Military Event of the Present Year. Washington, May 24.—The competitive drill began at 10 o'clock this morning. Company A, First Minnesota Regiment, was the first company to enter. They drilled well. The second company was the Eighth separate company of Rochester, N. Y. These two companies drilled in the south of the grounds too far from the grand stand to be seen to advantage. Next followed the Muscatine Rifles of Iowa. They marched to the front of the grand stand, saluted the judges and began to drill. They handled their pieces well, but were a little weak in foot movements. They were liberally applauded. Then followed the Grand Rapids Guards, Company A, First Battalion Virginia (colored) Volunteers, Southrons, Vicksburg; Company A. First Virginia Regiment. Popular demonstrations indicated that the Vicksburg men and Company A, First Virginia Regiment, had won the greatest favor of the day. The competing com-

officers and two gun ! s. The program of marceuvres was de livered to each company's commander one hour before the time allotted for the corps' appearance, and the men were kept in ignorance of the manœuvres they were to execute till the orders were actually given. In general terms, they were to exercise first in the school of the soldier (that is without arms) then in the manual at arms, and lastly, in the school of the company. Thirty minutes were allotted to each company to complete its program. A furious thunder and wind storm came up proceedings. The crowds scattered at once. The roof was blown off a large part of the grand stand and the canvass, rocks, forts and war vessels, and lighthouse of the "Pyorama" were tipped over and scattered. The order for dress parade at 5 p. m. was rescinded. For the proposed dress parade commands have been organized in provisional battalions, in which the troops of the respective sections of the country are grouped together as far as possible. Kentucky, Ohio and District of Columbia men each form one battalion; Texas, Mississippi and Missouri form one; the Governor's Guard of North Carolina are with Michigan and Minnesota men; the Virginia troops constitute a separate brigade, already completely organized under Gen. C. J. Anderson. The total number of men in camp is about 2,800, in seventy organizations. One-third of the total their hands and don't intend to make any rooted many trees. are Virginians. Three-quarters of the mistakes if they can prevent it." commands have entered the competition for infantry prizes, one of which is colored. Four colored companies are in camp, two from Virginia and two from the District of Columbia.

Washington, May 25 .- The parade of troops to-day for review by the President has afforded the first opportunity for seeing at once the entire body of those forming the encampment, and was an unqualified success. The weather was perfect, Washington looked its best, and the greater part of the population seemed to be on the line of march. The arrangements for the parade were seasonably completed and were carried out almost to the allotted second and without an apparent hitch or break. The head of the column started from camp promptly at 12 o'clock and reached the stand erected for the President and invited guests ten minutes later. This stand had sents for nearly 300 persons, and was well filled, without crowding. With the President were Mrs. Cleveland, Mrs. Welsh and Mrs. Marsey, and Colonel and Mrs. Lamont. General Sheridan and several members of his staff in full uniform were their escort. Among the guests of the drill were Governor Lee, of Senators Sherman and Gorman, the ladies of their families, and a liberal sprinkling of other legation and army people. The troops looked and marched like veterans, and were encouraged with liberal applause. In one respect the programme was departed from. The Vicksburg Southrons, with their band and the Memphis Zouaves, brought up the rear with quite an interval between them and their predecessors. They formed in fact a li-le column by themselves. They had been assigned to positions respectively in the fourth and ninth provisional battalions, but dropped out of line because, as their officers plained, they were placed immediately behind the colored organizations. Another heavy shower about 4 o'clock

prevented the dress parade, scheduled

for 5 o'clock.

WASHINGTON, May 26 .- The Richmond Greys broke camp this morning and left for home. They came here with the understanding that they would not remain after they had taken part in the competitive infantry dr.ll. Company A, Third North Carolina Regiment, also returned home to-day. The reason is that many of the members are engaged in business, and they were unable to obtain leave of absence beyond to-day.

The weather was superb to-day. The

day was industriously devoted to com petitive drilling and the authorities, profiting by experience and criticism, are making the work very interesting. Seven or eight thousand spectators were on the grand stand.

The competing infantry companies were the Governor's Guards, of Raleigh, N. C.; the Louisiana Rifles; the Sarsfield Guards, of New Haven, Conn. Company C, first N. J.; Company B, Washington Light Infantry Corps; Toledo, Ohio, Cadets, and Company A, Washington, D. C.. Cadets (colored). Three of the companies are worthy of special mention: The Louisiana Rifles, the Washington Light Infantry (Washington's crack corps) and the Toledo Cadets, the Toledo men probably carrying off the palm.

The competition for the artillery prizes

was narrowed to two companies and the contest consequently was for the first prize of \$1,500. The Petersburg, Va., company had withdrawn from the contest. Had there been a third contestant a second prize of \$1,000 would have been awarded. One company from Indianapolis and

one from Milwankee drilled to-day. The guns, horses and drivers, and also the judges of the contest, were furnished by the Third (regular) Artillery. Two guns and caissons were manned by the visit-ing militia and were drilled by their own captains. Both acquitted themselves

The rifle competition also came off. Ninety-eight entered, but only thirtyeight reported. The highest score of the day was that of Lieutenant Pollard, of the Washington Light Infantry. Pollard was a member of the International Rifle team which went to Wimbledon a few years ago. Eighty-three was scored by Lieutenant Bell and Private Johnstone, of the Continentals, of Washing-

Iowa, and Private Steyer, Second Maryland. Many companies will leave tonight and to-morrow.

The Time Not Yet.

Some New York papers are strongly in aver of a Southern man for second on the next Democratic Presidential ticket We have our doubts about the sincerity of policy on the part of our Northern riends. The Chronicle would like to see a Southern man thus elevated and this paper would lead all of its energies in this direc ion, did we think the time propitious for such a move. But the South can wait a while longer. We cannot afford to sucrifice one of our leaders just now. We can gain nothing by haste. The South has exercised patience and has bided her time. She can afford to wait awhile longer. We have no objection to any Southern man named for he position. Either one would give us exreme pleasure to see elected. But can the Democratic party do it, is the question. The time has hardly come for this step.—

\$1.00 WORTH \$50000 For four years I have been a sufferer from a terrible form of Rheumatism, which reduce i me so low that all hope of recovery was given up. I have suffered the most excruciating pain day and Try to stay awake to catch some night, and often while writhing in agony have wished I could die. I have tried nothing did me any good, and have had some of the finest physicians of the State to work on me, but all to no effect. I have spent over \$800 without fluding relief. I am now proud to say that after using only one bottle of B. B. B. I am enabled to walk around and attend to business, and I would not take \$500 for the benefit received from one single bot-tle of B. B. B. I refer to all merchants and business men of this town. Yours E. O. GARA. most truly, E. O. GAR Waverly, Walker county, Texas. Demonstrated Merit.

CAUTION.

I have had blood poison for ten years. I know I have taken one hundred bottles of lodde of poissh in that time, but it did me no good. Last summer my face, neck, body and limbs were covered with sores, and I could scarcely use my arms on account of rhannesses in my shoutlers. I took N. S. S., and I has done me more good than all other medicities I have taken. My face, body and neck are perfectly clear and clean, and my rhead matism is entirely gone. I weighed 116 pounds when I began the medicine, and I now weigh 152 pounds. My first bottle helped me greatly, and gave me an appetite like a strong mun. I would not be without S. S.
