SOMETHING ABOUT FLOWER CULTURE. With a little energy and perseverance almost any one can cultivate flowers, and there is nothing that will repay one for a little trouble so well. But to have a nice flower garden of choice exotics requires an outlay of spring. This assertion is made because it has been my special business to purchase my spring goods with an eye single to capturing the trade of the large number of farmers that have cultivated by an experienced gardener.

8 per cent, per annum. This is the third time within the last few years the usury laws CHEESE TOASTED WITH EGGS.—Beat three tablespoonfuls of bread crumbs, have been changed.

Money in South Carolina at 10 per cent. soaked in cream, into three eggs, is cheap. The value of money depends on the conditions necessitating its employbeaten lightly, add three tablespoonfuls of butter, melted but not hot, standard by an act of the general assembly. The farmers, who are responsible for this change, will be the principal sufferers. It cate slices of toast, and brown will have the result of throwing the farmers

back into the hands of the Charleston fac-Molasses Cookies.—Two teacupsful tors, and finally into the hands of the lawof molasses, one teacupful of melted butter, one teacupful of boiling water, four teaspoonfuls of soda, and one of ginger. Flour enough to roll.

The Alliance a Blessing. The farmers, says an exchange, are deriving great benefit from the Alliance. It has saved them in Georgia \$200,000 in a single

year on the purchases of fertilizers. It has lowered the cost of almost every article they used, food, clothing, farm implements, wagons, buggies, and even the few luxuries that Georgia farmers have been able to enjoy. It has taught the farmers the use of the most powerful weapon in the struggles of peace and war-co-operation. Divided, they were the easy prey of the monopolists and trusts, but united in a phalanx 4,000,000 strong with one wing resting on the shores of Maine, the other on the Pacific coast, the Besides the considerations above briefly farmers have become a power.

Bud With a Thorn in It. "How much older is your sister than "I don't know. She loses a year annually. The farmers will bitterly rue their folly

I expect we shall be twins before long.

What is Scrofula

It is that impurity in the blood, which, accumulating in the glands of the neck, produces un-

sightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which political organization its members propose to take no notice of political matters, he will discover that he has badly mistaken the purpose and principles of the order. One developes ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or many other manifestations usually ascribed to "humors." It is a more formidable enemy than consumption or cancer alone, for scrofula combines the worst possible features of both. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How can it be cured? By taking Hood's Sarsaparilla, which, by the cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. For all affections of the blood Hood's Sarsaparilla is unequalled, and some of the cures it has effected are really wonderful. If you suffer from scrofula in any of its various forms, be sure to give Hood's Sarsaparilla a trial.
