CANDIDATES.

FOR COUNTY TREASURER. The friends of JOSEPH SPROTT, Jr., knowing him to be a good business man, a true and tried Democrat, and thoroughly competent to discharge the duties of County Treasurer, announce him as a candidate for election at the coming primary election.

FOR CLERK OF COURT. We are authorized to announce JAMES E. DAVIS as a candidate for re-election to the office of Clerk of Court, subject to the decision of the Democratic party.

I hereby announce myself as a candidate for the office of Clerk of Court, at the ensuing Primary Election, subject to the action of the Democratic party.

FOR COUNTY AUDITOR. I hereby announce myself as a candidate for re-election to the office of County Auditor, pledging myself to abide the action of the Democratic party.

FOR COUNTY COMMISSIONER. We are authorized to announce Mr. T. J. COLE as a candidate for re-election to the office of County Commissioner, subject to the action of the Democratic party.

The many friends of Mr. J. H. JOHNSON, believing him to be fully competent, and thoroughly qualified to fill the office of County Commissioner, beg leave to present his name as a candidate for that office, subject to the action of the Democratic party.

FOR THE LEGISLATURE. The friends of Hon. J. E. TINDAL here-by present him for re-election to the House of Representatives.

We are hereby authorized to announce A. LEVI as a candidate for the Legislature, subject to the action of the Primary.

Resolved, that the Friendship Democratic club having learned with profound gratification and pride, that their worthy fellow citizen, Col. J. N. O. BROCK, has, at the solicitation of the voters of this county, consented to become a candidate for a seat in the House of the General Assembly, do hereby pledge him our cordial and unanimous support for the same.

We are authorized to announce Mr. E. R. PLOWDEN, Jr., as a candidate for re-election to the House of Representatives, subject to the action of the Democratic primary.

Your Name in Print. —Miss Letta Galluchat has returned from a visit to Paola.

—Miss Julia Bralford is visiting at Mrs. Ross Galluchat's.

—Miss Lillie Davis is visiting in St. Matthews.

—Mrs. Geo. H. Huggins is on a visit to her parents in Chester.

—Miss Annie Lipsy returned last Saturday to her home in Chester.

—Mr. Davis Logan, of Charlotte N. C., is on a visit to relatives in town.

—Mrs. G. Alexander, accompanied by her little sister, Daisy Brown, returned last Friday from a visit to Marion.

We regret to note the death of Miss Maggie Muldrow, daughter of Mr. Wm. Muldrow, of Sumter county. She was an accomplished and lovely young lady.

The Democratic Executive Committee will meet next Friday in the Court House, to canvass the votes, and determine who have been elected, and who are to be the candidates for the next primary.

The meeting at the Baptist church continues with interest. A very large congregation was in attendance last Sunday morning, and Rev. T. J. Rooke preached one of his ablest sermons.

The entertainment given last Thursday evening in the Court House, by the ladies of the Methodist church, was an enjoyable occasion. The music was well rendered, and the acting good. Mr. Jos. H. Montgomery "brought down the house" several times. Misses Nomie Harvin and Minnie Moore, and Mr. W. C. Davis, each recited a selection. The financial part of it was a success, about forty dollars having been realized by the ladies.

Primary Election.

The following is a condensed report of the number of votes received by each of the candidates, at the Primary Election yesterday, except from Fulton, Sandy Grove, Motts, and Bethel clubs. From this data we think it may be safely inferred that those candidates before whose names a 1 appears have been elected; those before whose names is a 2 will enter the second primary. T. J. Cole, E. C. Horton, and J. J. Harvin are running close together, though it is difficult to predict which two of them will enter the second primary.

There will be a match game of base ball played at Paola to-day between Manning and Paola clubs.

We heard of a man, yesterday, who voted a ticket with but one name on it—a selfish act to say the least of it.

Politics just now overshadows everything. The first primary was yesterday; the executive committee will meet Friday to canvass the votes; the second primary will be the 4th of September; the votes canvassed the following Friday; and then—all will be quiet.

The weather has been rather cool the past few days, in great contrast to last week's intense heat. This has been a flicker summer. The rains in Manning have recently been plentiful, while only a few miles off, towards Paokville, we were told last week it had not rained in ten weeks.

