

Some people think that anything bought away from home is better and cheaper than if bought at home.

Others have a dislike of buying at home, simply because they think it looks and sounds bigger to have it said that they buy everything off.

Others, and they are very few, buy away from home, because they actually find it cheaper to do so.

It pays to buy at home and to patronize home industries. The home merchant makes his profit if it is true, we expect him to do so, but even with his profit, if he is the right kind of a business man, he can afford to sell the goods almost as cheap as they can be bought abroad, make a fair profit for himself, and yet we shall pay but a fraction more than if we had bought away from home.

Our merchants are a great convenience, and we ought to take that into consideration. They invest their money, and must have a profit on it. They keep on hand many things that we could not well send off for, in fact the merchant is a necessity in every neighborhood.

But the merchant must, of course, keep in reason in his profits. If he makes too great profits, some way and means must be employed to bring him within reason. This is the position of the Farmers' Alliance.

They claim, and with reason, too, that the merchant has taken advantage of their necessities, and overcharged them and ground them down to the earth.

But is the merchant altogether to blame in this matter? Does he not know that there are men, who, if they can will swindle him? Is it not a well known fact that a great many men in the State, yes, in Clarendon county, who will not pay, if they can avoid it?

We venture the assertion that any and every merchant in the county can produce a list of such dead beats. We have been in the county of Clarendon for a little more than seven years, and we have in our office a list of about four hundred such men.

Some of them "stand well" too, but not with us, or with any other business house who has ever trusted them. Now these losses from bad men must be made good by good men. The honest men must pay the losses.

Speaking from personal experience we have quit the credit business now, and have made some money since we did so. We can now afford to have Grand Gift Distributions, and yet make money, but we could not when we were losing money on dead beat subscribers.

Stop credit, and prices will go down. One of the best aims of the Alliance, the noblest aim, is to get men to pay their debts, to teach them to be honest.

No Alliance man is true to his obligation, who fails in this respect. Let this one purpose be accomplished; let the standard of society be so raised that any man who defrauds his neighbor will be ostracized, and prices will go down.

Clarendon County Farmers' Alliance Directory.

We desire to publish a complete directory of the Farmers' Alliance, State, county, and sub. We have only a few of the sub-alliances complete, but if these alliances not fully reported will give us the name of their business agent and regular time of meeting, we will complete the directory.

We propose publishing this directory regularly, and ask that the secretary of each alliance will see to it that any change in the officers or time of meeting is promptly reported to us.

Next week, we shall publish a more complete directory, including the officers of the State Alliance.

The Lake City Weekly, W. L. Bass, editor and proprietor, after a year's existence, has suspended. One paper is enough in a county like Williamsburg.

The extreme length of the city of Chicago is twenty-four miles, its extreme width is ten miles, its area is one hundred and seventy-four miles, and its estimated population is 1,100,000.

A sure enough "race war" will take place soon. It will be between Jackson, the Australian negro, and John L. Sullivan. The problem will be decided in California under Marquis of Queensbury rules.

Modern political economy: License the bar-rooms and beer-halls that make vice and pauperism, and then tax the people to support the penal and charitable institutions that are crowded by the victims.

You cannot permanently elevate the moral condition of any people, or give them any permanent pride, or decency and comfort in the houses in which they live. Let philanthropists think of this.

The Atlanta Constitution says the population of that city, according to the now complete returns in the city directory office, is over \$7,000, against 77,677 last year, and \$7,000 in 1880. This remarkable growth in population causes the Constitution to indulge in big expectations, and it predicts that in 1900 Atlanta will have a population of 200,000.

Our Charleston Advertisers. There are a great many of our people who prefer trading in Charleston, and by reference to our advertising columns they will find the advertisements of the leading business houses in that city.

[Extract from Minutes S. C. Conference.]

Rev. Abraham Nettles.

Died, November 6th, 1889, after an illness of ten days. He was born near Summerville, S. C., June 4th, 1808, joined the South Carolina Annual Conference at its forty-ninth annual session in Columbia, February, 1836.

He leaves a wife and four grown children, three of whom reside in Clarendon county, and one in Texas. An older brother survives, and only a few weeks ago a sister died, aged eighty-seven years.

Fifty-four years have passed since he connected himself with the South Carolina Annual Conference, embracing two years in the local ranks. For thirty-nine years he was in the active work, but increasing debility made it necessary for him to occupy a superannuated relation for the last thirteen years of his life.

Though not educated in a technical sense, his logical mind was well trained. His special intellectual strength appeared in the force with which he conducted an argument.

He was master of Methodist theology and vindicated it through many a hard fought campaign. His mind was clear as a sun-beam, and his bow abode in strength. He never rambled or scattered in his discourses, but with a point in view he reached it, with the accuracy of an accomplished archer.

When he began his ministry, fifty-four years ago, Methodism in this State was weak, poor, misunderstood, and scattered. The South Carolina Conference embraced South Carolina, Georgia, Florida, and a large part of North Carolina.

