Taxpayers return what they own on the first day of January, 1901. All real estate and personal property must be returned this year. Assessors and taxpayers will enter the first given name of the taxpayer in

24c per b the first given name of the taxpayer in 24c per b full, also make a separate return for ass 100 cans each party for the township the property is in, and where the taxpayers owns realty, to insert the postoffice as 90c doz their place of residence, and those who ... \$1.20 doz only own personal property, to give the party's name who owns the land they live on as their residence, which aids the taxpayer as well as the County Treasurer in making the collections and preventing errors.

of twenty-one and sixty years on the first day of January, 1901, except those incapable of earning a support from being maimed, or from other causes, shall be deemed taxable polls. This .835 per 1,000 does not apply to Confederate soldiers .35 per 1,000 over fifty years of age.

The assessing and collecting of taxes

is all done now in the same year, and we have to aggregate the number and value of all the horses, cattle, mules, etc., and their value that there is in the county, and have same on file in the Comptroller General's office by the thirtieth day of June each year. And from that time to the first day of October each year the Auditor and Treasurer's duplicate has to be completed and an abstract of the work in the Comptroller's office by that time, which will show at a glance that the Auditor has no time to take in returns or do anything else much, between the first day of March and the first day of October each year but work on the books and blanks. Therefore I hope that all taxpayers will do me the favor of making their returns in time.

E. C. DICKSON, Auditor Clarendon County.
