Dyspepsia Can Be Cured!

PAULDING COUNTY, DALTON, GA. August 26th, 1854. MR. CHARLES DELORME, DEAR SIR: For several years past I have been severely afflicted with sick headaches, and after trying every thing I could think of, and receiving no benefit whatever, I at last gave myself up as a confirmed dyspeptic. But hearing of your preparation, "The Balsam of Life," I concluded to give that a trial also, and procured two bottles from your Agent Dr. T. A. Dargan, of Darlington, S. C., and from the time I began to take it, I have not had a single attack of headache, and now feel in hopes that even the two bottles have made a cure of me. But fearing that I may have a relapse, I have determined to continue it longer, and I enclose you \$10 00 for which you will please send as many bottles as is customary for that amount. By Rail Road. Respectfully yours, JOHN J. GREEN. P. S.—Please forward by express train. Sept. 6, 1854 45

Anatomical Lectures And Demonstrations.

DR. MYDDLETON MICHEL will commence his private course on Anatomy and Physiology, on the first Monday in November, at his Anatomical Rooms, opposite the Medical College. Dr. MICHEL offers the following advantages to Students attending the Medical session in Charleston. A complete course of Lectures is delivered during the season on Anatomy and Physiology, the Professor illustrating his course by preparation, drawings and models. Dissections are conducted on an improved plan, consisting in interrogating each member of the class, and making him demonstrate his own dissection. The Student may hereby multiply his opportunities for acquiring a knowledge of one of the most important and difficult departments taught in the College.—Saturdays are devoted to Microscopical Anatomy.

Examinations are held regularly every night on each of the several branches, giving the class the benefit of a rehearsal, in a condensed form, of the subjects lectured on by the Professors of the Medical College, so as to recall whatever may have escaped attention, and to correct errors entertained by misapprehending the meaning of the Lecture.

Dr. M., will find pleasure in recommending the proper text books in general use, in introducing his pupils to the acquaintance of the several Professors, and in facilitating the Students in all matters connected with their studies.

Reference may be made to Dr. M., at his residence, Queen Street, 74, or at his Anatomical Rooms opposite the College. Terms, Ten Dollars.

The subscriber is also prepared to take private pupils who for the ordinary office fee of one hundred dollars a year shall have access to a large library, diagrams, plates and models, and be furnished gratuitously with the ticket to the full course delivered in the Summer Medical Institute. His pupils will thus be made familiar with disease at the bedside, and be made participants in many surgical and obstetrical cases occurring in his practice, while they become acquainted with the methods of mixing and administering drugs. The strictest attention will be paid to the Microscope in connection with Anatomy and Pathology, and examinations held every day.
