Complimentary Remarks.

The Darlington correspondent of the News and Courier, under date of June 22nd, gave the following amusing incident about our candidate:

"Candidate Tindal had a refreshing and somewhat pleasant incident to occur to him here last evening. He got left here on route to Chesterfield for to-day's meeting. No one knew him at the hotel, and at the supper table a young man reviewed the demerits of all the candidates in scathing terms, winding up with the remark that 'Tindal was the only man in the crowd.' Mr. Tindal quietly thanked the young man, and made himself known to him."

Fatal Fall of a Pistol.

SUMTER, July 1.—Charley Villeneuve, in company with Mr. Willie Baitman, went into the country yesterday to seek a friend. While on the way Charley took from his pocket a revolver pouch which he intended to hang on a tree, and a bullet from the buggy seat struck him a 32 calibre pistol, which he placed between his knees, and while engaged in filling his pipe the buggy struck a rock, the pistol fell from between his knees and striking the door of the buggy exploded, and the bullet entered his body, penetrating his breast and coming out at his left shoulder.

He tried to his companion that he was shot and to hasten to some house where they could get assistance. The house of a colored man was soon reached and Charley was tenderly lifted from the vehicle. Dr. Charley Villeneuve had passed his 22 year only four days ago, the pride of his widow's mother.

In accordance with his expressed wish he will be buried to-morrow in the cemetery at Cherock, S. C., beside his father.

A Request to Council.

Some citizens of this town, who are properly officers, have asked us to inform them what the provisions of the alleged fire limit ordinance recently enacted by the town council of Manning.

We can only say that we are unable to answer their questions, as we have not seen said ordinance, and our only information in regard to the matter is based entirely upon rumor.

Now, we propose, if the town council will furnish us with the law in reference to any fire limits of this town we will publish the same free of charge for the benefit of our patrons, and the community generally, and if of simple justice to those who may be required to obey said ordinance we will think that the town council should forthwith put it in our power to publish such ordinance.

Malarial prostration, weakness, general debility, biliousness, loss of appetite, indigestion and constipation. Grove's Tasteless Chili Tonic removes the cause which produces these troubles. Try it and you will be delighted. To get the genuine ask for Grove's. Sold on all merits. No cure, no pay. Sold by J. G. Dinkins & Co.

THE DISPENSARY.

Mrs. Chapin has written the following Letter to a Country Newspaper.

You say, Mr. Editor, that Mrs. Chapin ought to know by this time that Tillman wants to have liquor sold at every cross road in South Carolina, and as much of a racket kicked as possible, so that the people will become so accustomed with drinking that they will not want to return to the dispensary. I do not understand what you are writing about. There is no prohibition in this State? They are anxious to prohibit the sale of liquor in Columbia and here in my city the barrooms are doing a flourishing business day and night, Sunday and week day. Blacks and whites are selling to men and boys, drunk as they are, and you say the State of affairs prohibition I am sorry for you and don't wonder you say "Prohibition is a failure."

The dispensary did its work. As Napoleon said "we touched the Alps" (through it) just beyond us Italy.

The closing of every open bar room in the State by the enforcement of the Evans bill must have convinced even the most skeptical that a prohibitory law, with a back bone behind it to enforce it, was not a failure. Many a poor wife and mother, who had for years put her half starved children's supper to bed, thanked God for the law, strong enough to say to the law defying rum seller you shall not detach the young men of the State and take the food from the starving women and children. Husband and father, with their families and property in this rum cursed city the Evans bill, it was first passed, meant what a poor little Tom called it, "Something to eat." It certainly did much good as far as it went, but it was not possible to regulate the infernal traffic any more than to regulate the toothache. It must be rooted out.

"High license is the solution," you say. I have been wondering if you high license advocates would not have justified Jadas if he had demanded fifty pieces of silver, for betraying the Savior, instead of thirty. It looks that way, for high license is only a larger amount charged a foreign rum seller for granting him the privilege of destroying our homes, breaking the hearts of our women, degrading our children and sending thousands of our own men every year into the drunkard's grave.

High license will "maintain the traffic in liquor by shutting up the blind tigers." What are the facts in the case? A U. S. revenue officer told the Hon. Jno. B. Finch, in my presence, that "eight hundred liquor sellers had paid for U. S. licenses in this State, and that two hundred city licenses had been taken out, and it was the case wherever they had high license."

"High license," he said, "was the most prolific source, indeed the very hot bed for tigers."

But say some. If a man pays \$1,000 for a license he will be the most efficient police in informing against blind tigers." Will he?

In one high license city a palace saloon man paid for ten U. S. licenses. What did he want them for? Can you guess? The bar keepers "I want high license which means that I want to outwit gentlemen and unsuspecting boys, and half a dozen blind tigers will furnish with a U. S. license and supplied with liquor by them."

"High license means no license." No the remark I have heard made in every high license city I have ever visited. It is the devil's best card for with it he deceived even the very elect.

Nebraska, which is always quoted as an object lesson to show the great advantage of high license over all other methods of regulating the traffic has found it a stupendous failure. Prof. Shaw, one of the most learned men in the State, writes to the Congressional Record, "The high license law in Nebraska is a stupendous failure and to quote Nebraska high license law as accomplished any good is a travesty of the truth. Many of our best people welcomed its adoption, hoping that it might in some way lessen the diabolical evils of the barrooms, but it has proved just the contrary. Fewer saloons have taken out State and city licenses and there are more arrests for drunkenness and more men going to jail ever before, and the Christian people are feeling very sensitive over the position the State holds in seeming to stand for a system we have proved such a fraud."