During a thunder storm last Saturday, at McClure's mill, lightning struck the iron truck-truck. Mr. J. W. Hodge, who was standing about fifteen feet distant, was knocked down by the shock and rendered senseless, but he soon recovered consciousness and is all right again. He says it was quick work.

The reaper Death again has been in our midst, and this time carried away the sweet little babe of Mr. and Mrs. W. S. Harvin, who died last Sunday afternoon after an illness of but a few hours. Brief was the sojourn of the little angel visitant, but long enough to draw many hearts around her in tenderness and love.

MARRIED, on Friday evening, August 10th, at the residence of Mrs. Sallis Wells, by the Rev. Mr. Williams, of the Bishopville Baptist church, Mr. — Duran and Miss Kate Keels, all of Sumter county, and the bride recently a member of the Inter-County Teachers' Institute held at Manning. This is a pleasant episode and a fitting close to the exercises of the week.

Our courteous young Doctor Sally, of this town, escorted some young ladies to the depot yesterday morning to see them safely aboard. The conductor did not allow time for one of the party to get on, and carried Dr. Sally to Sumter, requiring him to pay not only his fare, but the extra charge for having no ticket. This is reprehensible in the extreme, but we know Dr. D. enjoyed it.

It is painful to chronicle the sudden and violent accident, at Wilson's, last Thursday afternoon, resulting in the death of Harry DuPont, the oldest son of our esteemed fellow citizen, Capt. Jos. H. DuPont. From the report current we glean the fact, that he was engaged in hauling from his father's farm some forage, but before reaching home the mule became frightened and ran with the vehicle. The little fellow, about twelve years of age, is supposed to have been kicked in the breast, from the effects of which he died very soon. These are the solemn fatalities of life, one moment in the bloom of youth, health, and promise of long existence, when in a moment the unseen Destroyer lays low our hopes.

"Don't tell her she is pretty, that bright, rosy-faced girl with the pink and white cheeks and the little tempting rosebud mouth." So says a sermonizer in the Omaha Bee, who runs on: "Let her retain her girlish innocence as long as possible. How many girls of the present day seem to have lost all girlishness and freshness in their earliest teens; seem even at that age to have grown tired of empty compliments, and to look upon the world with a wisdom and instinct away out of keeping with their years. To many a bright, intelligent, but injudiciously petted girl the voice of praise and flattery is as common as fully expected, and almost as necessary to her existence as her daily meals. She imagines all the young men of her acquaintance madly in love with her; her young lady friends wild with jealousy, and with an ever-present consciousness of her charms, she becomes, instead of the genial, laughing, pleasant companion she should be, conceited, selfish, and haughty."

The Columbia correspondent of the News and Courier, Aug. 13, says: The superintendent and the physician of the Penitentiary returned last night from a visit of inspection to the convict camps on the Eutawville Railroad. At Summerton, in Clarendon County, there have been two camps on this road comprised by over one hundred and fifty men, and it was found that there was an epidemic of dysentery prevalent at one of them. Many of the hands were quite ill and the superintendent at once, on the advice of the Penitentiary physician and also the resident physician at the camps ordered all of the convicts who are not able to work back to the penitentiary for treatment. They are expected in a few days, and it is hoped that a change of air, diet and careful treatment will soon restore them to health. The dysentery became epidemic among these hands while they were at work in the phosphate works near Summerville, and they were removed to the Eutawville Road with the hope that they would be benefited. They failed to improve and the disease had become chronic, and they are now ordered back to the Penitentiary for complete rest and treatment.

Remember the meeting of the building and loan association next Thursday afternoon at 5 o'clock. Let there be a full attendance. No money will be required to be paid till the charter is obtained and the association is regularly organized, but it is necessary to know at once how many shares will be taken, and who will take them.

Thrashing a Sneak Thief. John Ashby Nelson, a colored boy of this town, was caught last Thursday afternoon in the act of raising corn, not however by the time honored method of hoe and plow, but through the far more expeditious method, from the cart of Mr. George Ridgill, who had left it only a moment before, going into the store of Mr. Weinberg. On returning he found one sack gone, and the boy preparing to make another haul. When accosted as to the missing grain—feeling no doubt that it was an event in his life needing explanation—he replied that the corn had been taken by him just to see what he (Mr. Ridgill) would say about it. Mr. Ridgill appears not to have appreciated this practical joking, and with wherewith he fell aboard the darkey and thrashed him soundly, only desisting when the thief burst like a battering ram through the fence around the lot and escaped.

