THE bill to make a new State out of Dakota has passed the Senate, but it is thought the House will defeat the scheme of the Republican politicians by extra-constitutional methods to bring another State in the Union to affect the Presidential election.

THE fact that General Hancock had buried all of his children before he died, leads the Augusta Chronicle to remarkloved. The world had been long a pilgrimage of sorrow. May he awaken where his children beckoned to him from the eternal abode!

NINETY-EIGHT per cent. of the State taxes for the fiscal year have been paid, and the State treasury has now a halfmillion dollars to its credit. It is thought that in the course of two or three years we will catch up the lost tax year without any extra levy, if the Legislature will refrain from spending all the money it can get its hands on in some wild speculation.

THE Memphis Appeal notes that, according to official statistics, the eggs laid in the United States in the course of a year are worth twice as much as the silver product of the same period, yet neither Congressmen or newspapers ever quarrel about eggs or the farmers the influence of the present adminiswhose hens lay them, while "the mine tration. IT is currently reported that Attorney General Garland will be asked to resign his seat in the Cabinet, owing to revelations concerning his connection with the Pan-Electric Telephone developments. If he is interested in any enterprise that would be benefitted by his action in the Bell Telephone business he should step down and out at once. Our Democratic Administration must not have any Republican methods.

THE impression is growing stronger that the Republican Senators have taken water on the proposition to demand papers of the department heads in cases of suspended officials, but instead they will endeavor to embarrass mrnt, and nearly all of the Republican ernment is vindicated and justice is Senators will select a man for rejection. done by the courts.

THE play of "Uncle Tom's Cabin" is now played at greatly reduced prices. The great evil for which "Uncle Tom's Cabin" was written to assist in remedying, is now a dead issue. The adaptation of the story to the stage was never a great dramatic success, but it contained opportunities for dog acting, and the record of an honest man, a braye dog actors have for some time past soldier, and a pure statesman. About been the rage. But the dogs have had their day, and the reduced prices which have been resorted to as an expedient ing as bravely and manifesting a spirit to keep the interest in Uncle Tom from dying out, will have to be still further reduced.

JAMES MADISON WELLS, a famous Republican politician of the reconstruction era in Louisiana, has become old poor and blind. His former political lapses have now returned to plague him with their malodorons memory. He was a native southerner, but in the mad hunt for gain lent himself to methods so questionable as to destroy alike self respect, his well considered methods for the aggregation of personal pelf, his standing in the evil cohorts among whom he had aligned himself, and what was more disastrous to him, the "thirty pieces of silver" for whose possession he had risked all that a man should hold dear.

Gen. W. S. Hancock. Considering the relations Gen. The people of the United States have not yet recovered from the shock occasioned by the death of Gen. Hancock, and yet, in the midst of their grief, is social death, if nothing more. Columbia Politics.

The election of mayor and aldermen prominently mentioned in connection with the office of Mayor are Col. J. T. Rhett, the present incumbent, Col. J. Q. Without disparaging the qualifications of either of the other gentlemen mentioned, we do not think that Columbia could do better than to give Col. J. T. Rhett another term. He is certainly a model officer, and should be kept in office just as long as he will serve.
