Old. Strong and Reliable! BECAUSE it ss more than a generation since it was chartered.

BECAUSE its business from the outset has been ably and conservatively managed, and its growth has been healthy. BECAUSE its investments have always an prudently made, and its financial affairs kept well in hand. BECAUSE of the high character of the securities it has always held. BECAUSE the Policy-Holders have been most amply protected, all claims

having been promptly and honestly settled Is this not the Company to recommend to your friends?

Honest company found at last by the insurance investigators. Home Life is square.—New Haven Union, 12-11-05. P. R. ALDERMAN F. L. COLLINS. Superintendent. Color Schemes In Building.

Strange how little we Americans do the gamut we run. Most beautiful effects can be gained by the use of enameled colors even on flat surfaces; dainty patterns can be worked out and brilliant yet harmonious effects gained. Our coloring schemes are tame. We certainly have much to learn in that respect from the Persians of old. They were masters in enamel, and their work was gorgeous, beautiful. With us it is lack of taste; it certainly is not lack of material. There are American makers of tile that produce material equal to that of antiquity, the richest colors and the most easily adapted

Fat and Lean Men.

Modern scientific investigation in a medical way declares that the plump man is not necessarily the "healthlest" or the best able to resist disease. The lean man not only enjoys greater resistance to weakness and debility, but he is stronger in the performance of a given task. In other words, a large fat deposit in the general tissue is no evidence of good general nutrition. The rich and girlish beauty of the plump man, sometimes called "Fatty," may delight the eye, but when it comes to walking downtown in the morning or running four blocks to a fire "Fatty" blows out a fuse and is sent to the repair shop, while his lean brother is merely put in condition for the day by this little burst of exercise .- Minneapolis Journal.

Thousands annually bear witness to the efficiency of Early Risers. These pleasant, reliable little pills have long borne a reputation second to none as a laxative and cathartic. They are as staple as bread in millions of homes. Pleasant but effective. Will promptly relieve constipation without griping. Sold by The Arant Co. Drug Store.

The Perfect Exercise.

The game of golf fulfills the axioms laid down for a perfect exercise-a walk with an object. When it is considered that the limbs and the trunk are exercised golf may be classified as one of the few games, if not the only game, which affords a complete exercise in itself. - Professor Cautlie's "Physical Efficiency."

Japanese Swords.

"Japanese swords are the finest," said a swordmaker. "They are finer than the blades of Ferrara, of Toledo or of Damascus. The blades of Ferrara, of Toledo and of Damascus must bend into a perfect circle without breaking, and, a pillow of down being thrown in the air, they must cut it in two with one clean stroke, but the Japanese blade must do all that and more. The final test of a Japanese blade is its suspension, edge upward, beneath a tree. It must hang beneath the tree for twenty-four hours, and every lightest leaf that falls upon its edge must be severed neatly. One failure and back to the forge goes the Japanese blade again."

How to Break up a Cold.

It may be a surprise to many to learn hat a severe cold can be completely broken up in one or two days' time The first symptoms of a cold are a dry. loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's cough remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of he cold and restores the system to a healthy condition within a day or two. The Stinging Tree.

The stinging tree of Australia somewhat resembles a gigantic nettle. It has an unpleasant odor, and the natives and native animals are careful to avoid it. When a man is stung by the years." Best body cleansers and life tree-or, to put it more prosaically, pricked by the tree's thorn-the little wound gives him at first no pain whatever. But in a few minutes a maddening pain is set up; the victim shrieks and rolls upon the ground. For months afterward when water touches the stung part great agony ensues. Dogs when stung rush about with piteous whines, biting pieces of flesh from the place that has been stung.

The Ancients and Medicine. A roll of papyrus acquired by Dr. Ebers in the vicinity of Thebes, Egypt, in the winter of 1872, from an Arab who made ancient grave robbing a business, after investigation and translation was deposited in the library of the University of Leipsic. The script of this papyrus is hieratic. The date of it is said to be over 7,000 years ago. It is a comprehensive treatise on medicine. Diseases of the abdomen, the chest, the heart, the eyes, the ears, and so on, are carefully arranged and described in a manner that would command respect at the present day. For instance, of the heart the papyrus classifies the troubles as fatty degeneration, dilation, carditis, angina, or spasm; hypertrophy (enlargement), thrombosis (plugging) and dropsy. Of medicines over 700 different substances are enumerated, and they are prescribed in pills, in tablets, in capsules, in decoctions, powders, inhalations, lotions, ointments and plasters.

Plaster Casts.

Those who have plaster casts that they wish to preserve may protect them from dust by brushing them with a preparation of white wax and white soap, half a teaspoonful of each boiled with a quart of rain or other soft water. Use when cold, and when they are dried the casts may be wiped with a damp cloth without injury. To harden casts brush with a strong solution of alum water and brush with white wax dissolved in turpentine. Put the cast in a warm place to dry after using the latter, and it will have a look not unlike that of old ivory.