One-out-of-nine-tails is worth all the Statute Laws in the State to punish and prevent such acts.

A Convict Killed. On last Wednesday, one of the convicts at work in the lower part of the county, on the new railroad, made a bold dash for sweet liberty's sake, and was fired upon by the guard five times. One shot striking a vital point resulted in his death the following day.

It is said the convict alluded to expressed indifference, as to whether he died from a gun shot wound or the Santes Swamp fever. He made the fatal choice, and has gathered in the results.

A Bold and Skillful Rider. On the Fork Road leading to Manning, and just across Black River, Mr. Tom Cole, a son of our County Commissioner, T. J. Cole, while riding a highstrung young mule, performed quite a feat in horsemanship, one day last week.

The mule, as we were told, commenced running and careering with him, and ended the frolic by plunging headlong into one of the side ditches of considerable depth, and out again with the agility of a cat. Mr. Cole held his seat under these trying circumstances, and finally brought the animal under control without injury to either.

The election in this place passed off very quietly and pleasantly yesterday; in fact, there has been better feeling and less mud-slinging this campaign than in any for several years. One man from the country got a little too much of "the crather" in hand, or rather in head, and a policeman was about to take him in tow, when he made a run for liberty. He got on his horse, and started, but after running a short distance, he fell off. He did not let go his horse, however, and before the policeman could overtake him, he was up and mounted and made a final and successful escape.

Mr. Ferdinand Levi, who now conducts the mammoth establishment at Bogin's old stand, and who has prospered beyond his expectations in his business since his removal to this city, has gone to New York to purchase his stock of fall and winter goods. Knowing, as we do, the enterprise and energy of Mr. Levi, and his fine judgment in the selection of goods, we can safely say that the people of Sumter will find at Mr. Levi's an assortment of goods not to be surpassed by any store in town. Therefore look out for his return, which will be becomingly announced at the right time and in a method that will, if heeded, be both pleasant and profitable to all parties. —Sumter Advance.

The Road Law. The following excerpts from the Road Law are published by request: DUTIES OF SUPERINTENDENTS OF HIGHWAYS.

He shall require the overseer of roads in his highway district to call out the hands assigned to their respective sections, and work the roads, and repair and build bridges of same, whenever he may deem it necessary, after twelve hours' notice; and shall require every road hand to bring with him for use a hoe, axe, mattock, spade, or other tool for work on the road or bridge, and shall determine the number of days, for each working, and the tools to be brought by each road hand: Provided, That not more than twelve days' work are required of any one hand in a year.

DUTIES OF OVERSEERS. When any highway shall be suddenly obstructed by storm or otherwise, it shall be the duty of the Overseer, to proceed forthwith to have such obstruction removed, and for this purpose shall summon to his aid a sufficient number of workmen. If, on any such extraordinary occasion, the Overseer shall, for the space of a day after application made to him for such purpose by any citizen residing in his district, fail to call out a sufficient number of persons to speedily open and repair such highway, he shall forfeit and pay to the Treasurer of his County, to be expended in the repair of highways, when and where necessary in his district, the sum of fifteen (15) dollars.

The Kingstree Record says: "Robt. Moore and Handy Moore, white, and William Scott, black, of Anderson township, were committed to jail at this place Monday evening for hog stealing. They all confessed their guilt before Trial Justice Martin. The Moores are young men, not over eighteen and twenty years respectively, and Scott a married man with a family.

A week or ten days ago, the members of Calvary (colored) Baptist church, Newberry county, missed the money held a mortgage, and it was stolen. But last Sunday some one found a dead dog, a mile or two from the church with its head in the stove. Somebody had probably thrown a piece of bread in the open door of the stove, and the dog while prowling around, stuck his head in the stove to get the bread and got it fastened. In trying to free himself he dragged the stove until he became exhausted and died.

The same Adams who swindled citizens of Rock Hill and vicinity by selling horses upon which other parties held a mortgage, got in some of the same work in this city, and in Clarendon. Mr. Ducker, of Ducker & Bultman, bought a pair of horses from him which have been seized under mortgage by the Sheriff, acting as agent for the mortgagees. We learn that it is his intention to contest the case in the courts. Pass the rascally Adams around. He has sloped for Texas, it is believed. —Sumter Watchman.

Fragments from Foreston.