Another Brief Catechism.

Do you see the man? I do see the man. Who is the man? Grover Cleveland.

Who is Grover Cleveland? The President of the United States.

How did he get there? The Democratic party put him there.

What is the Democratic party? It is what swiped the Republican party off the face of the earth in 1862.

Did it? That was the inference. How so, if done? By promises.

What kind of promises? Promises to do what the people demand by the majority to be done.

Have the promises been kept? Yes, kept in the background, where they can't be got at.

What are these promises? The substance of things hoped for, the evidence of things not seen.

Ain't they? Aye, same, but the works are rusty. Who is doing this? The three C's.

The three C's? Yes, Cuckoo, Compromise, and Cleveland.

Do Democrats favor the combination? No, no, no. Why don't they spit on their hands and take another hold?

Their hands are tied. Can't they kick? They can and they do.

Doesn't it hurt nothing? D—n little, but wait.

Is there no pain in Gilead? If there is, the Wilson bill has got a duty on it.

What is the Wilson bill? It is a wretched action of the men who bring of the Episcopalian robe. When this robe is inflated you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the robe is destroyed forever, nine cases out of ten are cured by catarrh, which is nothing but an inflamed condition of the mucous surface.

DEAFNESS CANNOT BE CURED by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the tube is destroyed forever, nine cases out of ten are cured by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

Democratic Committee Meeting.

Rooms Democratic Executive Com., Clarendon County, MANNING, S. C., June 19, 1894.

The County Democratic Executive Committee will meet in the court house in Manning Monday, July 9th, 1894, to appoint the managers for the primary elections to be held in this county in August and September of the present year.

It is important that each club should be represented, and if any member of the committee can not be present he will please see that the president of the club or some other member is authorized to act in his stead.

In addition to selecting managers for the primaries, the committee will at this meeting also determine the assessments of candidates and make arrangements for the county campaign.

Netties to Butler.

MANNING, S. C., June 20, 1894. Dear Sir: Yours of the 18th, to hand in which you say "For the coming primary election, 25th Aug. next, I have the honor to request that I be allowed from among my friends an equal division of the managers of said election."

I confess to very great surprise at the above. You seem not to be acquainted with the interests of our primaries, but to have reached the conclusion that their solution and end this year is contained in the senatorial contest. Possibly you have overlooked the fact that there will be no election in our primaries for a United States senator, but as usual these offices are elected by the State legislature, and it is to be presumed that our legislators will have some other merits and qualifications than simply to vote for a United States senator. You have apparently jumped at the conclusion that the heretofore Reform and anti-Reform factions of the State have been revised and that the reformers' principles are now centered on Tillman and Butler or on Tillmanism or Butlerism.

You surely do not expect the fact that there are many other clubs in the county, of whom many would be great interest in the individual election as you do in yours. I believe it is a fact that there are already four or five clubs for governor. Then there are candidates for other State offices, for national commissioners, for congress, for the legislature, for county officers, a great host of candidates, each one like yourself possibly fearful of the consequences. Suppose that following your example each one of this mighty host should demand two managers that he might feel fully assured that every vote cast for him was properly counted (and you must admit that in this democratic country of ours you have no right to the humblest cannot equally claim), what would be the result?

I think when you carefully consider this question you will realize that your request is unreasonable.

We are in Clarendon county 25 clubs, and in each the line is strongly drawn between Reformers and anti-Reformers: 15 of these clubs are Reformers and 10 are Anti-Reformers. At our primaries in 1892 we agreed on the following plan: Each club should select from its own members two managers and one clerk, and a neighboring club of opposing faction should complete the board by sending another manager and a clerk. By this plan every club had three managers and two clerks, and both factions were represented. We found it to be a most excellent plan, and it will probably be adopted again this year. If, now, these clubs or Reformers should demand two managers to champion you, and to select Butler managers, they would of course have a right to do so, and in this way you may get your wishes gratified, but then, as you will note, this is all a private matter with the clubs and not for the executive committee. You know it is now equal rights to all and special privileges to none.

Yours, very respectfully, Chairman Dem. Ex. Com., Clarendon Co.

Capers' Sharp Reply.

COLUMBIA, S. C., July 2, 1894. Mr. S. A. Nettles, Chairman, Clarendon County.

Dear Sir: Your favor of June 30, in reply to the letter written by Senator Butler, asking for an equal representation at the coming primary election, has been forwarded to me by the clubs and is in the board of managers, duly to hand.

Your expressions of surprise are as absurd as your ideas are narrow and partial. It affords me some satisfaction to feel sure that you do not intend to do or to do to represent the feelings, of the executive committee of your county of the white Democrats of South Carolina, matters not to what faction they may belong. Many of your references to Grover Cleveland are unworthy of you, but I disclaim them and credit them to a bias which has characterized your public career for the last four years.

From many portions of South Carolina I have received most courteous replies to Senator Butler's letter from county chairmen, who have been in the Movement longer than you have and who are no doubt as true Reformers as the one and no doubt less to submit Senator Butler's letter to your executive committee when meets. The simple request is only for "fair play" and you should not show so much nervous agitation in anticipating the visit of your committee to the removal of yourself and some others from influence in Clarendon county.

Yours, truly yours, JOHN G. CARROLL.
