Attend drills, obey orders, and hurrah for the Guards is the way to build the company up.

Auditor J. Elbert Davis.

Upon the recommendation of Senator Louis H. DesChamps and Representative J. M. Richardson, Mr. J. Elbert Davis was yesterday appointed auditor for Clarendon county.

We saw a petition with some thirty or forty names attached, recommending Mr. Samuel Sparks, of Summerton. This petition was addressed to the senator and representatives, and had Dr. I. M. Woods's name to it.

There were several other names mentioned in connection with the office.

Mr. Davis we believe has never before held a public office, but having made a success of his private affairs, and being a gentleman of high character and sterling integrity, he will doubtless satisfactorily perform the arduous and complex duties of the auditor's office.

Jordan News.

JORDAN, May 18.—Everything in and around Jordan is quiet.

Mrs. W. T. Sprott is improving. Mrs. J. A. Sprott is still quite ill. Otherwise we are healthy.

Work on the new academy is being pushed and it will be in readiness for the Pink Tea Friday evening next, 22nd inst.

Of course, Mr. Editor, you are coming to help us out; and of course you are not going to let the readers of the Times forget the time, and let them know that the W. & S. R. R. is going to run a train from Summerton, Davis, and Wilsons, to suit any who may wish to attend from those points, and will take them back the same night. Come one, come all. A good time for all who do so is promised.

Children's day was much enjoyed at the Methodist church here. An excellent address from Mr. J. M. Knight. In the afternoon Mr. Knight and the writer attended the celebration at Union church, Wilsons, where we were much edified by another address by Mr. Knight. C.

Sayings From Sandy Grove.

SANDY GROVE, May 13.—We are having a long looked for and a much needed rain this evening, which we hope will bring the cotton up. Some of the farmers who planted early have been planting over.

I will endeavor to give you what I think is the greatest cause of the farmers' present depression. I claim that the farmers alone are to blame for their condition. When the war closed cotton was bringing a good price which was an inducement to plant it. The farmers turned most of their attention to the cultivation of it, which soon reduced its value. By this time they had learned well how to cultivate it, and as the price decreased the more they tried to make. So the large crops that are made now bring about the same money. Does it not seem now that if we would plant more grain and raise more stock and make less cotton that we would receive the same for our cotton?

Just about the time the farmers were turning their attention to cotton the Radicals were in power and passed the obnoxious Homestead Act, and the farmers began buying their meat and their bread and you might say all the necessaries of life. Most of them were not able to pay cash for everything and had to buy on time. We had some dishonest men, and this homestead act gave the farmer a decided advantage over the merchant. To amend this trouble instead of repealing the Homestead Law made by the Radicals the Democrats passed this farmers' ruin, the lien law. As soon as this act was passed it seemed as if the people thought that pay day would never come, but when it did it was to their sorrow. Some bought more than they could pay for; misfortune befell some; and so it went. They strove to pay out with cotton and got further in, and so it is those that plant the most cotton are the deepest in debt and will be until we make our meat and bread at home.

When we get our barns and smokehouses well filled we shall have all the warehouses we need. I have heard it often said, "Have plenty of corn and you will have plenty of everything else." Give us more corn and more Christians and times will be better.

Mr. James E. Kenedy, who lost his horse some time ago, has bought a fine mule. Mr. Kennedy has been quite sick but we are glad to say he is improving.

Mrs. J. E. Johnson is quite ill.

Messrs. S. C. Williams and E. S. Ervin, of Manning, passed through our section a few days ago. They tarried under the shade of the grove and took refreshments. They were jovial and quite pleasant. If they are a genuine type of the Manning people, we would like to have more of them call on us.

SUMTER, S. C., May 19th, 1891.

