WORTH READING BEFORE VOTING.

An election will be held by the qualified electors of Newberry School District No. 1, June 24th, for the purpose of deciding the question of increasing the tax levy one mill for two years.

In order that the people of the district may intelligently decide this matter the trustees desire to make a frank and clear statement of our school system as to income, disbursements, enrollment and conditions of school property.

After this statement has been made the board of trustees do not feel that it is incumbent upon them to make any further effort to press the issue for this increase, which should be a matter of common interest.

The school system should be of vital interest to every citizen. Every city is known by its churches, its city government and its educational institutions. While we may differ in our ideas concerning the management of the schools and general efficiency of its instructors, it is well to remember that these change more or less annually, while the school itself is a fixture and a powerful witness as to the kind of people who make up the city's population.

We have much to be proud of in our buildings and equipment, but we also have much to be ashamed of, and the things that will later be mentioned are things that must be changed if we are true to our graded schools which exist for the purpose of giving our children preparation for life and to instill into them high ideals of beauty and usefulness. We confidently believe that if the repair work we propose to do was thoroughly investigated by our people they would all cooperate and help raise the extra funds.

The additional one mill levy is for the purpose of making needed repairs and improvements in the school property. It is absolutely necessary to install an up-to-date and decent sewerage system in Boundary Street school. The present old dry surface toilet arrangement is filthy, unsightly, and indecent. This condition must be changed.

We urge full investigation by any one inclined to oppose this levy, and also those who are helping us in this endeavor to put better conditions around our children.

In this same building is a heating plant that has never given satisfaction, and it must either be worked over and made to heat the building uniformly or it must be torn out and a new plant installed. In either case much expense will be involved.

The roofing and other parts of Speers Street school building need repair work done at once. To show how impractical it is to try to do all this work with our present income it will be well to review the financial conditions of the schools as compared with the necessary expense.

The enrollment of the schools ending 1911 was 1025 pupils and the total

income from all sources (including \$1053.83 sinking fund which by special act of the legislature was transferred to the current fund) was \$15,075.69. The total enrollment for the school year ending 1912 was 1100 pupils, and the total income from all sources was \$14,041.94. The enrollment for the year just closed is 1227 pupils. The income from all sources is \$13,946.55. (This does not take into account \$435.40 which was raised by the teachers and pupils for pictures and piano for the High school), but it does amount \$100.00 given us from the State extension fund, and \$440.00 received from back taxes apportioned this year.

The present salary of the teachers including the superintendent and janitor is \$13,087.50 for the year. The total amount of the annual income from all sources is \$13,946.55 (our bulletin contains an itemized statement of disbursements.) We desire to call attention to the fact that the total amount received from the special four mill levy is \$216.00 less this year than last year. The total income including the back taxes is \$95.39 less, and the total enrollment 127 more pupils. It would not have been possible for us to meet the obligations of the schools had it not been for the \$40.00 of accumulated back taxes that were placed to the credit of the school fund this year. The schools have very little more money on which to run now than they had when there was only one graded school.

Today we have two additional schools and are doing our share toward West End school. This has made it necessary to employ additional teachers, pay two extra janitors and buy fuel for two more buildings.

With all these new and additional obligations to meet the board has had to constantly puzzle its brain as to how the yearly expenses could be met. We have managed to just about make a clean balance each year. But it can readily be seen under these circumstances that it will be entirely beyond the range of possibility for the board to make the necessary repairs on the various buildings without the aid contemplated under the one mill levy which the people of the community are to decide. The trustees are thoroughly alive to the fact that a greater teaching force is badly needed at Speers Street school, where one teacher has the first and second grades with an enrollment of 54 pupils, and one teacher has the third and fourth grades with an enrollment of 40 pupils. Yet what can be done?

The High school has three and 2-5 teachers with an enrollment of 110 pupils. Four teachers would give us much more efficient work. Our High school is doing splendid work and we must see to it that the relations it has assumed with the various colleges is maintained.

