## A natomical Lectures And Demonstrations.

DR. MYDDLETON MICHEL will commence his private course on Anatomy of the Court of and Physiology, on the first Monday in suing election. November, at his Anatomical Rooms, opite the Medical College.

Dr. Michel offers the following advantages to Students attending the Medical session in Charleston. A complete course of Lectures is delivered during the season on Anatomy and Physiology, the Professor illustrating his course by preparation, drawings and models. Dissections are conducted on an improved plan, consisting in interrogating each member of the class, and making him demonstrate his own dis section. The Student may hereby multiply his opportunities for acquiring a knowledge of one of the most important and difficuit departments taught in the College .-Saturdays are devoted to Micro-copical

Anatomy. Examinations are held regularly every n ght on each of the several branches, giving the class the benefit of a rehearsal, in a condensed form, of the subjects lectured on by the Professors of the Medical College, so as to recall whatever may have escaped attention, and to correct errors emertained by misapprehending the meaning of the Lecture.

Dr. M., will find pleasure in recommending the proper 'ext books in general use, in introducing his pupils to the acquaintance of the several Professors, and in lacilitating the Students in all matters connected with their studies.

Reference may be made to Dr. M., at his residence Queen street, 74, or at his Austonical Rooms opposite the College. Terms, Ten Dollars.

The subscriber is also prepared to take private populs who for the ordinary office lee of one hundred dollars a year shall have access to a large library, diagrams, plates and models, and be furnished gratuitously with the ticket to the full course delivered in the Summer Medical Institute. His pupils will thus be made familiar with disease at the bed-side, and be made participants in many surgical and obsterical cases occurring in his practice, while they become acquainted with the methods of mixing and administering drugs. The stractest attention will be paid to the Mi-croscope in connection with Anatomy and Pathology, and examinations neld every