Sad and Sudden Deaths—Justice Courts—Personal Mention.

FORESTON, Aug. 13.—Last week brought much sadness and sorrow to our usually buoyant and bright little town. Death has been in our midst, and claimed as his victim, first the infant son of our esteemed townsfolk, Mr. and Mrs. W. T. P. Sprott, and very soon after its decease there came a runner to Capt. W. R. Coskey, who was at Mr. Sprott's, saying that Harry, son of Capt. Dupont, had been killed by a mule. The two were funeralized at the Methodist church here on Friday at eleven o'clock, and buried at our cemetery soon after, the Rev. Mr. Porter officiating.

On the same day (Friday) an infant of Mr. Dick Hodge died, and on Saturday morning early our Trial Justice was summoned to Mr. Gideon Dennis's to hold an inquest over the body of Morgan Tucker, who had fallen dead there, at about eleven o'clock the night before. An inquest was accordingly held, and from evidence brought before the jury, it agreed that his death was accidental, he having been attacked by paralysis, epilepsy, or heart disease. Our sympathies are with the bereaved.

In the trial justice court last week the following cases were disposed of: The State against Mariah Williams, assault and battery, fined \$2.50 or ten days. She paid the fine. The court will convene again to-day, when the case will be disposed of: The State against Elsie Lewis, assault.

Miss Florence Oliver has returned from a visit to Summerton.

Mr. H. B. Drose and family returned from Florida on Saturday last.

Mrs. J. C. Davis, of Marion, is on a visit to her parents, Dr. and Mrs. S. P. Oliver.

Mrs. Jones, of Lake City, is visiting at her daughter's, Mrs. J. J. Bragdon.

Miss Ethelyn Bragdon is visiting relatives in Marion county.

To-morrow is the primary election. It is to be hoped every voter will turn out, and do his duty.

The R. R. Co. has been making a little improvement here upon the depot, and has also put up some neat cottages for the section hands. The street here is being cleaned off. Crops are fine,—so that on the whole Foreston is on a boom.

Col. Hudgins Answers Creeker. FORESTON, Aug. 11.—Mr. Editor:—"Deep Creeker" has pitched into me without gloves, though he has mistaken my title, as corporal is the highest honor I ever had conferred on me. He and all the Creekers are welcome to the advice given as to my mode of preparation and cultivation of corn land, but it only applies to Foreston lands, inasmuch as it would be necessary for them to make a detour to obtain anything like a satisfactory result. As to my pomological knowledge, I must confess I am an deficient since I have never swallowed Webster's spelling book, nor Green's Almanac. Nor was I before aware that "Creeker" was one of the passengers on the emigrant ship Azor that sailed from Charleston a few years ago for Liberia. I am glad he was so fortunate as to make his escape, and return to deep Creek, so as to enlighten us on the geography of that sunny land.

"Creeker" wishes to know whether it is best to gather corn when silking and tasseling, or wait until it is matured. If to feed young calves the former; if old oxen, the latter would be preferable. R. R. H.

Notes From Jordan. JORDAN, Aug. 11.—Things are moving on quietly in our neighborhood, save the farmers, who are a little enthused in regards to an agricultural college. But according to my opinion they had better get more interested about the common school system of our country, which is shamefully neglected. For the day when the common schools are made perfect in our State, that will be the day that the feet of old South Carolina will be placed on a rock, and from that time onward, every step she ascends will be solid under her feet.

The weather has been quite warm for the last week. We have been having very heavy rains with much thunder and lightning.

The farmers are all about through gathering fodder. They have worked long and their toils have been great, but now has come the harvest and the time of reaping.

It was my good pleasure last Sunday to attend a two days' meeting held at Bethlehem. Rev. Mr. Wannamaker preached to a large and intelligent audience in the morning in his general eloquent manner. Mr. Brown preached in the afternoon. M.

Death of Rev. A. E. Edwards. SUMTER, August 9.—Rev. Edward A. Edwards, one of the best known men of this city, died this morning at his home of brain disease. Mr. Edwards was a Baptist minister, and a native of this city. He was the richest man of the South. He lost a large part of his fortune in the failure of the mammoth concern of Green, Watson & Walsh of this city. He was a graduate of the South Carolina College, and resided in Sumter many years prior to his death.