We hope to add a musical department to this school next year, and it is also our purpose to add a department of domestic science. Several of our leading citizens have made substantial gifts to this department already. The board appreciates these gifts; they will go a long way toward making the department a success and popular among the pupils.

DON'T PULL OUT YOUR GREY HAIR

Keep It and Restore It to Its Natural Color

IT'S SO EASY IF YOU USE HAY'S HAIR HEALTH

Hay's Hair Health always brings back the natural color of youth, to grey and faded hair. Druggists everywhere say that more people are buying Hay's Hair Health than all others combined, and that they come back for it again and again as they find it really does keep their hair dark, glossy and natural colored—gives new life and growth to thin, dry hair and stops falling out. If you have Dandruff, there's nothing that will remove it so quickly—that

will keep it out so effectively, as Hay's Hair Health. It is not a dye and it's perfectly harmless to use. Will not soil your skin or linen, and besides, no one will know you are using it. The first application will convince you that after a fair trial, you'll have no more grey hair or Dandruff.

Don't wait to think about it—act now. Start using Hay's Hair Health today. You'll never regret it. The following druggists guarantee to refund your money if you are not satisfied with Hay's Hair Health after a fair trial.

Free: Sign this adv. and take it to the following druggists and get a 50c. bottle of Hay's Hair Health and a 25c. cake of Harfina Soap for 50c., or \$1.00 bottle of Hay's Hair Health and two 25c. cakes of Harfina Soap Free, for \$2.

Gilder & Weeks.

Were our income sufficient we would like very much to add one year to our High school, also a department of industrial commercial training. But with our enrollment increasing every year and our income decreasing it is necessary for us to economize in every way possible to meet present obligations.

The one mill levy for two years will net about \$3,700.00 after the interest is paid, this will hardly be sufficient to make the necessary repairs to the buildings, and certainly will not aid the trustees in making the improvements to the system which we feel our schools should have. But if our citizens desire part of this levy can be made permanent after two years. The board of trustees cheerfully give their time and study to the progress of the schools, but we feel at the same time that every citizen ought to have the same interest in the welfare of the schools that the board has. The trustees, like the teachers, come and go, but the schools with their equipment are here to stay.

Let us all get together and make the schools what they ought to be, and in the years to come it will make no difference who your trustees and teachers are so long as they are good and true and able, the schools will be the pride of our city.

ASK YOUR DRUGGIST ABOUT IT

There is a New Remedy That Takes the Place of Calomel—Recommended and Guaranteed by the Druggists.

Mayes Drug Store never sold a remedy that gave more complete satisfaction than Dodson's Liver Tone—a mild vegetable remedy for constipation, sour stomach and lazy liver.

Folks who have suffered for years rather than resort to dangerous calomel have found after one trial that this pleasant-tasting vegetable liquid gives them a long sought relief without bad after-effects.

Dodson's Liver Tone is guaranteed by Mayes' Drug Store to be a safe liver stimulant and to be absolutely harmless—without bad after-effects. You will find many persons in this locality who have tried it and every user will speak a good word for Dodson's Liver Tone. It livens up a torpid liver and makes you feel fresh, healthy and clean.

The price of a large bottle is 50 cents—money back if not pleased. The success of Dodson's Liver Tone has brought many medicines into the field that imitate its claims, and some have name very similar and package same color, but remember Dodson's Liver Tone is guaranteed by W. G. Mayes, who will give you back your money if you want it.

these papers describing the fauna or flora of a formation that does not prove sooner or later to possess practical value and to be essential to geology in its constantly increasing refinement of study and results.

Without paleontology the geologic classification of formations, their correlation and the determination of their mutual relations would be impossible. In fact, real and symmetrical progress in geology is impossible without corresponding interrelated development and refinement of its handmaid paleontology. The study of the economic geology of any region of complicated structure is blind and inconsequent unless the time relations of the strata concerned are known. These relations are indicated by the fossils which the strata contain.—Annual Report Director United States Geological Survey.
