This Samoan busi- politics He gct elected by the supness has aroused the people, and action is demanded. Senator Stewart voiced public sentiment when he said: "Does Germany want to fight? If so, she may be accommodated. We are a peaceful people, but we do not permit others to go around with chips on their shoulders." And Rep resentative Hull, of Iowa, a Republican, said: "In my section the feeling has been strong against Germany for six months. The people believe that she was hostile to us in the war with Spain. The people are in such temper that they will not permit any trifling or hedging on the part of this government." The time has come when the mind of the German Em peror must be cleared in an effective manner of the idea that this country

last convinced that peace in the Philippines is still a long ways off, and the administration is beginning to realize that the islands were not a bargain at \$20,000,000, and that we will pay the money a long time before we get possession of the property, such as it is. When Aguinaldo's capital was taken it was announced by administration officials that the fighting was all over, yet during the present week there has been almost continuous fighting over there, and our troops didn't have to do all the attacking, either. Speaking to several army officials, General Shafter said: "General Lawton and his men are achieving much success so far as Filipmos, however, is like the brushing away of flies; the moment the brushing is stopped they come back. The Filipinos are bound to give in eventually, but I believe it is a much more serious task to subdue them than most people think." Another army said, after noting the resemblance of General Lawton's campaign to those against the Apache Indians: The Filipinos will get tired of the chase sooner than the American Indians did, and after a few years of attempting to keep up a fight against sister. the authority of the United States, the insurgents will disappear or surrender." That's a nice thing to contemplate, isn't it? Pay \$20,000,000 for islands which we will get complete possession of in a few years, and will not have any use for after

General Shafter has had critics in plenty ever since the charge was made, and never disproven, that he had "flunked" in the Santiago campaign, and that he would have made a mess of the whole business if Gen. Joe Wheeler and others had not prevented, but his testimony regarding the canned "roast" beef brought more harsh criticins that anything he had previously said or done.