Our city has taken such a move that it requires a constant watch over the needs of the people, in order that the rapid progress will not find us sleeping away our opportunities. We therefore keep a sentinel on post always with instructions to let none pass that have a dollar to spend. It will not be necessary to give any special countersign, all that you have to do is to come to Sumter, visit our store, and we will convince you in a single transaction that we are the leaders in the mercantile business of one of the best and leading business centers in the State.

The way to prove any assertion is to give a practical test. We therefore invite the people to make a thorough inspection of the goods daily coming to our store, and if we do not prove to them that we have as fine assortment as can be found elsewhere at less prices, then we won't insist on selling them. We know what we've got, and the cost of it, and we are satisfied with a living profit. Come and secure rare bargains.

Very respectfully,
LEVI BROTHERS.

Dyspepsia causes depraved blood, which, in time, affect every organ and function of the body. As a remedy for these troubles, nothing can approach Ayer's Sarsaparilla. It vitalizes the blood, strengthens the stomach, and corrects all disorders of the liver and kidneys.

Honored.

"Well, Uncle Mose, I hear you have another pair of twins at your house."

"Yaas, missus, yes, we has. Lord bress dey little hearts."

"Have you named them yet?"

"Yes'm. Done named 'em aftah two ob de fust pres'dents ob dis country."

"Indeed? What two?"

"Ole Christofo Clumbus an' Juleyous Cæsar, ma'am. We'se great on namin' de children fo' de pres'dents 'tour house."—*Detroit Free Press.*

Hood's Sarsaparilla is on the flood tide of popularity, which position it has reached by its own intrinsic, undoubted merit.

"Life has been a burden to me for the past 50 years on account of great suffering from very severe and frequent headaches. Bradycrotine has done wonders for me. I am now a new man and shall proclaim the merits of your medicine to all I can reach." George P. Fowler, Attorney at Law, Palatka, Fla.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Never had a preparation a more appropriate name than Ayer's Hair Vigor. When the capillary glands become enfeebled by disease, age, or neglect, this dressing imparts renewed life to the scalp, so that the hair assumes much of its youthful fulness and beauty.

Yielded to the Comptroller General.

The differences of opinion between the Comptroller General and Auditor Little, of Marion, have been settled. Mr. Little declined to increase certain bank assessments at Marion, as ordered by the Comptroller, believing that the latter did not have the right to issue such instructions. Comptroller General Ellerbe asked for his resignation, but since that request Auditor Little has found that the Comptroller did have the right he claimed under the statutes, and, acknowledging his mistake, has proceeded to obey instructions.

We'll write it down till everybody sees it
Till everybody is sick of seeing it
Till everybody knows it without seeing it—

that Dr. Sage's Catarrh Remedy cures the worst cases of chronic catarrh in the head, catarrh headache, and "cold in the head." In perfect faith, its makers, the World's Dispensary Medical Association of Buffalo, N. Y., offer to pay $500 to any one suffering from chronic catarrh in the head whom they cannot cure.

Now if the conditions were reversed—if they asked you to pay $500 for a positive cure you might hesitate. Here are reputable men, with years of honorable dealing; thousands of dollars and a great name back of them and they say—"We can cure you because we have cured thousands of others like you—if we can't we will pay you $500 for the knowledge that there's one whom we can't cure."

They believe in themselves. Isn't it worth a trial. Isn't any trial preferable to catarrh?

N. M. JOHNSON.

A Young Man's Fancy.

Large allowance is to be made for the sweeping assertion of the poet that "In the spring a young man's fancy lightly turns to thoughts of love." It certainly is not true of the malarial young man, whose fancy, if he has any, is of the dull and heavy variety. The malarial young man marches around as the captive of General Debility. The readiest and most obvious means of escape are afforded by S. S. S., which, without any flourish, routs General Debility and his malarial allies. What is true of the young man is true of the young lady, and the whole host of sufferers. S. S. S. is a specific for malaria.

Just the Same.

