The up-country has gone wild on roller skates, a little of that craze will reach this section, our people will be able to eat unadulterated flour once more. A telegram reached here just before going to press announcing the death from sunstroke of Dr. Reubin B. Loryea, at Tryon, N. C. The body will be buried in Sumter S. C. Parties are making inquiries relating to the establishing of a round bale plant at this point. We are not sufficiently informed on the subject to know whether our farmers desire to market their cotton by the new process, and we will make it our business to get the law as to the round bale process the producer gets about one cent per pound more for his cotton; at any rate it is now too late for this season any way. We are very much pressed for money and our subscribers would confer a special favor if they will come forward now and settle. It is utterly impossible for us to meet our obligations unless we are paid. We are doing our best to get the law as to the round bale process the producer gets about one cent per pound more for his cotton; at any rate it is now too late for this season any way.

Manning hasn't taken on a balloon growth like some towns, but she has outstripped towns, even of larger size. A few enterprising citizens saw that by establishing a wholesale and jobbing house here they could get the key to the gates of the best markets in the United States, and as soon as this was demonstrated to them, they at once concluded to put Manning in as close touch with the commercial centers as Charleston or other markets. And today in THE MANNING TIMES block under the management of Mr. H. T. Avant, is a wholesale and jobbing grocery establishment, where the dealer can see what he buys and from people known to him. This establishment is a great advantage to the trade here, because this grocery company can effect freight arrangements that a retail dealer cannot, and thereby save a considerable amount in freight. The wholesale business in a small town is an experiment, and should receive every encouragement, because it takes pluck and money to run such an institution. Keep Quiet and use Chamberlain's colic, cholera and diarrhea remedy for all pains of the stomach and all unnatural looseness of the bowels. It always cures. For sale by R. B. Loryea, druggist. Bring all the guns at once. By order of W. M. Lewis, Captain, ag2-tf J. C. Graham, First Sergeant.

With such a condition of affairs, the business man is put to his trumps to study out the most effectual way of meeting the people and sharing their burdens, to remedy the bad effects caused by any turn in affairs which operate adversely to the people. It is unnecessary to introduce myself to the readers of The Times, they know me, and they know full well that my many years of experience, both as a farmer and a merchant, give me a decided advantage over many others. I have used my experience that it may count for the best interests of my business. In doing this I had to study the needs and wants of my patrons, studying their condition as well as their welfare, because upon their welfare depends my success. Every business man, to keep up with the progressive spirit now pervading this country must study the markets just as a lawyer or doctor must study his goods to meet competition. I have made deals by which I can sell goods at prices that cannot be duplicated anywhere, and I am going to do it. A visit to my store will convince any buyer that my immense stock has been selected with the greatest care, and contains everything that can be used in the family, or on the plantation. There is no store in this section of the State that has a more varied assortment of Foreign and Domestic Dress Goods, Notions, Fancy Goods, Trimmings, Clothing, Hats, Gents, Furnishing Goods, Shoes, Hardware and Cutlery. Sadlery, Harness, Crockery, Glassware, Wood and Willoware. Dress Making Department Up-Stairs. My Grocery Department is thorough and complete; I buy direct by the car load from the best mills and packers. Sugars, Coffees, Teas, and everything in the Grocery line in such quantities purchased to give my patrons the advantage of wholesale figures and can save my patrons money. I am paying all the market will permit for cotton and in a position this year to make it advantageous for the people to bring their cotton to Manning. I solicit a continuance of past favors. YOURS TRULY, J. W. McLeod.

There is much complaint in this county about the reckless violation of the fish laws, and yet the parties complaining will not do their duty by prosecuting those violating the law. He keeps a general merchandise store, where the buyer can be supplied with anything and everything at competing prices. King is a hard worker, and deserves doing a good business, because what he sells he will be relied upon, and any goods bought at his store, not turning out as represented will be made good without any argument. The Summer Normal school, now in session at the "Moses Levi Memorial" building, convened here last Thursday with Professors L. W. Dick and S. M. Rice, Jr., of the Aiken Graded school in charge. These gentlemen are teachers with fine reputations and we have every reason to believe that their work here will greatly benefit our teachers. The attendance is fairly good, there being about 30 teachers enrolled, and they are given a regular course of study and instruction, in arithmetic, geography, English, etc. In a conversation with Professor Dick we were highly gratified to hear him speak so well of the teachers of Clarendon. He says they are very bright and intelligent and that they are attentive students, all of which is pleasant to know of those who have the moulding of the coming generation's ideas. It is to be hoped that before the school breaks up, the teachers will give a public entertainment, in order that our people will have the pleasure of coming in social contact with them. We know that at present they have no time for social functions, as their time is all taken up with their books, and from the fact that they are taking advantage of this great opportunity for improvement, provided by the State. The last evening of the school might be set aside for a public reception.
