

KENDALL'S Millinery Department.

This is one department the people of Clarendon should read carefully and pay it a visit, as they who have done their trading in Manning for the last few years know what high prices they have had to pay for a Ladies' Hat prior to our opening up in the Millinery line, because of no competition.

This season especially you should come to our Millinery Parlor. We carry twice the line of goods we have had heretofore and can fill your bill for anything you can call for in this line. We can and will sell you Millinery for 25 per cent. advantage in price and style over any millinery house in Clarendon county.

We have the most complete line of Dry Goods, Shoes, Clothing, Pants, Shirts and Millinery in town. Prices much lower than what price is quoted you, we will be lower. We are not like some—want it all, and run down others and tell things that nobody would believe, but we want a share of your trade and will appreciate it if you will give us a look.
