fierce flames and intense heat away from this tank. The flames and smoke shot high up in the air and could be seen for miles. There were hundreds of cords of wood on the yard and about 130 cords were destroyed. The plant was so nearly destroyed that it will, if the company decide to continue, have to tear down and rebuild. The property was valued at \$29,000; insurance, \$10,000. Owing to the hazardous risk, insurance could not be secured in regup a tremendous stock. Read the ular old line companies and it may be doubtful if the company will recover

all of its insurance. The railroad track of the A. C. L. home from the summer vacation, after was on fire when the train from Charhaving "done" the "expo," spent some leston arrived, and after waiting for ortime at Mt. Clement, Michigan and ders, it backed to Wilson and went to Sumter over the W. & S. road. We do not know whether the turpentine plant will be rebuilt or not, but we hope it near being elected Governor on the will, as in our opinion the fumes from prohibition ticket, was defeated in it has a wholesome effect upon the atmosphere. Some think its rebuilding doubtful as the financial returns have been disappointing to the investors.

The twenty first annual convention of the South Carolina Womans Christian Temperence Union will conveine in the Manning Methodist Church Sept. 29-Oct. 3, 1904. We expect the rare privilege and pleasure of having Mrs. Susana M. D. Fry of Ill., National Corresponding Secretary to be with us. Our own Mrs. Janie Herbert Haynes of Leesville, S. C., State President, will of course be here.

Program of convention will appear MRS. JOSEPH SPROTT,

Pres., Local Union.

Every farmer knows that ome plants grow better than others. Soil may be the same and seed may seem the same out some plants are weak and thers strong.

And that's the way with children. They are like young plants. Same food, same home, same care but some grow big and strong while others stay small and weak.

Scott's Emulsion offers an asy way out of the difficulty. Child weakness often means starvation, not because of lack of food, but because the food

loes not feed. Scott's Emulsion really feeds and gives the child growing trength.

Whatever the cause of weakness and failure to grow-Scott's Emulsion seems to find it and set the matter right.
