## Here Is An Unusual Opportunity

To Secure an Interest in a Great New Southern Industry That Promises to Be the Most Successful of Its Kind Ever Built Up in the South

250,000 SHARES

AMERICAN-SOUTHERN MOTORS CORPORATION

"A North Carolina Corporation"

\$1,250,000.00

Par Value \$5 Per Share, Dividends Payable Semi-Annually

8 Per Cent Cumulative Participating Preferred Stock

Southern investors will find in this investment offering an unusual degree of soundness and at the same time great possibilities for a liberal return on their money.

In connection with this issue of Preferred Stock there are two facts of outstanding significance: (1) The Directorate of the AMERICAN-SOUTHERN MOTORS CORPORATION consists of men who are pre-eminent, qualified by experience and integrity to manage an enterprise of this nature. (2) The product to be manufactured is an automobile of known excellence, established reputation, and accorded a remarkable sales record during the four years it has been on the market.

The magnitude of the automobile industry in the United States is well known by everyone. The amount of capital invested in it is exceeded by only one, the railroads. And it is safe to say that the earnings on capital outstanding in the former greatly exceed those that are being paid today on railroad securities. Consequently, the automobile industry constitutes the more desirable investment, for its earning possibilities are still in their infancy.

Up to the present time the South has played a negligible part in automobile manufacturing. This issue of stock is being offered at this time to put Dixie on the automobile map, substantially and permanently. The AMERICAN-SOUTHERN MOTORS CORPORATION will engage in the assembling, for Southern distribution exclusively, the well known AMERICAN Balanced Six automobile, in three standard models—touring car, roadster and a luxuriously appointed sedan. The first year's output of the Greensboro, N. C., plant will be 2,400 cars, which will be increased to 5,000 cars the second year.

The first year's entire output of our Greensboro plant is already contracted for, eliminating all selling expense on the part of this Corporation. Production will begin in April of this year. Moreover, all engineering and national advertising expense will be assumed by the American Motors Corporation of Plainfield, N. J. The saving thus afforded the Southern manufacturers of the AMERICAN Balanced Six will be appreciated by every investor. These items of overhead which the American Southern Motors Corporation

## "Who Are the Directors?"

One of the first question a business man asks, in considering an investment in a corporation, is, "Who are the Directors?" The question is all important, because the handling of his money depends upon the integrity and sound judgment of those Directors.

The men who initiate and direct the policy of the AMERICAN-SOUTHERN MOTORS CORPORATION are:

President

C. B. PENNY, President Penny & Long, Inc., Greensboro, N. C.

Chairman Board of Directors

ROBERT BURNSER, President

Motors Corporation, New York City.

Vice-Presidents

PROCTOR W. HANSL, Vice President and Treasurer American Motors Corporation, New York City.

RALPH LONG, Vice President Penny & Long, Inc., Greensboro, N. C.

Treasurer

R. J. MEBANE, Vice President Southern Life & Trust Co.; Vice President North Carolina Trust Co.; Secretary and Treasurer Greensboro Securities Co., Greensboro, N. C.

have been relieved of are the heaviest burden which a new company usually has to bear.

The provisions of the issue itself, make it an exceptionally attractive investment. After the regular 8 per cent. dividend has been paid on the Preferred Stock, the Common alone can receive an amount equal to not over 6 per cent. of the outstanding Preferred according to the charter of the company. All earnings in excess of this amount must be divided equally between the Preferred and Common. It will thus be seen that the former, besides its prior claim to the company's earnings, shares in the additional profits which ordinarily go entirely to common stockholders.

The organizers of the AMERICAN-SOUTHERN MOTORS CORPORATION decided to offer this issue of stock for public subscription not solely for the purpose of raising its funds in this way, but to create a widespread interest in the undertaking, Dixie's greatest automobile manufacturing plant. With this idea in mind, the subscription price of the initial issue of stock was placed at a figure within reach of all. This will enable thousands who live in the territory in which the AMERICAN will be distributed, to assist in its sale by word of mouth advertising, and at the same time to share in its Southern prosperity, a relationship of mutual advantages. This stock is being offered at its par value of \$5 per share, subscriptions to be allotted in the order received. We reserve the right to withdraw this offer without notice.
