NO ADMITTANCE TO GOD'S BOUNTY - UNLESS CHRIST GO WITH YOU.

The Famine That Was Sore in All Lands

combined to turn sis thoughts back to laughter. He had no equal. And yet, I come to you and tell you that in ten that patriarchal time when all the world sent to Egypt to buy corn and to suggest a Gospel lesson. His text is Genesis xliii. 3, "Ye shall not see my lace, except your brother be with you."

This summer, having crossed eighteen of the United States-north, south, east blers do not somehow wreck these harvests we are about to enter upon the grandest scene of prosperity that America has ever witnessed. But while this another, that I did not get hissed by the suppose I come to you and say by is so in our ewn country, on the other side of the Atlantic there are nations threatened with familie, and the nost threatened with familie, and the most dismal cry that is ever heard will, I tear, be uttered—the cry for bread.

I pray God that the contrast between our prosperity and their want may not be as sharp as in the lands referred to by my text. There was nothing to eat. Plenty of corn in Egypt, but ghastly landine in Canaan. The cattle moaning in the stall. Men, women and children awfully white with hunger. Not the failing of one crop for one summer, but years. A nation dying for lack of that which is so common on your table and so httle appreciated; the product of harvest field and soit with the product of his product of his product of harvest field and soit with the product of harvest field and soit with the product of harvest field and soit with the product of his vest field and grist mill and oven; the price of sweat and anxiety and struggle report from the flour bin, and he finds that everything is cut, and he says to his sons. "Boys, hook up the wagons and start for Egypt and get us something to eat."

The fact was there was a great corn-crib in Egypt. The people of Egypt have been largely taxed in all ages, at the present time paying between 70 and he had expected, he took a mailet and tioned it to a single human ear or you 80 per cent. of their products to the dashed the exquisite sculpture into may have mentioned it to some one government. No wonder in that time atoms. The world is poor compensathey had a large cornerso, and it was tion, poor satisfaction, poor solace. full. To that crib they came from the Famine, famine in all the earth; not for regions round about-those who were famished--eome paying for corn in money; when the money was exhausted, paying for the corn in sheep and cattle and horses and camels, and when they were exhausted, then selling their o au bodies and their families into slavery. THE SORROW OF JACOB.

The morning for starting out on the crusade for bread has arrived. Jacob gets his family up very early. But be fore the clder sous start they say something that makes him tremble with emosomewhat roughly, the lord of the corncrib supplying them with corn, but saying at the close of the interview, "Now, you need not come back here for any more corn unless you bring something better than money—even your younger brother Benjamin."

Ah! Benjamin-that very name was suggestive of all tenderness. The mother had died at the birth of that son-a spirit coming and another spirit goingand the very thought of parting with Benjamin must have been a heart break. The keeper of this corncrib, nevertheless, says to these older sons, "There is no need of your coming here any more for corn unless you bring Benja-min, your father's darling." Now, Jacob and his family very much needed bread, but what a struggle it would be to give up this son. The orientals are very demonstrative in their grief, and I hear the outwailing of the father as these older sous keep reiterating in his ears the announcemens of the Egyptain lord "Ye shall not see my face unless your brother be with you." "Why did you tell them you had a brother?" said the old man, complaining and chiding them. "Why, father," they said, "he asked us all about our family, and we had no idea he would make any such demand upon us as he has made." "No use of asking me," said the father, "I cannot, I will not, give up Benjamin."

