MUSIC TEACHER SUSPECTED.

Very Strong Circumstantial Evidence Points to Professor Miller as

> the Person Who Did the Deed.

What the police consider to be a strong link in the chain of circumstantial evidence that they are weaving about Prof. Joseph M. Miller, aged man with a family, who is under arrest on suspicion of brutally- murderform the system. General Young ing Miss Carrie M. Jennett on Thirteenth street, Detroit, Mich., just before midnight Wednesday night, was discovered Thursday evening. It is a bloodstained hatchet, which was found in the drawer of a table in Miller's kitchen. There is now the following circumstantial evidence against Professor Miller, who was the girl's music teacher and had paid her such marked attentions that her father had asked him to keep away from the house: When he was examined at the Grand River Avenue police station what are supposed to be blood stains were found on his shirt steeves, his trousers,

> Miss Jennett, who was 22 years of age and who would have become a mother in a few months, was most brutally done to death just before 12 o'clock Wednesday night. She was felled by a terrific blow on the head which broke her neck and her throat was cut from air to ear. A blow from some instrument made a hole in the middle of her forehead and behind her left ear was a deep stab wound, evidently made by the same instrument that was used to cut her throat. In addition to these ghastly wounds a heavy blow had been struck on the side of her face, fracturing the cheek bone. Her mutilated body was found in this condition in a lonely spot on Thir-

teedth street. Miss Jennett left her home to attend a meeting of the Rebkah lodge of which she was a member. She left the meeting about ten o'clock and was not business, these firm at the same time seen again alive. Her parents were charging exorbitant prices, to the extent, in a few instances of 100 per cent when they heard of the murder bedaughter, Mr. Jennett hurried to the

laced body. The police were working on the case notice, lack of methods and forms to and questioned him as to the girl. He told them of her infatuation for Professor Miller and the teacher was placed under arrest. Miller took the situation very coolly when he was examined at the station. Nothing could be learned from questioning him. He was then ordered to off his clothes and on the shirt, the police found bloodstains. Miller offered no explanation of them. More stains were found on other garments. Miller still maintained absolute silence. It was then decided to lock him up. While he was being registered on the blotter, the music teacher collapsed and fainted. He was revived only to faint again as the officers conducted him to a cell. Miller left his douse last evening to attend a lodge meeting on Baker street returned about 11:20 o'clock, apparently cool and undisturbed. He alleges that he did not leave the meeting until 11 o'clock but several persons who were there say that he left between 10

committed at five minutes after 11 o'clock as near as the officers can learn.

One of His Fighters. While the train with President Roosevelt and party was in the Union a young man in the crowd walked up Will Gassaway, who was some 300 at once recognized him as one of the members of a troop in his regiment of Rough Riders. None could mister reached Tuscumbia, a posse left take the genuineness of his hearty, "Old fellow, I'm real glad to see you,

A Gruesome Find. Wednesday at about 2 o'clock some negro fishermen who were fishing on Long Cane creek about 5 miles from Abbeville made a gruesome find. It was the body of a negro man with his throat cut from ear to ear. The wound appeared as if it had been done with an axe. The body had evidently been in the water for several days, as the skin was coming off the body where exposed. The body is supposed to be that of Morgan Belcher, who disappeared two weeks ago. There is no clue so far as to the perpetration of the deed.

Will Absorb Both.

The Chicago Record-Herald says. Upon the authority of a large stockholder in the plant system it is stated that the Pennsylvania interests will soon acquire possession of the allied Plant and the Atlantic Coast Line systems. In this fact, it is alleged, is to be found the reason for the purchase by the Atlanta Coast Line of the Plant System, which has surprised the railroad world. Should the Pennsylvania secure the two systems they will add a total of 3.970 miles of line, bringing the total to 20,000 miles

under one control." To Be Married.
