THE TIMES AND DEMOCRAT, Orangeburg, S. C.

Mr. Akioki, a Japanese of distinction in his (wn country, is in Texus seeking information as to the climate and rescurces of that state, where he proposes to found a colony of his countrymen. He will shortly bring over 300 families, who will settle on a solid tract of 10,000 acres in Bee ccunty, where they will undertake bee, silk and tea culture.

EVIDENTLY Japan means to be ready for all comers in the future. She is building five immense battleships, having a total displacement of more than 68 000 tons. Two, which have just been contracted for in England, will weigh 19 000 tons each being the heaviest and largest fighting ships yet planned. Japan is also having built two great armored cruisers, each of 13 500 tons displacement.

The Wife as a Banker.

Women are savers rather than sperders. And when they spend they spend to good advantage. A dollar in a woman's hands goes twice as far as a dollar in the hands of a man. If you want to save money let your wife be the banker. This is for the work ingman, whether he labors with his hands or toils with his brain. This man about to be married. It is for Laurens and Chester, got into a diffi men in every class of life. It is the culty on their returning home on the best advice for the average man tantly killed by Coleman. The shooting the present year upon which we train reached Park's, and Coleman have just entered and see if you are jumped off and made his escape. He not better off at its beginning.

The total figures-\$6,415,000,000are almost beyond comprehension. It may help in realizing the enormity of this amount to know that if the farmer keeps up this rate of production three years more he will have produced an amount of wealth within ten years coust to one half of the entire national wealth produced in three

It may help still further to know that the agricultural exports-the surplus left over after all home wants were supplied—have amounted in sixteen years to a round billion of dollars more than the value of all the railroads in the country. Yes, the farmer has been doing things on a scale so big that ordinary comprehension hard- angeburg S. C., January 2, 1906. ly can rise to it.

Give Them a Chance.

Do not try to make the child think as you do. "Going at him with pin cers,-nipping him there and pinching him here," is a deplorable thing for a teacher or a parent to do. Rather thank the Lord that he has a mind of his own and that he uses it. Do your part by furthering its development in such a way that its inherent originality will remain intact. "Better for a young man to think too highly of himself than too meanly; to trust his powers too much than not to trust them enough," or ce said a minister to his congregation. If you take exceptions to this veiw, as many of his Special Notices, entitled Wanted, Lost, they are not those who "hesitate and Found, for Rent, not exceeding twenty-five words, one time, 35 cents; two times, 50 cents; are lost," but those who have faith in themselves. And this they can not have without ind viduality, that mighty force, God-planted, which gives them the will to do, and the power to do it.

How to Live Right.

This is the season of the year when great many people form new resolutions for the future. This is right and proper, but if these new formed resolutions are to amount to anything we must remember that right thinking is the foundation of right living. To live the highest life of which we, as human beings, are capable, we must firmly believe and and live up to our belief that we can, should and must resolutely master our thoughts as well as our actions; and that we must control the mental pictures in which we indulge as much as the words which issue from our lips. As a man "thinketh in his heart, so is he." Thoughts generate feeling. When discouraged and de pressed lift up your chest, take an attitude of courage and speak these words several times slowly and earnestly: "Faith, hope, courage." When sensitive over ill treatment, take the correct physical attitude and say several times, slowly and earnesuly: Love, patience, forgiveness," and see if you dont feel better."

A FEW FACTS that should and is making Norway a fine business location. 1st-The best cotton market in the county being as it is nearer Savannah, Ga. the second largest cotton port. 2nd—we have cotton buyers who try to give all they can for cotton and not as a givent many do, buy it as cheap as they can. The price tells the story for our market has been 15 to 20 points above any other market to the country. Moral; bring your cotton to Norway. 3rd—as a place of residence, church and school advantages we are right in line with any other town and far ahead of many. No dispensary; no bltnd tigers, but pienty of good pure water. Real estate is high another evidence of prosperity. Hor seekers welcomed.
