Church of the Redeemer.

(Rev. Edward Fulenwider, pastor.)

Nothing preventing, the following will be the programme of divine services at the Lutheran Church of the Redeemer next Sunday:

11:15 a. m. The regular morning service. The pastor will preach a sermon on the subject, "Keeping the Proper Account." The office of a modern business house where the accounts are kept will be used as an illustration. Much of the success of business depends upon the proper keeping of the accounts. Many a man has become distracted, and has gone out from friends, home, and business saying, "It is all up with me. I am a ruined man." Not because there were no assets but because they were wrongly charged. Many a Christian has become discouraged and downcast, not because there was no hope, but because he has wrongly charged his burdens in his life account. Every man and woman living under the light of the gospel of Jesus Christ must keep at least three accounts. (1) An account with others, (2) an account with himself, (3) an account with God. The words of the text are, "Bear ye one another's burdens, and so fulfill the law of Christ." "For every man shall bear his own burden." "Cast thy burden upon the Lord, and he shall sustain thee."

8:15 p. m. The service at this hour will be in charge of the "Young People's Mission League." Several young people will take part in the programme. The principal address will be made by Dr. E. B. Setzler on "Christian Stewardship."

10:15 a. m. The Sunday school meets.

The public is cordially invited to all the services.

Death of Mrs. D. A. Wright.

She was married to Mr. D. A. Wright December 31, 1863, and lived happily together for 45 years.

BANKERS IN CONVENTION.

Group No. 2 of South Carolina Bankers Association Hold Pleasant Meeting.

Group No. 2, of the South Carolina Bankers association, held its second annual meeting in the high school building on Tuesday, May 19. The meeting was called to order by President R. H. Moseley and prayer was offered by Dr. James McIntosh.

Mayor Z. F. Wright was then presented and made a very happy speech in welcoming the convention to Newberry. The address of welcome was responded to in a pleasant way by Dr. Geo. Y. Hunter, president of the Bank of Prosperity.

Mr. J. W. Simpson, of Spartanburg, read a very interesting and suggestive paper on the advance of the group system. He emphasized the importance of cooperation. He spoke of many things that banks could do in helping the communities in which they are located.

Mr. C. H. Yates, of Camden, was the next speaker. He said that bankers should learn the doctrine that it is more blessed to give than to receive and that in giving we must give not only of our treasure, but of our service. In doing this it should be the effort of the bankers to bring the producers of their respective communities to the highest order of efficiency.

Mr. Simpson, who had just returned from Richmond, told of the meeting held there by the bankers forming the reserve bank territory, in which South Carolina is included.

There were several other short talks by visitors and some of our local bankers.

The constitution of the group was adopted and the following officers were elected: J. Y. McFall, of the Commercial bank, Newberry, chairman; Butler H. Boyd, Clinton, vice chairman; Howard Ellis, of Greenwood, secretary and treasurer.

Executive committee—W. A. Coun's, Little Mountain; John B. Sloan, Ninety Six; J. B. Bell, Clinton.

The executive committee will appoint the time and place of the next meeting and also appoint the programme committee.

After the meeting the visitors were taken in autos for a short drive around the city, and to the residences of Mr. P. E. Scott and Mr. M. L. Spearman, where light refreshments were served and a social hour spent very pleasantly.

At 9 o'clock the banquet was served. And the following sentiments were responded to. It was unfortunate that some of those who were expected could not be present. A number of ladies attended the banquet and it was excellently served by the ladies of the Presbyterian church. It was greatly enjoyed by all present.

Dr. James McIntosh presided and acted as toastmaster in a most graceful manner and pleasantly introduced the speakers.

J. W. Simpson, Greenwood, "Past Due Paper."

"Let the world slide, let the world go; A fig for a care, and a fig for a woe! If I can't pay, why I can owe."

C. H. Yates, Camden, "Best Method of Increasing Deposits."

"You can get to any station on life's schedule seen

If there's a fire beneath the boiler of ambition's machine

And a place called Flushtown at a rate of speed that's grand,

If for all the slippery places you've a good supply of sand."

W. H. Hunt, Newberry, "Woman."

"She has met glib politicians

And undone them in debate;

She has studied all conditions

That affect her native State.

She is able and ambitious,

She can practice at the law,

But she always turns and wishes

When she sees a falling star."

IT RAINED SILVER DOLLARS

Shower of 1,000 in the Street When Bag Burst.

Cincinnati Dispatch to New York Sun. Considerable excitement and much scrambling was occasioned in front of the west door of the Federal building when a sack containing 1,000 silver dollars, being carried from an Adams Express wagon for deposit in the United States treasury, burst.

