The second objection of "X. Z," that the change would interfere with the present arrangment of the jurisdictional territory of the judges, has no foundation. The solicitor's office may be abolished or amended and amended again without interference in lite and gentlemanly clerk, Jimmy, is the least with the territory of the cir-

Our Washington Letter. [From Our Own Correspondent.]

WASHINGTON, D. C., June 13, 1887,

Not the least among the advantages that the city of Washington enjoys, is its situa-tion on the Potomac River, and its easy access to places of historical interest, as well as resorts for pleasure, along its shores. Comfortable excursion steamers, after

At the opening of the civil war, Alexan-dria was in possession of the Confederates; but on the 24th of May, 1861, it was entered by Union forces under Col. Ellsworth, who was shot while hauling down a Confederate

Alexandria has this year taken a new lease of life, and a new era of prospeaity has set in with the establishment of her iron ship building yard, where a first-class iron steamer is now undergoing construction.
