MINING DISASTER.

From Thirty to Sixty Men Lost Their

Lives by Fxplosion

IN AN IRON MINE IN COLORADO.

## ON THE RIGHT LINE

VOL. XVI.

Judge Parker Makes Trust and Corporation Corruption the Issue. THE REPUBLICANS WARRIED

Because All the Big Trusts Have Contributed Liberally to Their Campaign Fund as Charged

by Parker.

It is understood there on good authority to be the serious intention of Judge Parker to have the Democratic manaissue of the campaign on the question of trust and corporation corruption in campaigns, as evidenced by their enormous contributions to the Republican national committee. So many favorable comments have been made on the speech delivered recently by Judge Parker, in which the trusts were charged with contributing heavy sums to the Republican campaign that they might be benefitted by the continuation of the Republican party in power, that Judge Parker has come to the conclusion that the country is aroused to a high pitch over what appeals to him as nothing more nor less than the purchase of immunity from a great political

party. That speech has created consternation among Republicans in Washington and elsewhere, and is regarded by persons close to the president as furnshing an issue that may in the last few weeks of the election change the entire tide of affairs, as now running The notorious fact that nearly every great trust and corporation in the country has contributed heavily to the Republican campaign has never been so authoritatively and powerfully emphasized as in the arguments presented by Judge Parker. At the same time his bold utterances give the lie to the recently circulated story that the Standard Oil and other big interests have lately put up much money to the Democratic national committee. It is admitted here by Republicans that what promises to be damaging to them is rapidly spreading information, which was not ac cepted for a long time as accurate. that all the trusts and corporations have made peace with the administration and will support Roosevelt.

To offset this the literary and newspaper headquarters of the Republican committee have been deliberately giving out stories that the Standard O.1 people have put up money for use in the close states in the last few days. The fact that this is false is shown in the personal support of Rocsevelt by President Stillman, of the City Na-

When I came here then

The Women and Children Had to be Led from the Mine to Prevent Their Being Killed by Fames. From 3) to 60 man lost their live in a territic explosion which occured at mine No. 3 of the Rocky Mountain Fuel and Iron company at Terico, 40 miles west of Trinidad, Col., Friday afternoon. The exact number of dead may never be known, as the mine is burning and in all likelihood the bodies will be consumed. A large number of mine officials left there as soon as word of the accident was re-Sen. Tillman: Will it appear before of the triangular network of supports ceived. The company dcctors were and ribs of The Arrow's body, Kna- picked up all all along the line as well benshue directed the movements of as all availab's physicians. F. J. Foreman, a government stock inspector, was at Terrico when the explosion occured. He returned Friday night and gave the following account of the "1 was standing not more than 300

vards from the mouth of the tunnel when the explosion occurred:

"The explosion was preceded by 2. low rumbling sound, resembling an earthquake, which made the earth tremble and startled the neighborhood

'I looked toward the mine and out smoke and dust which continued for shafts, each of which is seven feet in diameter, timbers that were fully two to three feet in diameter were shot into the air and broken into splinters. Ricks were thrown over the camp for a distance of a quarter of a mile. In fact it rained rocks, broken timbers and all kinds of debris for fully a minute and many people were injured by

being struck with these missiles. The explosion, which resembled a volcanic eruption, caused the wildest excitement. Men, women and children rushed to the mouth of the tunnel and women whose husbands were in the mine had to be brought away It cirries a double cylinder, seven by miners to prevent their being killed

The mine in which the accident occurred employes 80 men and it is believed that at least 60 were in the mine at the time. News of the explosion brought assistance from the adjacent camps Friday night hundreds of men were trying to enter the mine. Deadly fumes overcame the rescuers frequently but their places immediate-

ly were taken by others ready to risk

their lives. It was not thought pos-

sille that any one in the mine could
