Abimelech is a name maladorous in Bible history yet full of profitabl suggestion. Buoys are black and uncomply, but they tell where the rocks are. The snake's rattle is hideous, but it gives timely warning. From the piazza of my summer home, night by night, I saw a lighthouse 15 miles away, not placed there for adornment. but to tell mariners to stand off from that dangerous point. So all the ironbound coast of moral danger is marked with Saul and Herod and Rehoboam and Jezebel and Abimelech. Thes bad people are mentioned in the Bible not only as warnings, but because there were sometimes flashes of good conduct in their lives worthy of imitation. God sometimes drives a very straight nail with a very poor ham mer.

The city of Shechem had to be take en and Abimelech and his men were to do it. I see the dust rolling up from their excited march. I hear the shouting of the captains and the yell of the besiegers. The swords clack sharply on the parrying shields, and the vociferation of two armies in death grapple is horrible to hear. The battle goes on all day, and as the sun is setting Abimelech and his army cry. "Surrender!" to the beaten foe, and unable longer to resist the city of Shechem falls, and there are pools of blood and dissevered limbs, and glazed eyes, looking up beggingly for mercy that war never shows, and dying sol diers, with their head on the lap of mother or wife or sister, who have come out for the last offices of kindness and affection, and a groan rolls across the city, stopping not, because there is no spot for it to rest, so full is the place of other groans.
