If You Were Asked

to give your reasons for believing that the **Home Life Insurance Co. of New York** is one of the best companies, you would probably answer because it is **Old, Strong and Reliable!**

BECAUSE it is more than a generation since it was chartered. BECAUSE its business from the outset has been ably and conservatively managed, and its growth has been healthy. BECAUSE its investments have always been prudently made, and its financial affairs kept well in hand. BECAUSE of the high character of the securities it has always held. BECAUSE the Policy-Holders have been most amply protected, all claims having been promptly and honestly settled.

Is this not the Company to recommend to your friends? This is what the best known papers have to say:

Honest company found at last by the insurance investigators. Home Life is square.—New Haven Union, 12-11-05.

The good record made by the Home Life on Friday stood the test of further examination yesterday.—N. Y. World, 12-12-05.

Home Life fought shy of high finances. Insurance company found with clear bill.—Washington Times, 12-11-05.

Mr. Hughes was moved to make this comment: "You have apparently \$74,000,000 insurance in force; how is it possible for you to do all that business with all your accounts on your books?"—N. Y. Times, 12-9-05.

The Home Life surprised one of the marvels of the present investigation.—an insurance company without any obvious scandals.—N. Y. Tribune, 12-13-05.

The investigating committee has at last found one company with what is apparently a perfect clean record.—N. Y. Commercial, 12-12-05.

Mr. Hughes failed to bring out a single questionable transaction.—N. Y. Sun, 12-13-05.

Inspector Hughes finds one insurance company that benefits patrons.—Cincinnati Post, 12-11-05.

Honesty found in an insurance company. No "yellow dog" fund. No campaign or legislative payment by Home Life.—N. Y. World, 12-9-05.

When President Ide of the Home Life Insurance Company finished his testimony before the Armstrong Committee this morning Mr. Hughes sighed: "It's hopeless!" He harvested a mighty crop of admissions.—Evening Sun, N. Y., 12-11-05.

Offhand. "Some grocers," remarked the customer, "have an offhand way of weighing sugar, but I notice you're not one of them."

"Offhand way? How do you mean?" asked the grocer.

"I noticed you kept your hand on the scales just now while you measured out five pounds for me."

Simplicity. Only small snobs assume exclusive airs. The more truly a man the more simple do we find him. Rarely do we come in contact with a person from whom we may not receive something if we meet him on the plane of a kindly human sympathy. It all lies in our fortunate feeling.

Cure of Bright's Disease. Geo. A. Sherman, Lisbon Red Mills, Lawrence Co., N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended, but got no relief. I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure, I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." The Arant Co. Drug Store.

A Puzzling Trick. Take a piece of writing paper about three inches square and with a lead pencil, the point of which has been dipped in water, draw a circle, a square, a triangle or any other geometrical figure. Put the paper carefully on a pan of water, letting it float and leaving the surface dry. Carefully drop water on the surface of the paper until the space within the figure is filled. The moistened pencil will keep it from flowing outside the figure. Now place the point of a pin over some point in the figure near the edge. The pin point must penetrate the surface of the water, but must not touch the paper. At once the paper will float around until the pin points directly to the center of the figure. See if you can find out why it does this.

Outwits the Surgeon. A complication of female troubles, with catarrh of the stomach and bowels had reduced Mrs. Thos. S. Austin, of Leavenworth, Ind., to such a deplorable condition, that her doctor advised an operation; but her husband, fearing fatal results, postponed this to try Electric Bitters; and to the amazement of all who knew her, this medicine completely cured her. Guaranteed cure for torpid liver, kidney disease, biliousness, jaundice, chills and fever, general debility, nervousness and blood poisoning. Best tonic made. Price 50c at The Arant Co. Drug Store.

Curious Belgian Competitions. The Belgian artist spends his leisure in a very novel manner. He breeds a special cock for every race, and that which can outstep its fellows has reached the highest pinnacle of perfection. The modus operandi is to place the cages containing the roosters in long rows, for it appears that propinquity creates the spirit of emulation, without which the proceedings would fall flat. A marker appointed by the organizers of the show is told off for each bird, his duty being to note carefully the number of crows for which it is responsible in the same fashion as the laps are recorded in a bicycle race. The customary duration of the match is one hour, the winner being the cock which scores the highest number of points in the allotted time.

Worry Wears You Out. There is no need of worrying along in discomfort because of a disordered digestion. Get a bottle of Kodol for Dyspepsia, and see what it will do for you. Kodol not only digests what you eat and gives that tired stomach a needed rest, but is a corrective of the greatest efficiency. Kodol relieves indigestion, dyspepsia, palpitation of the heart, flatulence and sour stomach. Kodol will make your stomach young and healthy again. You will worry just in the proportion that your stomach worries you. Worry means the loss of ability to do your best. Worry is to be avoided at all times. Kodol will take the worry out of your stomach. Sold by The Arant Co. Drug Store.

Changing Serpents Into Rods. The Egyptian cobra is not unlike its Asiatic cousin except in the absence of the curious spectacle-like mark which distinguishes the latter. Although it is the most poisonous reptile known to inhabit northern Africa, it is the favorite among the snake charmers. These conjurers know how to render this serpent rigidly unconscious by pressing the nape of its neck with a finger. This act appears to throw the reptile into catalepsy, in which he is as stiff as an iron rod. Traces of something similar having been practiced in olden times may be found in the Bible, where Aaron made a serpent of his rod or staff.

How to Break up a Cold. It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's Cough Remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and restores the system to a healthy condition within a day or two. For sale by The Arant Co. Drug Store.

It Wouldn't Be Right. "Now, Susie," said the teacher, "if your father should agree to work for \$2.50 a day and at the end of six days should bring home \$13, would that be right?"

