NEGRO THIEVES.—The Matagorda Tribune says, "there is an extensive gang of negro thieves, regularly organized and scarcely less daring than the famous Murrill gang, operating in various parts of Texas. There have been frequent desertions of negroes in our neighborhood and in the Colorado valley above, all of which go to sustain the fact of the experience of an organized gang of negro thieves, and planters would do well to look out for those incendiaries. Several negroes belonging to Mr. Lot, of Goliad, were lately decoyed away, the thieves afterwards arrested, and on examination of all the parties, facts were brought forth, which left no doubt of the existence of such a gang of desperadoes and their extensive depredations. Their head-quarters are established on the Rio Grande, and their plan of operations appears to be to send out prowling parties into the planting sections of the West, to decoy the slaves away under the pretext of transporting them into Mexico. On arriving at the Rio Grade, the slaves are carried thence to Eastern Texas, through an obscure route, to Louisiana, Mississippi and adjoining States, and there sold."

The New Orleans papers state that a practise is coming in vogue in that city of building large and elegant verandahs in front of the second stories of buildings, so as to cover the whole breadth of the sidewalk, and prote pedestrians from the sun and rain, making a cool and comfortable promenade. When placed over stores they have the advantage of saving the cost of awnings, and answering the same purpose more effectively, though rendering the store rather darker.

The London times says: "In fifty years Ireland will be Protestant to a man. Both the Roman Catholics of Ireland and the race identified with that faith, are all leaving Ireland.—Ere long there will be none left. At the present rate of emigration, which cannot be less than 200,000, chiefly Roman Catholics, in a year, our children will see the time when the Celts will be as obsolete in Ireland as the Phœnicians in Cornwall."

The *Scientific American* says that teeth, in the form of purified white India-rubber, have been patented in England. It adds: the adhesion is complete; it can be moulded with perfection to suit every inequality of the gums and teeth, and supplies an artificial peroistum as it were, to the teeth, when they become painful by the wasting away of the gum. Added to these is the elasticity of the material, which completely obviates the inconveniences that arise from any motion with artificial teeth made by other means.

GREAT SPECULATION.—The N. Y. Sunday Atlas publishes the following: "We are told that during the pendency of the Railroad Consolidation bill in the legislature, Hon. E. D. Morgan, Senator from this city, bought, on his own account, the entire stock of the Troy and Schenectady railroad for $240,000. In less than ten days after he made the purchase, the bill passed, and he turned it into the stock of the consolidated concern for $500,000, thus realizing a net profit of 260,000 by the operation.

Do not Defer, but Come if
YOU WANT TO GET THE
Choice.

MR. REICH, Merchant Tailor, begs leave to inform the gentlemen of Sumterville and District that he has just returned with a spendid assortment of

Cloths, Cassimeres, Drap'd ete, Vestings, &c. &c., and in short ever thing that is required for a full suit. Having made the choice of his goods himself, he doubts not but what he can suit the most fastidious. There is no use to have your cloths made in Charleston or by Yankees, when you can have them made as stylish and as well if not better than anywhere else right at home, and this Mr REICH promises to do; nay, he will add that, if his work is not turned out *at least* equal to any done in this country he will not charge anything. As for his prices they shall be at New York rates. All he asks is, give him a trial!! Come soon and pick out some of those beautiful Pants and Vest patterns; it will soon be warm and you will want them.

Mr. Reich lives next door to John... Haynsworth almost opposite Dr. W... spoon.
