

POETRY.

HOW SHALL I WOO HER?
How shall I woo her? I will stand
Beside her when she sings,
And watch her fine and fairy hand...

AGRICULTURAL.

From the Farmer and Planter.
Fixed Facts in Agriculture.
These may be assumed as fixed facts in agriculture:

- 1. All lands on which clover, or the grasses, are grown, must either have lime in them, naturally, or that mineral must be artificially supplied.
2. All permanent improvement of lands must look to lime as its basis.
3. Lands which have been long in culture, will be benefited by applications of phosphate of lime...

ately fed with grain, in winter, and receive generous supplies of long provender, it being essential to keep them in fair condition, in order that the formation of muscle, bones, &c., may be encouraged and continuously carried on.
25. Milch cows, in winter, should be kept in dry, moderately warm, but well ventilated, quarters, be regularly fed and watered three times a day...

Notice.
The Co-partnership heretofore existing between the subscribers and the firm of A. J. & P. MOSES is dissolved by its own limitation and mutual consent.
All persons indebted to the said firm by Note or otherwise will please call and settle at the office of PERRY MOSES, 10-6m.

BEING appointed the Agent of NEWMAN B & BOONER'S PLANO PORTES, I can recommend them as being finished, in an exquisite manner, with an entire Iron Frame to keep them in tune, and not liable to get out of tune so readily, with English Grand Action, 6 to 7 octaves, in Rosewood cases.
These Planos are manufactured in Baltimore, in a Southern State, warranted to stand the climate; not to wind or draw up.
I shall be pleased to receive orders, and will have them delivered by a competent person, who will put them up and tune them.

Warranted to Stand the Southern Climate. \$10,000 SAVED YEARLY! MARK THIS FACT! SCHEFFER'S PATENT MINERAL PAINT Will Stand any Climate Without Cracking. SCHEFFER'S read this testimony from the President of the Reading Rail Road Company. One of our FIRE BRICKS, W. B. COLEMAN, No. 73 S. Front-st. at Wilmington, Del., Philadelphia, May 3, 1852. J. S. Silver, Esq.—Dear Sir:—We have used your "Mineral Paint" for more than a year, and for painting bridges, depots, &c., &c., we have found it equal to any paint we have used; in fact we now give it a preference over all others we have tried for such purposes. Yours respectfully, JOHN TUCKER, President. The above is but one of the many certificates we have received from gentlemen of our city, who have used your Mineral Paints. COLORS.—We have several different colors, viz: three browns, two chocolates, black and yellow, and by combination, make every variety and shade of color. IRON.—To iron, they furnish a perfect protection against rust, for they contain no metal, which, like white lead, acts destructively on the iron; in fact, this paint makes iron doubly valuable for building purposes. BRICK WORK.—They give to house-walls a much heavier coating than any other paint, and if standing is required, nothing better so cheaply and so well as your Mineral Paints. These paints need but little drying, and for priming and second coatings in all household works, they will be found far cheaper and more durable than lead. Dealers and consumers can procure this paint of FRENCH & RICHARDS, Wholesale Agents, North-west cor. Tenth and Market-sts. Also, Importers of Plate and Colored Window Glass. Dealers in Dregs, Paints, &c. May 1, 1852. 3m
