DEATH WHILE ON THE WAY TO THE ALTAR .- A young man by the name of Edmund Slattery, while on his way from Franklin to Milford, on Sunday week to be married, met with a singular and fatal accident. He stopped at a well to water his horse, when the bucket fell into the well. He descended to obtain it, when the wall caved in to his new shoes, and a thought of and buried him. IMPORTANT DISCLOSURES .- Frauds in the Issue of Land Warrants, de.,-We learn from Washington, and ineidently in this city that important information has recently been laid before the President touching a long continued series of frauds in connection with the issue of land warrants and bounties. The President has handed the subject over to the Secretary of the Interior, who is here, it is also said, partly in reference to the investigation of these frauds.

The Time over which these transactions have extended exceeds eigh teen months. The parties to fraud are, as we learn them, a distinguished head of a bureau at Washington, a clerk of his, (both in Government employ) and a broker of not very extensive reputation in this city. The parties at Washington are represented as having made some \$68,000 out of the transaction, and others here have made as much more. COTTON MARKET.

Charleston, August 13, 1853. The demand for cotton during the past week has been good and sales were effected at full prices, which range from 8 to 11 14 cts.

The Weather.

This is ever a fruitful topic of comment and we do not like to depart from the time honored custom of saying something about it. The rains have ceased to deluge us, and for the past week we have had pleasant, cool and dry weather, which gives planters a fine opportunity for stripping fodder will be a fair one.

Ertit. Within the memory of our friend and general referee, the "oldest inhabitant, there has never been such an abunas there has been this season. Watermelons of the genuine "Bradford seed ling" weighing from twenty to thirty pounds are sold for ten and twenty cents, and peaches of the finest varieties are retailed from wagons and carts at 50 cents per bushel; grapes too are also plenty and very fine.

Health of Charleston.

The report of the City Register of Charleston, as published in the Courier of the 10th inst, shows an unusual deaths for the past week amount to the very small number of fifteen, This, wh n the season of the year is taken into consideration, is certainly the pleasantest news we can give from our commercial city.

Temperance Convention. Quite a large and respectable State Temperance Convention assembled in Charlottesville, Va. last week. Resolutions were adopted recommending the passage by the Legislature of a prohibitory law against the manufacfacture and sale of intoxicating liquor, to be submitted to the people of the State for their adoption or rejection.

Kellow Fever. This disease continues with unabated and unexampled fury in New Orleans and the accounts of its ravages are terrible in the extreme. On Wednesday the deaths amounted to 229; of which 195 were from yellow fever.

The Southern Agriculturist. We have received the August num. ber of this very valuable monthly journal, edited by A. E. and WM. SUMMER and published by R. M. STOKES at Laurensville, S. C. for \$1,00 per annum. The present number fully sustains the reputation of the work, and contains the usual quantity of interesting and useful agricultu ral information.

The Democratic Press.

We notice from the last number of this Journal, published at Wilmington N. C., that EDWARD CANTWELL, Esq., has withdrawn from the editorial department, and is succeeded by Mr. Jas. II. Smirii, formerly of Marion District. The elections in North Carolina being decided, the Press will hereafter be devoted to the interests of the Temperance reform, for which it was originally established.

More Gold.

The Southern Patriot of the 11th inst. notices some beautiful particles gold found on the farm of Mrs. Dr. ROBINSON CARLISLE near the village of Greenville, and says: "Gold has also been discovered in large quantities in Oregon. Some of the miners earn from \$50 to \$80 per day. There is some danger of finding so much gold that it will be valueless. We remember hearing Judge Whitner tell an incident, which occurred on his return home from Florida, some years ago, which may manifest more sagacity than was attributed to the old man at the time. The Judge took out a five dollar gold piece to pay his bill after staging all night in the pine woods .-"Mine Host" refused to take it. He was asked if he thought it was counterfeit. No, said the old man, but there is so much of it found lately in California, that it will soon be of no value so I had rather have a Bank Bill.

The insurgents are christians and it is the policy of their leader to disseminate the Bible and its doetrines throughout the land, which gives them a claim upon the aid and favor of the christian world, which we doubt not will be soon granted. To the glory of the Missionary cause, be it said, that to them is due the credit in a great measure, of this movement and it behaves them to support their work, With the blessings of religion, literty and light must shine upon the heathen.

Russin and Turkey.

From the latest European intelligence we learn that the difficulty between these two nations is about to be settled. The Sultan of Turkey has signed the agreement dictated by France, England and Austria, and was about to send an ambassador to St. Petersburg. The protest of the Porte against the occupation of the Principalities by the Russian troops is said to have been temperately written. The Foreign Bourses regard peace as secured and continue firm. This is no doubt perfeetly correct, yet we still regard peace as far from being secured. The Czar has made such demands upon the Ottoman empire, as it is generally acknowledged cannot be conceeded to by the Sultan; the Russian forces have crossed the Pruth, and are now occupying and a third the neck. doubtless fortyfying themselves in two principalities belonging to Turkey; the Czar has refused to withdraw his forces, and his officers are so confident of It is said the recent convert to the Roman Catholic church, now in Italy, and said to be a distinguished Senator from the United States, is the Hon.

Native Wines.

The demand for the native wines of the Unit d S ates is becoming very great; a Cincinnati paper says: "All the wine older than five years, of Catawba, is out of market, and the Sparkling, although not requir ing such a large lapse of time to fit it for use, is taken off as fast as it can be made for market. There are about 1200 acres of grapes in cultiva-tion in the vicinity of that city. Every year adds to the quantity of bearing vines, and to the number of persons
