Cover crops are essential to ands as are covers for the human body, Neither are at their best without them.

A dead boll weevil this fall and win er means hundreds and thousands less of the live ones next spring and summer.

Do not hear much these days about Henry Ford and his Muscle Shoals offer. Hear more about it later when politics get warmed up.

Boo hoo! | North Carolina cannot say she was the first state to have a woman for United States Senator. The Georgia Crackers put one over on the Tar Heels.

Every now and then a Republican leader gets up sufficient steam and courage to hurrah and declare that his party is satisfied with its record. About all do its best to keep the nine bidder, for cash, before the satisfy.

It is declared that greater; Great is America! business prosperity throughout the country in all lines of business is imminent. What would be even better for the average individual would be to see the return of prosperity a reality and not a dream.

last week it was claimed that a about a strike is when it strikes United States destroyer was out. fired on by the Turks Better soft-pedal on that business Mr. Turk, for the Democrats might get back into power and something would then be done.

We imagine the scrapping of warships idea has received a set ck by recent events in the Near hardly convince old or even the ous time scrap heap.

Governor Hardwick of Geor gia has appointed Mrs. W. H. Felton to succeed Senator Watson as United States Senator. In the same breath the governor announces that he will be a candidate for the office. Is there method in the governor's madness? Mrs. Felton is 87 years old and will not likely see service for the reason that the senate will soon adjourn and before it assembles again there will be an election to fill the place. Can not say this had any bearing on the matter, but some may think so anyhow.

WILL FIND YOU OUT

"Be sure your sins will find

The above words were spoken nearly 1500 hundred years before Christ. They are as true today as them.

Another sacred writer says nearly 700 years before Christ ing it right, the Ches that, "our sins testify against us."

Apparently there are many crimes hidden, but if we could have a complete record of all crimes committed we would awake to the fact that there are ably light on cotton and few crimes that are completely on other crops and pay so covered. The following is taken from The Robesonian, Lumberton, N. C.

It can't be done. No use try ing to get away from it if you murder somebody or kill some body in a fight. Forty-four years is a long time, measured in human life, but it is not long enough crop year. to cover up a homicide. A Robeson county man who killed another forty four years ago, es caped and disappeared completly has been brought back to face trial. He talked too much to chance acquaintance-and the next thing he knew he was in the hands of officers. Another Robeson county man who killed another got away with it for months and nobody but his wife even knew that a man had been killed -and he is now awaiting trial also. Talking about warnings in thunder tones-

There is no doubt that sin is an accuser and one may feel secure in his sin, but at a time least expected he will realize that what he thought was a profound secret has become an open book.

The American public is great. We have something on hand in the way of amusement twelve months in the year. Spring and summer, baseball is on deck, followed in the fall by football. A little later basketball occupies the front of the stage. Then as

and spending time and money, we have political fights annually, C. M. Tucker, Plaintiff, bienrually and quadrennually, in school, town, county, state and national affairs.
