How about a chauntiqua for Newberry? It is not too late.

Chester is a neat and clean town. It has considerable paved streets and that so helps a city town. That is one thing Newberry needs greatly—paved streets. A little cleaning up of some of the streets we now have would not hurt.

The State campaign does not open until July 17. It is somewhat strenuous after that and will take some ability at physical endurance to go through with it. It is the penalty one has to pay in South Carolina to secure public office and many pay without even the reward of office.

What does Anderson need most if she intends to be a city? Paved streets.—Anderson Intelligence.

The building of streets marks the forward movement of any town or city. No town can expect or hope to be anything or to do anything until it begins to build some decent streets. We have said that as to Newberry and it is as true as any gospel ever preached. What we need in Newberry just now is a movement to build some streets. We have none. Literally none. The present generation should not be expected to pay the whole cost either. Somebody get busy if we are to start on the march of progress.

PARKS.

There is a new country and we have been growing rapidly in material ways. In our cities we have smokestacks and factories creating wealth and attracting population and the time is at hand to begin to live in our city comfortably and surrounded by beauty. The Knoxville Sentinel says:

"With a census population of 233,000, Indianapolis is expending \$850,000 a year on its park and boulevard system. It does not seem to doubt the wisdom of this investment and it has confidence in the prudence of its park commissioners. The latest report of the park board declares that all progressive cities are making great efforts to secure and improve parkways and parks and playgrounds. Kansas City has expended nearly \$30,000,000 on parks and city plan realization, and the annual bulletin is not less than \$1,000,000. Kansas City has a census population of 248,000. Knoxville has been assured repeatedly by men who have traveled extensively and have studied these questions professionally that for a comparatively small outlay this city can secure a wonderfully beautiful chain of parks and boulevards. This does not mean that parks and boulevards can be had for nothing. Everything that is worth while must be paid for. It is time for Knoxville to put forth its hand and claim for the people a part of the natural scenic wonders of its site. It will require more brains and energy than money."

What is true of Knoxville is equally true of Spartanburg, and while there is little to encourage those who are advocating parks for this city in the immediate future, the sentiment in favor of beautiful surroundings for the city is growing and in time, as surely as we live, the park question will be dealt with liberally. We will keep it in mind.—Spartanburg Herald.

And what is true of Knoxville and Spartanburg is true of Newberry.

Newberry has the natural advantages for a park right in the heart of the city and the beauty of the situation is that the land can be secured now at a nominal cost. And it will make an ideal park. Of course, it takes money to get anything or to do anything worth while. The money can be secured with a little effort. A committee has been appointed to look into it, but as too often happens in Newberry in such things the committee goes into innocuous desuetude or, which is just as bad, waits for the "psychological moment" which never comes. We hope President Spearman will notify the chairman of this committee that the "psychological moment" is now and if he is not going to get his committee together that another chairman will be named. The Business League was not formed to wait for "psycho-

logical moments" but to bring things to pass, or at least to make an effort to do so. If we will sit down and wait for "psychological moments" we will be sitting down waiting to the end of the century.

We do not want to wait for something to turn up, but if we expect anything to come to pass we must get out and turn up something.

It would be futile to argue the advantages of a park. Every one admits it. What we want now is to do something. The time is here for the building of a park. The people are ready to respond. All they need is to be given an opportunity. The "psychological moment" is now. Get the committee busy.

Carried Nothing Along.

Pittsburgh Chronicle.
Residing in a little village is a lawyer who is famous for drawing wills, in which branch of business he has long enjoyed a monopoly of the country for miles around.

A few months since a wealthy man died. There was much speculation as to the value of the property, and the town gossip set about to find out the facts. He hunted up the lawyer, and, after a few preliminary remarks about the deceased, he said rather bluntly:

"I suppose you made Brown's will?"

"Yes."

"Then you probably know how much he left. Would you mind telling me?"

"Not at all," the lawyer answered, as he resumed his writing, "he left everything he had."

PLANTING BALD HEADS.

Method of Sewing Hairs on Human Scalp Successful.

Budapest Cable to Baltimore American.

A method of sewing hairs to the human scalp in cases of baldness has been successfully used by Dr. Szekely at the Hospital of St. Stephens, in this city. The number of hairs planted in the head of one patient has been as high as 50,000. One hundred hairs are drawn through punctures in the scalp in every square centimeter and as both ends are left free this makes over 1,000 hairs to each square inch. In the operation very fine gold wires are used, one five-hundredths of an inch in diameter, and fine, long hairs from a woman's head are attached to these. The gold loop acts as an anchor, which after sterilization is introduced into the subcutaneous tissue, where it is slightly twisted, thus holding the hair in permanent position. It is claimed that 500 hairs can thus be planted in three-quarters of an hour.

A special instrument has been designed by Dr. Szekely for planting the gold wires, which are so fine that after the work is completed for planting 50,000 hairs there is only one gramme of gold left in the scalp.

The hair becomes perfectly natural after a capsule of tissue forms around the gold knot. The inflammation entirely disappears ten days after the operation and no evil results have ensued from any of the planting.

The hair can be treated in the ordinary way after the operation and the doctor's earliest patient, who underwent the operation seven years ago, has a beautiful head of natural glossy hair.

NOTICE ON ELECTION IN JOHNSTONE DISTRICT NO. 12.

Whereas, one-third of the resident electors and a like proportion of the resident freeholders of the age of 21 years, of Johnstone academy school district No. 12, of the county of Newberry State of South Carolina, have filed a petition with the county Board of Education of Newberry County, South Carolina, petitioning and requesting an election to be held in said school district on the question of levying a special annual tax of two mills to be collected on the property located in the said school district.

OUR FRIENDS IN PROSPERITY

Give Added Praise. Their Statements Are Convincing.

It is gratifying for us to read such good news as the following, for it shows that the experience of our friends in Prosperity is the same as that of many Newberry men and women who have spoken out so heartily in these columns:

Mrs. J. M. Wheeler, Prosperity, S. C., says: "My kidneys were disordered for a long time, causing terrible pains through my loins and limbs. I also had a constant ache in my back and on some occasions, I could scarcely get about. The kidney secretions were unatural and annoyed me greatly. I consulted several physicians and tried a number of kidney remedies, but did not improve in the least. I had about given up the hope of ever being cured, when my son-in-law procured a supply of Doan's Kidney Pills for me at Newberry Drug Co. He had read that they were good for kidney trouble and induced me to try them. I did so and after I had taken two boxes, the backache had left and my kidneys were normal."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Wheeler had. Foster Milburn Co., Props. Buffalo, N. Y.
