

Everything Ready For Fall Business.

This heading means a great deal, for it is no easy task to perfect every department of an establishment like ours, to handle the volume of trade that we have every reason to expect will be tendered to us this season. September so far has shown a very liberal increase over the corresponding period of last year, and if

"Coming Events Cast Their Shadows Before"

THIS PROMISES TO BE OUR BANNER SEASON.

It is indeed gratifying to note the unusual increase in the volume of our business, and to say that we appreciate the confidence reposed in us, gives but a faint idea of our feelings. We regard the interest of every person that does business with us as ours, and will do everything in our power to protect them.

The Largest Retail Dealers in the State.

And while we might be satisfied to remain just in the position we are, that would be practically impossible, we must go backward and forward, and our mercantile pride will not permit of a backward step, and each year will find us in the front rank, seeking new fields, new customers, and keeping fully in touch with the spirit and progress of the city in which we take such pride.

Let Common Sense Decide

Do you honestly believe, that coffee sold loose (in bulk), exposed to dust, germs and insects, passing through many hands (some of them not over-clean), "blended," you don't know how or by whom, is fit for your use? Of course you don't.

LION COFFEE

is another story. The green berries, selected by keen judges at the plantation, are skillfully roasted at our factories, where precautions you would not dream of are taken to secure perfect cleanliness, flavor, strength and uniformity.

From the time the coffee leaves the factory no hand touches it till it is opened in your kitchen.

This has made LION COFFEE the LEADER of ALL PACKAGE COFFEES.

Millions of American Homes welcome LION COFFEE daily. There is no stronger proof of merit than continued and increasing popularity. "Quality survives all opposition."

(Sold only in 1 lb. packages. Lion-head on every package.)

Smothered Pig.

There is a fish in Hawaiian waters which is known by the native name of humuhumunukunukuapua, which means literally "sewing up the nose." The Hawaiian method of killing a pig to be roasted is to smother it, not cut its throat, and it is smothered by sewing up the pig's mouth and nose. This fish with the long name has spines which in ancient times were used as needles to sew up the pig's mouth; hence the name more fully means "the fish that provides the needles for sewing up the nose of the pig."

A Liquid Cold Cure.

A Cough Syrup which drives a cold out of the system by acting as a cathartic on the bowels is offered in Kennedy's Laxative Honey and Tar. Clears the throat, strengthens the lungs and bronchial tubes. The mother's friend and the children's favorite. Best for Croup, Whooping Cough, etc. A liquid cold cure, and the only Cough Syrup which moves the bowels and works all cold out of the system. Sold by The R. B. Loryea Drug Store.

A Divided Church.

There is a very striking instance of religious toleration in Heidelberg, an ancient city of Germany. One of the most important buildings of that town is the Church of the Holy Ghost. Through the middle of this building a partition wall has been run, so that services according to the Roman Catholic and the Protestant ritual may be held at the same time. In the year 1719 an attempt was made by Charles Philip the Elector to deprive the Protestants of their half of the church, but the townspeople made so strong a resistance that he was obliged to desist and even to remove the electoral court from Heidelberg to Mannheim--London Mail.

Stumble Pie.

There is a queer twist of language in the phrase "to eat humble pie." The word "humble" is a corrupted form of the original "mumble" which is an edible part of the carcass of a deer and would make very poor pie. The words "humble pie" have the same original meaning as "to eat crow," a phrase common in political life. There is an enforced humility in this process, and the change from "mumble" to "humble" introduced a thought which harmonized with the idea sought to be expressed. The last form of the phrase has entirely supplanted the original.

How to Avoid Pneumonia.

We have never heard of a single instance of a cold resulting in pneumonia or other lung trouble when Foley's Honey and Tar has been taken. It not only stops the cough but heals and strengthens the lungs. Ask for Foley's Honey and Tar and refuse any substitute offered. Dr. C. J. Bishop, of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." The R. B. Loryea Drug Store, Isaac M. Loryea, Prop.

Banker's Grain Golah.

A curious instance of the magnificence of eastern ideas and admiration for things that are large is the grain "golah," to be seen at Bankipur, in Bengal, India. It was built as a granary in 1783, but never used as such. Its walls are of masonry twelve feet thick, and it stands ninety feet high, with a circumference of forty-three feet at the base, and would contain about 130,000 tons of grain. Access to the interior is obtained by a staircase on the outside leading to a platform on the top, where there is a stone placed in the center, which can be removed. Now it is perhaps the finest whispering gallery in the world.

Miss Sophie Fleming is visiting relatives in Charleston.

We were all grieved to learn of Rev. James McDowell's illness. Mr. McDowell was taken suddenly ill last Sunday at Midway Church. He was attended by Dr. Hagood Woods, who happened to be present, and he was afterwards removed to the home of Mr. W. T. Rose, where every attention was given him. I hope his illness will not prove serious and that he will be spared for many years to come.

Jack Hicks had better keep an eye out on somebody from Turbeville or he might lose one of these pretty teachers.

Mrs. B. has been to Manning lately, and she is pleased with the results of her trip.

There is very little news over here, but every one is in the cotton fight to the finish.

I think everybody should contribute towards aiding the officers of the Cotton Association to carry on the fight. The Association has been the means of raising the price of cotton at least \$15 the bale, and if every farmer gave one dollar his contribution would be small.

Mr. Editor, we voters are going to remember those fellows who when seeking office have a great love for the farmer, but now that the farmer is making a fight to benefit his material interests so that he can take his place with other men the fellow who gets office or from the voters are going to keep a sharp lookout for such, and when next summer comes along they are going to be taboed if they haven't given material aid to the Cotton Association. We farmers give up our time, which is money to us, to go to the primary to send men to the Legislature and to give salaries to them, and yet, when we ask them to come to our aid in this great struggle we are engaged in, they skulk away and don't give us a cent, and where you have made an appeal for contributions, and we are going to watch the columns of THE TIMES to see who it is that has patriotism when there are no elections at hand, and every man who comes before the people for office next summer who has not given our cause substantial aid we will remember him when he wants aid.

Time of Peace.

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be treated much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds, and it should be kept at hand ready for instant use. For sale by The R. B. Loryea Drug Store.