The fact was that the old man had lost children; and when there has been be reavement in a household, and a child taken, it makes the other children in the household more precious. So the day for departure was adjourned and adjourned and adjourned. Still the horrors of the famine increased, and louder moaned the cattle and wider open cracked the earth and more pallid became the cheeks, until Jacob, in despair, cried out to his sors, "Take Benjamin and be off." The older sons tried to cheer up their father. They said: "We have strong arms and a stout heart, and no harm will come to Benjamin. We'll see that he gets hook and Parewoli!" cair the young men to the father, in a tone of assumed good cheer. "F-a-r-ew-e-l-l!" said the old man, for that word has more quavers in it when pro-

nounced by the aged than by the young. Well, the bread party—the bread embassy-drives up in front of the cornerib of Egypt. These corncribs are filled with wheat and barley and corn in the husk, for those who have traveled in Canaan and Egypt know that there is corn there corresponding with our Indian maize. Huzza! the journey is ended. The lord of the cornerib, who is also the prime minister, comes down to these arrived travelers, and says: "Dine with me today. How is your father? Is this Benjamin, the younger brother, whose presence I demanded?" The travelers are introduced into the palace. They are worn and bedusted of the way and servants come in with a basin of water in one hand and a towel in the other, and kneel down before these newly arrived travelers, washing off the dust of the way. The butchers and poulterers and caterers of the prime minis-

The guests are seated in small groups, two or three at a table, the food on a tray; all the luxuries from imperial gardens and orchards and a quariums and aviaries are brought there, and are filling chalice and platter. Now is the time for this prime minister if he has a grudge against Ben'amin to show it. Will he kill him, now that he has him in his hangs? Oh, no! This lord of the cornerib is seated at his own table, and he looks over to the table of his guests, and he sends a portion to each of them, but sends a larger portion to

ter prepare the repast.

TARIFF FOR COTTON.

MPORTANT ACTION OF THE RAIL ROAD COMMISSION.

again last night and the meeting was certainly the most important that the board has held in some months. Among the results of the meeting was the fixmanufacturers in regard to fertilizer tariffs for next season.

The board met at their office in this

city yesterday morning and at once be-

tariff of the South Carolina and Co.umbia, Newberry and Laurens railroad. present, as was also Attorney General Pope, in behalf of the commission. The question was as to the requirements of Section 1443 of the General Statutes in reference to the leasing of railroads and providing that when two roads combined the shorter and longer hauls were regulated by law. That is, to say, the leasing road had authority to make the wanted to retain the tariff already fixed by them on the Columbia, Newberry

and Laurens Road. The Attorney General orally announced his opinion, which is embodied in the following opinion he subsequently handed to the commission. The opinion is addressed to "Messrs.

D. P. Doucan, chairman; E. P. Jervey

and H. R. Thomas, composing the railroad commission of South Carolina, Cowent and of shorter duration. On Friumbia, S. C.", and reads as follows: GENTLEMEN: I herewith give you my opinion on two questions submitted to your commission:

1. What is the effect of the lease of the Columbia, Newberry and Laurens Railroad by the South Carolina Railway, in view of Section 1443 of the General Statutes, so far as the regulation of reight on leased roads is concerned? Unquestionably the section in ques-

tion requires that a leased road shall be operated and controlled so that it shall charge or receive no greater compensation for carrying, receiving, storing, torwarding or handling articles of the same character or description for a shorter than a longer distance for one continuous carriage; and such construction of the section in question is admitted by the railroad authorities here concerned.

Governor Tillman a few days ago re- 2. Does the proviso appended to Secion 1443 of the General Statutes by act of 1887, amendatory thereof, authorize the railroad commission of this State. in their discretion, conjointly with the said corporations, to fix different rates of toll in compensation for freight traffic on each of said hitherto independent lines or divisions?

In my answer to this question I state that this section of the general railroad law of the State deals with the subject of rates freight traffic on one continuous ine, so as to prevent a greater charge or compensation for a shorter than a longer distance, and directs that a coatract by lease or otherwise by one railroad of another, shall so operate as to make the two or more railroads one continuous line; and the Scetion as found in the General Statues remained without alteration from 1882 to 1887. But during the sure you it would give me pleasure, but latter year the general assembly added

"Provided, further, That it one corporation shall use, operate or otherwise of your kind invitation, I am, yours control, wholly or in part, several lines or divisions of hitherto independent railroads, within the State, the commis-LONDON, Aug. 26 .- All night long a sion may, in their discretion, fix differ-