"No, ma'am," replied Susie, "an' it wouldn't take me long to tell him so, you bet you!"

Let not mirth be thy profession lest thou become a make sport. He that hath but gained the title of a jester let him assure himself the fool is not far off.—Quarles.

The Very Best Remedy for Bowel Trouble. Mr. M. F. Borroughs, an old and well known resident of Bluffton, Ind., writes: "I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as the very best remedy for bowel trouble. I make this statement after having used the remedy in my family for several years. I am never without it. This remedy is almost sure to be needed before the summer is over. Why not buy it now and be prepared for such an emergency? For sale by The Arant Co. Drug Store."

A Venomous Snake. The only sure way to tell a venomous snake is to kill the reptile, open its mouth with a stick and look for the hollow, curved fangs. When not in use they are compressed against the roof of the mouth, beneath the reptile's eyes. They are lined, as you can see if you pull them forward with a pencil. The venom is contained in a sack hidden beneath the skin at the base of each fang.—Field and Stream.

A Will on Ice. The strangest will on record is that of a Connecticut clergyman who broke through the ice of a certain pond. Finding that he was unable to get out upon the ice and realizing that he had but a short time to live because of the bitter cold, he took his knife and wrote his will upon the smooth surface of the ice. It was found, duly sworn to and recorded as his last will and testament.

Piling It On. "Our minister does have the hardest luck. Just think, the baby's down with the croup, Albert broke his collar bone last week, their horse died yesterday, and now Mrs. Rector has pneumonia."

"I suppose that by and by, on top of all that, some fool will get them up a donation party."—Woman's Home Companion.

Cooly. "Is 'cooly' the name of a people?" It is believed to be. The word belongs to all the Indian vernaculars. Etymologists have been tempted to find its origin in the Latin word 'coelum,' which means sky, for mental jobs or the hiring of old job man himself, but it is pointed out in Dr. Murray's dictionary that when the word appears early in the seventeenth century it refers to a tribe of Guzerat, in the west of India, far from the Tamil speaking south, the Kull, or Koll, who seem to have been often employed by Europeans as bearers and carriers.

Limited Edition. Dr. Somerville Hastings, lecturing at the London Institute of Hygiene on "Cleanliness is Next to Godliness," said that people were much cleaner now than in the reigns of Queen Mary and Elizabeth, when the washing of clothes was unknown. Cotton was hardly in use, and linen was expensive. The poor wore rough woolen garments, which were never washed, and the better classes adorned themselves with silks and velvets, which were dyed when they would no longer pass muster in regard to cleanliness. It is recorded, continued Dr. Hastings, that James I. never washed either hands or face during the period he posed as the wisest fool in Christendom, but confined his cleanliness within the narrow limits of wiping his finger tips upon a damp napkin.—London Telegraph.

Unknown Friends. There are many people who have used Chamberlain's Colic and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving testimonials of their experience for publication. These friends, however, are, none the less, friends of this remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by The Arant Co. Drug Store.

Fishing For Sheep. When sheep were first introduced into Cornwall, England, a flock which had strayed from the uplands on to Gwithian sands were caught there by the tide and ultimately carried into St. Ives bay during the night. There the floating flock was observed from the St. Ives fishing boats, whose crews, never having seen sheep, took them for some new kind of fish and did their best to secure them both by hooks and lines and by netting. Those they secured they brought home triumphantly next morning as a catch to which even pilchards were as nothing.

New Cure For Epilepsy. J. B. Waterman, of Watertown, O., writes: "I have a daughter, my daughter, afflicted for years with epilepsy, was cured by Dr. King's New Life Pills. She has not had an attack for over two years." Best body cleansers and life giving tonic pills on earth. 25c at Arant Co. Drug Store.

Old English Customs. England, a co. boast of more quaint customs and ceremonies that have been handed down from century to century than any other civilized nation. The sounding of the mayor's horn at Ripc is one of the most ancient customs in the kingdom. It formerly announced the setting of the watch, but it has now lapsed into the formality of three blasts given at 9 o'clock in the evening at the mayor's residence by his official horn blower and three more at the market cross.

Will Cure Consumption. A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs and colds and influenza. I know that it has cured consumption in the first stages." You never heard of any one using Foley's Honey and Tar and not being satisfied. The Arant Co. Drug Store.

UNDER A HAYSTACK.

The scene of a famous and eventful Prayer Meeting.

The most famous prayer meeting ever convened in this country was held in the summer of 1847, on the grounds of a farmer adjacent to Williams College, Williamstown, Mass., says Leslie's Weekly. It was held by five students. They were quarrying what they could do for the benefit of mankind. A thunderstorm occurred and they took refuge under a haystack and continued the meeting. Scarcely the students alone for the time being knew of the meeting. For years the place was unmarked and the event unmemorialized. But those students originated the foreign missionary movement in this country for the benefit of all lands and peoples. Subsequently Williams College acquired the property, named it Mission park and erected a monument commemorative of the great result. It consists of a shaft of granite twelve feet in height, bearing a globe three feet in diameter, representing the world. The legend on the shaft is: "The Birthplace of American Foreign Missions." Underneath are the names of five students who had a part in the meeting—Samuel J. Mills, James Richards, Francis L. Robbins, Harvey Logan and Byron Green. This memorial is an object of interest to every visitor to Williamstown, and at every commencement a religious service is held beside it.

The Mosquito's Stab. The mosquito's eating apparatus consists of a lancet, enclosed in a sheath, somewhat on the principle of the instrument used by physicians. Connected with this there is an injector for throwing into the wound a subtle poison, which thins the blood, after which the fluid is drawn up by a pump and swallowed by the mosquito. Altogether the mandible of the mosquito is a singularly complicated mechanism and well repays microscopic study.
