In a leading hotel, in a great city, a famous and aged physician was convers Listening to his wise and sententious discourse, were a group of well dressed men, evidently lawyers, business men and commercial travelers.

My firm belief, is "that medical science is certain yet to show that all dis-

eases without exception are caused by invisible germs which are living organisms. Here is the germ of that terrible disease diphtheria. Here is the bacillus of typhoid fever; and here is the still more dreadful bacillus of tubercle which causes that most destructive of all diseases, consumption. This of that very

causes that most destructive of all diseases, consumption. This of that very common and supposed incurable disease, catarrh."

"I wish, Doctor," said the traveling man, "that you would tell us about catarrh. I have had it for years, and I am thoroughly discouraged."

The Doctor answered. "Catarrh, like diphtheria, consumption, typhoid fever, and a host of other diseases, is the result of a microbe invading the blood and attacking angular the mucous membrane. This foul and most discussing and attacking specially the mucous membrane. This foul and most disgusting disease is especially prevalent in the United States and it is rare to meet one who is not, or has not been troubled more or less with it. How often is he or she obliged to remain at home from pleasant entertainments, deprive themselves of many intellectual treats, from fear of the disagreeable odor arising from catarrhal affections. In its worst phase, the patient becomes loathsome both to himself and his friends.

"I believe," continued this great physician, "that the true way to heal cartarrh is to medicate the blood. This can be done only by powerful alteratives which not as blood purificare." which act as blood purifiers.'

Betsy A. Marett, of Manistee, Manistee Co., Mich., writes:

Dear Sirs:—For ten years I was a sufferer from general debility and chronic catarrh. My face was pale as death. I was weak and short of breath. I could catarrh. My face was pale as death. I was weak and short of breath. I could hardly walk, I was so dizzy and had a ringing in my head all the time. My hands and feet were always cold. My appetite was very poor. On getting up in the morning, my head swam so I was often obliged to lie down again. I had awful pains in the small of my back. 1 had a continual feeling of tiredness. My muscular power was almost entirely gone, and I couldn't go half a dozen steps without stopping to rest, and often that much exercise caused me to have a pain in my side. It seemed as though the blood had left my veins. The doctors said my blood had all turned to water. I had given up all hope of ever get. tors said my blood had all turned to water. I had given up all hope of ever get-ting well. I tried the best physicians in the state, but failed to get any relief. My husband got me a bottle of Johnston's Sarsaparilla. I took it, and then I bought another. When these had been used, I was somewhat improved in health. I continued its use, and felt I was growing stronger; my sleep was rehealth. I continued its use, and left I was growing stronger, my step was 1 freshing, and it seemed as if I could feel new blood moving through my veins. I kept on taking it, and now consider myself a well and rugged woman. I work all the time, and am bappy. I am positive that the Sarsaparilla saved my life. The sick headaches I have had since childhood, have disappeared, and my catarrh has almost entirely left me. I cannot be too thankful for what Johnston's Sarsaparilla has done for me. I recommend all women who have sick headaches are marked to the same same save and sa aches to use your Sarsaparilla.
