C.

He is making large additions to his Establishment, so as to enable him to manufacture every thing wanted, in his line, at the shortest notice, and in a style of workmanship equal to any in the Southern States. He has in his employ experienced workmen, and is well supplied with the best seasoned timber; also with Trimmings and Mountings of the latest style.

All new work done in his line will be warranted 12 months and repaired without charge if it fail in that time. He will do repairing at the shortest notice, and in case any person living at a distance should want repairing done, if they will write to that effect, he will send for the job, and return it when done.

JAS. W. AMBROSE.

N.B.—His TERMS are as reasonable as any person could expect.

Silver's Plastic Mineral Paint

Will Stand any Climate Without Cracking.

SCEPTICS: read this testimony from the President of the Reading Rail Road Company.

OFFICE OF PHIL'A. & READING R. R. CO., No 73 S.-Front-st. cor. Willing and Alley, PHILADELPHIA, May 3, 1852.

J. S. Silver, Esq.:—Dear Sir—We have used your "Plastic Paints" for more than a year, and for painting bridges, depots, &c, &c., we have found it equal to any paint we have used—in fact we now give it a preference over all others we have tried for such purposes.

Yours respectfully,
JOHN TUCKER, *President.*

The above is but one of the many certificates we have received from gentlemen of our city, who have used Silver's Mineral Paints.

COLORS.—We have seven different colors, viz: three browns, two chocolates, black and yellow, and by combination, make every variety and shade of color.

IRON.—To iron, they furnish a perfect protection against rust, for they contain no metal, which, like white lead, acts destructively on the iron. In fact, this paint makes iron doubly valuable for building purposes.

BRICK WORK.—They give to house-walls a much heavier coating than any other paints, and if standing is required, nothing holds so firmly or finishes so well with it.

OLD ROOFS.—Give us a roof never so old and leaky, Silver's Mineral Paints will make it cheaply new, and more enduring than ever it was.

SHIPS using this extraordinary mineral as we prepare it for them, will be proof against the action of hot seas, worms, and salt water.