A Frenchish Attempt. A railroad accident, which might have proved fatal to the large number of passengers on the Northeastern train for Columbia, last Friday night, was avoided by a chance equally as unusual as it was fortunate. As the train was crossing a trestle near Otranto the passengers were surprised by a sudden lurch of the train forward, and a abrupt stop. Upon investigation, it was found that some one had torn a rail off the track on the trestle which is just beyond Otranto. The locomotive had, strange to say, kept on the one rail, the wheel on the other side having followed the sleeper and mounted the track after passing the break. The mail car and combination coach and baggage car followed, but the passenger coach was derailed, and narrowly missed being thrown in the creek below. —Charleston World.

A Rapid Run to Charleston. On Tuesday last Mr. Dave Justice, engineer of engine No. 70 on the Atlantic Coast Line, ran his train, the afternoon passenger, from this city to Charleston in remarkable time. The whole distance, 137 miles, was made in just three hours and four minutes, or 184 minutes. Twelve full stops were made, and two "slow downs" of three miles each to a rate of fifteen miles an hour, and also the rules were conformed to requiring fifteen minutes to make the run from Ashley Junction to Charleston, 64 miles. The best time was made between St. Stephens and Ashley Junction, a distance of 39 3/10 miles, which was made in exactly thirty-eight minutes, time being taken when the throttle was opened leaving the first named place and when the engine came to a standstill at the latter station. This is believed to be the best run ever made between this city and Charleston, when it is taken into consideration the number of stops, the running of six miles at a rate of fifteen miles an hour, or four minutes to the mile, and 64 miles, at 24 minutes to the mile. —Columbia Register, Aug. 2.

May His Kind Increase.

Maj. D. R. Duncan, of Spartanburg, who is a candidate for Congress from the Fourth District, set an example the other day that not only shows the true grandeur of the man's character, but one that is worthy the emulation of all of our public men. At the Congressional Convention, which met at Laurens last week, a motion was made that the nomination be made by primary election. This was opposed by the delegates from Fairfield county, who wanted the old convention plan continued, and in hopes of carrying their point they assured Maj. Duncan's friends from Spartanburg, Laurens and Union counties that if they would vote for the convention plan that Fairfield's eight votes would be given to Duncan, thus nominating him by a handsome majority. Because his county had instructed its delegates to vote for primary, however, Maj. Duncan would not consider the proposition for a moment, saying he would rather be right than be a Congressman. We say hurrah for Maj. Duncan. May his kind increase until there will be enough of them to fill every office in the land.—Orangeville Times and Democrat.

Yellow Fever. New York, August 13.—Specials from Jacksonville, Fla., report three new cases of yellow fever yesterday, Edgar Davidson, freight agent of the East Tennessee, Virginia and Georgia Railroad, the chamber maid at Pablo, where Capt. Tuttle died on Saturday, and Mrs. Patrick Fallon. The wife of the city jailer and Mrs. McClelland, reported sick on Saturday, died yesterday afternoon. Fifty teams and large gangs of men are engaged in cleaning the streets, hauling and burning garbage and rubbish. Five or six fruit stands and several small buildings have been burned. Coal tar and pitch fires are blazing in all parts of the town and in the vicinity of the city. Powerful disinfectants have been freely scattered about the city. It is estimated that 10,000 people have fled from the city. Business is at a standstill, the stores keeping open only during the middle of the day. The hotels are closed.

For twenty-five new subscribers, accompanied by the cash, we will give a handsome new Singer sewing machine, improved, with latest and best attachments. The machine is sold by Moses Levi for \$25. This is an extraordinary offer. The machine can be seen at any time in the Times office.

A Real Necessity. We presume there is hardly a lady to be found in our broad land, who, if she does not already possess a sewing machine, expects some day to become the owner of one.

But after the mind has been fully made up to purchase one of these indispensable articles, the question arises as to what kind of a machine to buy.

It should be so simply constructed that the most inexperienced can successfully operate it. The other points mainly to be considered, and which are the most desirable, are durability, rapidity, capacity for work, ease of operation, regularity of motion, uniformity of tension, and silence while in operation.

The "Light-Running New Home" fills the above requirements, and is said to combine the good points of all sewing machines, with the addition of many new improvements and labor-saving devices.

The price is no higher than that of other machines, and every lady who is the happy possessor of one may rest assured she has indeed a treasure. SEE ADVERTISEMENT.