There were few if any stations, and her circuits were large and laborious, many of them numbering from twenty-four to twenty-eight appointments. It needed just such a warrior to lead her hosts to battle and to victory.

His was the mind, heart, and education for the times, and his success was marked. In the home circle all looked to him as the principal. He was kind, tender, and loving.

The writer was often with him in his last illness. His faith was strong in God, and the nearer he approached the final crisis the more confident, earnest, and confident were his words, and his last utterances were not those of the vanquished, but of the victor, and with his faith reposing in God, he fell asleep.

THE FORTY-NINTH SESSION OF THE S. C. CONFERENCE was held in Columbia, S. C., Feb. 1889, and therefore Mr. Nettles was a member of the Conference fifty-five years, instead of fifty-four.—EDWIN TAYLOR.

A Call for a Sunday School Convention. SPARTANBURG, S. C., Jan. 19, 1890. To the Sunday-school Workers of the State of South Carolina.

DRAWN BY: The Interdenominational Sunday-school Convention of South Carolina is hereby called to meet in the city of Columbia at 8 o'clock the evening of the 4th day of March, 1890.

An attractive program, with speakers representing all sections and denominations of the State, is being prepared and will be announced through the press in a few weeks. Arrangements for special excursion rates will be made with railroads and published in time for the information of all concerned.

In the several counties where no interdenominational associations are organized, the denominational associations, unions, or conferences are earnestly solicited through their proper officers to authorize and appoint suitable delegates to represent them in this Interdenominational Sunday-school Convention.

Or, where no organization exists, the pastors and superintendents of individual churches and schools are cordially invited to attend themselves or appoint representatives. Every person attending is assured of a warm reception and is promised a profitable occasion.

Every county organization, whether denominational or not, is urged to prepare and send up to this meeting full statistics of the numbers, conditions, and prospects of the Sunday-school work in their respective counties or districts. Any facts regarding this great department of Christ's Church in this State will be gratefully received.

Mr. William Reynolds, of Illinois, President of the International Sunday-school Convention, who has been in attendance upon the last two South Carolina Annual Conventions, and who, by his active participation, added so much to the success and pleasure of said meetings, will be present at Columbia, and will probably bring other prominent workers of national and international prominence with him.

As many as possible of the leading and most prominent Sunday-school workers in this State will be in attendance; and altogether the largely attended Sunday-school Convention in this State for years, is promised. Nothing in the way of effort will be spared by the executive committee and the local committees to make this the best convention ever held in the State.

Let every friend of the Sunday-school cause offer fervent and constant prayer to the Father above that His special blessings may be upon this meeting, and that its deliberations may result in the upbuilding and extending of His kingdom in this State, and in the salvation of thousands of the precious children of our land.

HOUSEHOLD NOTES.

MRS. S. A. NETTLES.

WORTH REMEMBERING.—It is the penny saved more than the penny earned that enriches; it is the sheet turned when the first threads break that wears the longest; it is the damper closed when the cooking is done that stops the dollars from dropping into the coal bin; it is the lamp or gas burned low, when not in use, that gives you pin-money for the month; it is the care in making the coffee that makes three spoonfuls go as far as a teaspoon ordinarily; it is the walking one or six blocks, instead of taking a cab or omnibus, that adds strength to your body and money to your purse; it is the careful mending of each week's wash that gives ease to your conscience and length of days to your garments; and last of all, it is the constant care exercised over every part of your household, and constant endeavor to improve, and apply your best powers to your work, that alone gives peace and prosperity to the family.

To keep dried fruit from becoming wormy scatter among it pieces of saffron bark.

When ivory-handled knives become yellow, they can be cleaned by rubbing them briskly with emery or sand paper.

A piece of zinc placed on live coals in a hot stove has a good effect of cleansing out a chimney that is filled with soot.

If tinware is badly tarnished, boil it in hot water with soda before scouring.

Alum is one of the best additions to make whitewash of lime that will not rub off.

MEASURES.—Four teaspoonfuls of liquid, one tablespoonful; three teaspoonfuls of dry material, one tablespoonful; four tablespoonfuls of liquid, one wineglass, one-half gill, or one-quarter cupful; two gills, one cupful, or half pint; sixteen tablespoonfuls of liquid, one quart; four cupfuls of liquid, one quart; four cupfuls of liquid, one quart; two cupfuls of solid butter, one pound.

A Mock Mixer Pie.—Two cold biscuits soaked in cold water, then mashed fine. One-half cup of vinegar, one-half cupful of molasses, one teaspoonful of cinnamon, one scant tablespoonful of cloves, half a nutmeg, a tablespoonful of butter, and half teaspoonful salt. Place on the stove until thoroughly heated, adding enough hot water to make it the consistency of mince meat. When cold fill pie plates lined with crust, cover with top crust, and bake.

