Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is right-

ly called "The King of Pain."

All do not sufferable. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time.

An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. ● It is safe and reliable in all forms of Rheumatism. It makes

the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy. If you have Rheumatism, write us, and our physicians will furnish without charge any information desired, and we will mail free our book on THE SWIFT SPECIFIC CO., ATLANTA, GA.

Before the Revolution, ministers of the Anglican church in those American colonies where that church was established by law were remunerated "in kind" instead of in money. Maryland gave an incumbent forty pounds of tobacco a year for every tithe payer in the parish, whether churchman or dissenter, white or colored. These terms were handsome enough to secure the pick of the clerical market. In Virginia the stipends represented a fixed and unvarying quantity, by weight, of the manufactured leaf. These stipends were rather beggarly in quantity. In a bad year even the "sweet scented each county in the State, the value of parishes," where the minister's salary was calculated on a high priced and exceptionally fragrant tobacco, yielded only about \$500 a year. The parishioners sometimes refused to induct a clergyman unless he would consent to take one salary for serving two parishes. In two-thirds of the incomes of ministers. Patrick Henry made his first fame in defending this law when a test case was brought in behalf of the injured clergymen.

### A Dead Moose.

When a bull moose lies dead in the forest he looks like some strange antediluvian animal, with his square pre hensile muffle and horns spreading laterally, a peculiarity which he shares with the prehistoric Irish elk and the nearly extinct European elk of later times. The huge form tells of strength and swiftness, and withal the still dangerous gleam of the eye, glazed in its last stare, bids the hunter pause and feel almost guilty of a crime in the deginian by birth and a South Caolinian by years of service. Prof. Moore is a struction of so much that is grand and weird, a feeling very different from the sentiment supposed to attend the slaughter of a deer. But the triumph of mastering the wariest and bravest animal in the woods by fair still huntreputation as a great Baptist preacher.
The Chair of Adjunct Professo of ing and by grimly sticking to the track English has also been established and for many a weary mile amply atones Mr. H. C. Davis, a South Carolinian for any regrets.-Century.