The expressman had just reached the centre of the sidewalk in front of the entrance to the building when the sack gave way. Within two seconds there was such a crowd as to almost block traffic on Walnut street, and the presence of several traffic officers was necessary to permit the express company's employees and others pressed into service to gather up the coins and deposit them back in the express wagon.

A count of the coins following the accident revealed the loss of but one silver dollar. The missing coin is said to have rolled behind a motorcycle belonging to one of the post-office messengers and was picked up by a little newsboy, who escaped through the crowd.

The silver coin was shipped here by a Southern bank. The express company made good the missing coin and the full amount sent was deposited with Cashier Barrett of the local sub treasury a short time later.

OBELISK GETS TREATMENT

Chemist Uses New Process on Cleopatra's Needle to Stop Erosion.

New York Sun.

Cleopatra's Needle, which stands on a knoll in Central park between the Metropolitan Museum of Art and the reservoir, is receiving a new treatment for one of its periodic attacks of spring fever. As the result, so the scientists say, of erosion due to climatic conditions, the hieroglyphics threatened recently to become as illegible as they are untranslatable by most persons.

The new treatment is being given by Dr. William Kuckro, chemist of the Metropolitan museum. Dr. Kuckro believes that the method, which he and Dr. James Kemp, geologist of Columbia university, discovered, is certain to preserve statues which are exposed to unfavorable weather conditions. The treatment will cost the park department \$400.

The shaft was brought to New York from Egypt in 1881 and during the first 21 years of its residence here more than half a ton scaled off. The Obelisk Waterproofing company treated the shaft in 1885, when more than three barrels of chips were picked off. Since then the needle has done no shedding. Edward M. Caffall, general manager of that company, expressed dissatisfaction yesterday when he learned that other doctors had been called to attend the column.

TERRORS OF THE TANGO

Dance Has as Yet Not Been "Debrutalized."

Grantland Rice in Collier's.

It is reported that three members of Yale's track team have been injured while indulging in the tango. We have repeatedly, in these dispatches, called on the committee in charge to debrutalize the dance—just as football was debrutalized some years ago. But so far our warning has been in vain.

How many more of the "flower of our young manhood" are to be wrecked by the combination strangle hold, high dive and double flip before these needed reforms are put through? Are we to become a race of twisted shins and mangled insteps?

SILVERSTREET SCHOOL CLOSES

A Successful Session—Ice Cream Festival—Good Programme—Large Attendance—A Marriage.

Silverstreet, May 21.—The exercises were opened Sunday morning, May 17, with an excellent sermon of "Education," by the Rev. S. P. Koon.

There was a large attendance. The session closed has been the most successful in the history of the school.

Under the instruction of our Professor Koon, the school has made great progress. We did not accomplish what we would have liked to on account of measles and chicken-pox with our exercises. They were very good, considering the difficulties we had to overcome with sickness.

The programme was beautifully rendered. The children did fine. They were a credit to their teacher and parents. A the conclusion of the exercises on Monday night ice cream was sold for the benefit of the school. The amount made was \$8.90. The offering Sunday morning was \$5.08; making a total of \$13.98.

Miss Lena Belle Blair, daughter of Mr. and Mrs. G. T. Blair was happily united in marriage to Mr. Charlie Berry, son of Mr. and Mrs. John Berry, both from Silverstreet. The Rev. S. P. Koon officiating. They will make their future home in Bradley, S. C. We wish them a happy married life.

Miss Elizabeth Fant a graduate of Chicora College returned home Tuesday, accompanied by her mother, Mrs. Carrie Fant.

Mr. H. O. Long has improved the looks of the town very much by painting his cottage in church street.

Lot has been purchased and plans for the building of the Lutheran parsonage.

The future for Silverstreet is very promising.

Vacation time again, Hurrah! Hope every one will spend a happy summer.

BIG TUNNEL IS OPEN.

Last Obstruction at Sandy Ridge on the C. C. & C. Has Been Removed.

The State. Spartanburg, May 20.—Word has been received in Spartanburg that the last obstruction in the Sandy Ridge tunnel, connecting the east with the Elkhorn extension of the Carolina, Clinchfield & Ohio railway, was removed last night when the ridge of rock midway in the tunnel was blown away. The work on excavating the 8,000 foot tunnel was started about two years ago and it had to be bored through almost solid rock.

The Sandy Ridge tunnel is 8,000 feet long and is 1,500 feet under the mountain. Day and night shifts have been working on it for over two years and an average of 125 cars of rocks a day were removed.

The opening of the Elkhorn extension realizes a dream of the builders of the Clinchfield to have a through line from the East to the West. Its completion means that this section will profit.

Can't Lose Grandmamma.

When grandmamma was young and fair,

The world was prim and stately;

As balls she wore a queenly air

And stepped quadrilles sedately.

Now grandmamma is old and gray—

But fashion can not foil her,

For out she bounces every day

And tangoes like a broiler.