CONSIDER MORE IN YOUR WIFE.—A great many men make the mistake of keeping all of their business affairs to themselves, not confiding enough in their wives. This should not be so, for how can a wife know how much she may spend when she has no knowledge whatever of his income. Frequently a wife is blamed for being the cause of her husband's embarrassment, when she is perfectly innocent. Her husband has been too generous and indulgent, and disliking to tell her he could not afford thus and so, caused her to bring trouble on both. No, be brave enough to tell your wife, she will appreciate it, will pleasure deny herself, and use every means to economize, for she would naturally feel a delicacy in having her expenditures go beyond her husband's means. Husband and wife should have mutual interests, should consult together, she should understand his plans, and aid him if possible with her counsels, and if he becomes embarrassed be the first to retrench, the first to save, and with true womanly sympathy and generosity help him to reinstate his falling fortunes.

BUCKLEN'S ARNICA SALVE. The best remedy for Cuts, Bruises, Sores, Chapped Hands, Fever Sores, Tetter, Clebs, Salt Rheum, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by J. G. Dinkins & Co.

THE PULPIT AND THE STAGE. Rev. F. M. Shront, pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my physicians thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 26 lbs. in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a long trial and convincing evidence, I am convinced that Dr. King's New Discovery for consumption, cough, and cold, when used as directed, has cured me. The greatest kindness I can do my many thousand friends is to urge them to try it." Free trial bottles at Dinkins & Co.'s drug store. Regular sizes 50c. and \$1.

EPICURE. The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alterative and Tonic. If you are troubled with any disease of Kidneys, Liver or Stomach, of long or short standing you will surely find relief by use of Electric Bitters. Sold at 50c. and \$1. per bottle at Dinkins & Co.'s Drug Store.

Vick's Floral Guide. We have received from James Vick, Rochester, N. Y., his Floral Guide, which in beauty of appearance and convenience of arrangement surpasses anything in this line which we have ever had the privilege of seeing before. It is a pamphlet eight by ten inches in size, and with the covers, which are by no means the least important part of it, contains an even one hundred pages. Although entitled a "floral guide," it is devoted to vegetables as well, and includes as full a list and description of both flowers, vegetables and also small fruits as could be brought within the compass of a book of this size.

In all that the Vicks have undertaken their aim seems to have been to attain as near to absolute perfection as possible, and probably no one ever did so much towards bringing the cultivation of flowers to the high standard which it has now attained as did the head of this firm.

We advise all our readers to send 10 cents for the Guide, which can be deducted from first order.

ALL PERSONS HAVING CLAIMS against the estate of Martha E. Broughton will present same duly attested, and showing valid estate will make immediate payment to T. P. Broughton, Administrator. Jan. 1, 1890.

A Smauer Negro Shot by the Sheriff.

SUNTER, Jan. 19.—On Friday night Sam Williams, a negro living near Studebun in this county, while resisting arrest, was shot and killed by Sheriff Carson. The circumstances of the killing as developed at the inquest were as follows: Williams acted as the agent of Mr. John Reid in the Studebun neighborhood, renting land from him and subletting it to other negroes. Mr. Reid mentioned some days ago that Williams had collected some of the rent and was holding it, and had a warrant issued for his arrest. A deputy sheriff took the warrant and went to make the arrest. The negro did not appear, and a second attempt was also unsuccessful. On his third expedition on Friday night he was accompanied by the sheriff, who upon reaching Williams' house stationed himself at the front door. When summoned to surrender Williams dashed out from the front door. The deputy caught him, but the negro, being more powerful, threw the officer down and ran. The sheriff followed him, but when he grappled him was again thrown aside. Just as he seized him for the third time the sheriff came up. Williams once more dashed the deputy down and then took a hand and he and Williams had a scuffle, in the course of which, believing the negro was about to shoot him with the weapon he had captured from the deputy, the sheriff drew his pistol and fired, killing Williams almost in the doorway.

At the inquest yesterday the jury returned a verdict that Williams had come to his death while resisting officers of the law.

A man who has practiced medicine for 40 years, ought to know salt from sugar; read what he says: TOLEDO, O., Jan. 10, 1887. Messrs. F. J. Cheney & Co.—Gentlemen: I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience I have never seen such preparation that I could prescribe with as much confidence of success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and to all kinds of cases, and would say in conclusion that I have yet to find a case of catarrh that it would not cure, if they would take it according to directions.

Yours truly, L. L. GORRUCH, M. D. Office, 215 Summit St. We will give \$100 for any case of catarrh that cannot be cured with Hall's Catarrh Cure. Taken internally. F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, 75c.

Williamsburg News. (County Record.) Mr. R. H. Bardin, of this place, and Miss Marie Bardin, of Blackville, were married at the bride's home on the 8th inst. It is estimated that about eight hundred negroes have left this county the past month. They are still leaving, but in smaller numbers. The men engaged in the turpentine business say the hands they get in this county are superior workers in that business.

HOOD'S COMPOUND EXTRACT OF SASSAPARILLA. Hood's Sarsaparilla has by its peculiar merit and its wonderful and great worth the confidence of the people. It cures the most popular blood purifier and strengthening medicine. It cures scrofula, salt rheum, dyspepsia, headache, kidney and liver complaints, catarrh, rheumatism, etc. Be sure to get Hood's Sarsaparilla, which is peculiar to itself. 100 Doses One Dollar.
