GROVER CLEVELAND.

A TALK WITH ONE OF THE PRESI-DENT'S SCHOOLMATES.

Some Interesting Incidents of His Childhood's Days-The Qualities Which Have Since Distinguished Him Manifested in

(From a Washington Letter.)

I had quite a pleasant conversation last evening with one of President those charmed pages about the same Cleveland's old schoolmates, who is now time. I have no doubt that they left an occupying a position here in one of the as they surely did on my own. Government departments. The old schoolmate of the President's was born at Fayetteville, New York, the town that Mr. Cleveland visited some weeks ago.

Their first school days were presided over by O. D. Blanchard, who is still living.

"GROVE" A GREAT FAVORITE.

"Grove,' as the boys all knew him," said my informant, "was always a favor-ite in and out of school. He was a strong, good-natured youth, about as studious as the average school boy, and did not, as I recollect him, evince any special liking for books. In leed, there was nothing about him when we were school boys together that indicated uture greatness. There were many other boys there who were called brightr. Although 'Grove' was full of fun and joined in all the boyish sports, such as riding down hill, snow balling and the carrying off of front gates, there was a certain marked earnestness in his mannor which distinguished him from the other boys. When we went to the Fayetteville Academy, 'Grove' belonged to a debating society, and I frequently heard him in debate. He was not really a fluent speaker, but I remember very well that he rapidly developed into a close and forcible reasoner. If his argu-mentative blows did not flash with brilliancy, they were heavy and effective for a boy of fourteen years of age.

TOUNG CLEVELAND COURAGEOUS. "Grover was a decidedly courageous boy. He would patiently bear a great deal of hectoring before he would fight, but he was a hard antagonist when his wrath became kindled. I recollect one occasion when he gave an exhibition, not only of his courage, but also of his about either of them. I saw them subject. ability to defend himself against the almost every day in and out of school. The preassanits of a fellow almost twice his size. This individual was one of our school bullies. He was a firm friend and an agreeable companion, though not inclined to be demonstrative, more and to listen quietly than to lead in conversation. He was thoroughly upright, truthful and conscientious, and all who knew him regretted when, at the age of seventeen, he left the village to join his father's

family at Clinton. "If young Cleveland was not a brilliant boy at the accelemy, he was certainly noted for patient industry. If he did not excel in any particular branch, his status for general proficiency was equal to that of the best of his fellows there. Geometry was not taught at the Fayette ville Academy in our day. Algebra was Next to politics, nothing creates the highest of the mathematical instruc-

favorite studies; indeed, his mental current appeared quite early to run toward the exact sciences, and to logic especial-ly. History was another of his chosen studies. A member of his father's church had a fine library to which many of us had free access, and Grover availed himself of the opportunity thus offered to enrich his mind with historical read-

A Newspaper Man, an Interview and a Check.

Del Norte, Col., September 20.—A week ago last Sunday a young man arrived here and registered as E. L. Vance, Mexico. He announced that he was a special correspondent of the New York Herald, and exhibited a telegram signed James Gordon Bennett, instructing him to interview Senator Bowen upon the leading questions of the day. He was well received, and obtained an interview, not only with Senator Bowen, but other prominent citizens. The following day he proposed to leave by stage sor Villa Grove. Prior to his departure he asked one of his new acquaintances to identify him at the bank, where he presented a \$200 check on the Chemical National Bank of New York, signed by James Gordon Bennett and payable to Edward L. Nrnce. The check was cashed. To-day telegrams were received stating that Mr. Bennet had no money in the bank and denouncing Vance as a fraud. Vance is tall, very slender, dark complexion, wore eye-glasses and a slight monstache. He showed a wide newspaper experience and an ability to catch the unwary.