The other day a Virginia negro dug up a shell at Malvern Hill which had been buried since 1862, but when he put it to roast in the fire so as to get at the kernel it went off and killed a plow horse and left the darkey only one leg to go on for the balance of his life. Those old shells were loaded for b'ar.

THE LADIES DELIGHTED.

The pleasant effect and the perfect safety with which ladies may use the liquid fruit laxative, Syrup of Figs, under all conditions make it their favorite remedy. It is pleasing to the eye and to the taste, gentle, yet effectual in acting on the kidneys, liver, and bowels.

He Hadn't Found Any.

"What is this country coming to," shouted the Prohibitionist orator, "when we see the rumseller and his minions in places of trust?

"I ain't found none of 'em runnin' no places of trust yet, and I have been in this town more than a year," mused the seedy man near the heater.

STRANGE BUT TRUE.

Col. I. W. Avery's Remarkable Statement.

This gentleman was treated for years by eminent specialists, and the Brown-Sequard remedy was tried. He states he had spent upwards of seven thousand dollars with the most eminent physicians, and otherwise, but without the least benefit. He bade his old comrades in arms an affectionate farewell more than a year ago, and yet, here is what he writes under a fresh date. Could anything be more wonderful?

GENTLEMEN:—I was in a very bad fix. I was bedridden. Kidneys disordered, digestion torpid, arm helpless with rheumatism and blood poison (the effect of a wound received during the war) and full of that odious disease catarrh. The doctors said I would not live and quit giving me medicine, as it did no good. I have since used nothing but Germetner. My kidneys are well, my digestion good, my palsied arm is well, my catarrh removed, and my general health is excellent. I. W. AVERY.

Colonel Avery was for several years editor of the Atlanta Constitution, and his vigorous and versatile editorials gave that sheet a vivacity which won for him an enduring reputation as a first-classs journalist. For many years he was Ex-Governor and Senator Colquitt's secretary, later, had charge of the U. S. treasury department, and is to-day a proud, living monument to the virtues of that great healing and life-giving elixir, Dr. King's Royal Germetner.

Do not class it with other proprietary remedies. It is so far beyond all of them in its beautiful proportions and accurate analysis of all that constitutes a real germ destroyer and a health giving compound, that all other so-called remedies for the diseases which it will cure must take a back seat to give the highway to this great and wonderful remedy for human health and happiness.

Drs. STARKEY & PALEN'S
Treatment by Inhalation.
1529 Arch St., Philadelphia, Pa.

For Consumption, Asthma, Bronchitis, Dyspepsia, Catarrh, Hay Fever, Headache, Debility, Rheumatism, Neuralgia, and all Chronic and Nervous Disorders.

The original and only genuine Compound Oxygen Treatment, that of Drs. Starkey & Palen, is a scientific adjustment of the elements of Oxygen and Nitrogen *magnetized;* and the compound is so condensed and made portable that it is sent all over the world.

It has been in use for more than twenty years; thousands of patients have been treated, and over one thousand physicians have used it, and recommend it—a very significant fact.

It does not act as most drugs do, by creating another ailment, and benefitting one organ at the expense of another, often requiring a second course to eradicate the evil effects of the first, but Compound Oxygen is a revitalizer, renewing, strengthening, invigorating the whole body.

These statements are confirmed by numerous testimonials, published in our book of 200 pages, only with the express permission of the patients; their names and addresses are given, and you can refer to them for further information.

The great success of our Treatment has given rise to a host of imitators, unscrupulous persons; some calling their preparations Compound Oxygen, often appropriating our testimonials and the names of our patients, to recommend worthless concoctions. But any substance made elsewhere or by others, and called Compound Oxygen, is spurious.

"*Compound Oxygen—Its Mode of Action and Results,*" is the title of a new book of 200 pages, published by Drs. Starkey & Palen, which gives to all inquirers full information as to this remarkable curative agent, and a record of surprising cures in a wide range of chronic cases—many of them after being abandoned to die by other physicians. Will be mailed free to any address on application.
