THE WAY TO PURIFY IT IS TO KILL IT.

Just what the people expect to do about the revelations in the dispensary investigation we are not yet in position to know.

It is up to the people to say whether or not this rottenness shall continue eating its way deeper and deeper into the body politic.

If the people endorse (by a continued support) a system which has from its very inception proven corrupt, how can they expect purity in the other systems of our State?

There being only one store at this place, operated by C. L. Griffin who carried on a mercantile business for a number of years, but now has retired from the mercantile business.

Dr. McLaurin operated a saw mill under the firm name of "Mason and McLaurin" for several years. Dr. McLaurin acted as agent for a while, but the business grew so rapidly, he saw it was impossible for him to attend to it.

Consequently, Capt. John F. Divine, Gen'l. Supt., requested the present Traffic Manager, Capt. R. A. Brand, who was agent at Sumter at the time, place an agent at Pinewood.

The dispensary authorities have a strong defender in the Columbia Record. That newspaper is lending no encouragement whatever to the investigating committee.

The recent developments by the dispensary investigating committee has shown some faithful work on the part of the committee, and it will soon be up to the courts to say whether or not there will be any convictions for official wrong-doing.

Congressman J. E. Ellerbe is hot on the trail of the agricultural department. He claims the cotton reports are tampered with, and he is doing all that he can to have a congressional investigation.

We regret to see so many good farmers showing signs of weakness in the cotton association. That institution has done a vast amount of good, and if the farmers will stand by it there is no doubt about it the good work will continue, but no organization can accomplish good results if the members of it do not stand by their obligations.

Governor Heyward has accepted a "sudden heat and passion" apology from Major John Black, who hails from the Governor's county, and he permits Black to remain on the Board of Directors. If Black will get up another case of "sudden heat and passion" and shoot Fraser, he may be safe in the hands of his countryman, Governor Heyward.

In our opinion conditions warrant steps to be taken looking to urging the proper men to stand for election to the General Assembly. There are good men who we believe can afford to give some of their time to the public welfare, who have the country at heart, and who would, if chosen Representatives, will be of great service not alone to the country but the State as well.

One of the main reasons why there is so much complaint about our legislatures, is that the people have, or seemingly have, lost interest in the selection of men, and the consequence is that, as a rule, the men selected as Representatives are of a class that four dollars a day is enticing to them, and it is the per diem that attracts. Until the people themselves wake up and change this condition it will grow from bad to worse.

Mr. McLaurin applied the appropriate name, Pinewood, in the year 1888. At that time the railroad was not built any further than the Fulton-Manning public road.

active business at the present day, he has just built a two story brick store of modern style which is a credit to the town and country. In this establishment can be found all the latest up-to-date dress goods, laces, trimmings and everything that is required to make an up to date store complete.

One among our oldest merchants is Mr. N. C. Stack who has been retired from the mercantile business for a number of years, has now under construction a new store, when completed will be one among the most attractive in town.

Mr. Henry F. Stack who came here about sixteen years ago to go in business with his brother, has now in charge and is general manager of The Pinewood Farmers Exchange, with W. F. Stack, of Elloree, President, A. G. Stack, Vice President and Harry L. Geddings, Sec. and Treas.

Mr. A. L. Burkett opened the first furniture and coffin business here which he ran for a number of years with much success. He has been out of the business for two or three years but has again gone back in business and can be found at C. L. Griffin's old stand Northwest corner of Broadway and North Hampton St.

Mr. D. R. Lide, succeeded Mr. Burkett when he retired a few years ago from the furniture and coffin business which he has made a successful and paying business and is still on the corner of Broadway and West R. R. Ave., and retails ice as a cooler.

Mr. Sam G. Griffin is one of our old leading merchants and carries on a general merchandise business.

Mr. Geo. W. Smith, our postmaster, has taken a seat in the mercantile business, band wagon and runs a general store.

Mr. Pat B. Lawrence sells anything from Coca-Cola to Hire's Root Beer, and you can also have your whiskers mowed down there.

Mr. R. F. Epperson runs a retail fancy grocery store and delicacies of the season are always on hand.

Dr. R. S. Beckham, Jr., our drug store man has met with unprecedented success and is one of our best citizens.

Shade trees will add much toward beautifying and adorning the streets and be a delight to the eye of citizens and visitors. This work would come under the head of "Civic League" which in other towns and cities is under the management of the ladies who look after the particular branch of beautifying the town.

The boring for an artesian well will begin soon and it is hoped that it will be a successful undertaking by the town people as well as other, as good water and "over-flowing" wells will attract the attention of travelers as well as others who are thinking of moving to a healthy location; so let the town get off the nineteenth century local freight and catch the "fast 20th century progressive train."

The town authorities should join in with those in business and the citizens and try to help the gradual increase of the town from a business view and try to induce new comers to come in. There can be a lot of improvements made in the progress of the town.
