Tuesday of last week.

The meeting was called to order at 11.20 by County Chairman E J. Den | the dirty stuff. Not one of them will nis and was opened with prayer by the do it The system cannot be cleansed Rev. Mr. Steadman. Chairman Den Had you crucible as big as the moon nis then outlined the purposes of the gathering. The people of Dorchester in the bowels of the earth, were you County were gathered, he said, to see to give to each of these candidates these candidates, who had offered who talk about purging it, a dipper themselves for office, and, seeing them and hearing them, to pass upon their fitness for office. He referred elequently to those who had made South Carolina great in history and emphasized the necessity for those to whom the ballot had been entrusted to keep well their trust. The Hon.

MARTIN F. ANCEL, of Greenville, candidate for Governor, was the first speaker introduced. Mr. Ansel was greeted with applause. First of all he desired to thank the ladies for their presence. It argues well for the campaign of 1906 that they should grace this occasion with their presence He himself is not running on his good looks, however, for in that event he feels sure some of the others would be elected over him. He wasn't elected four years ago, but he came so close to it that he felt it his duty to again present himself to the people for their suffrages. He is proud that he rep resents the Piedmont and he is proud of the magnificent vote he received in his old judicial circuit, where he is best known. He has the endorsement of his county. It is only upon high grounds that he desires election. He stands for the great principle of higheducation and he stands un qualifiedly schools. In the youth of the country is the hope of the country. There he urged strongly the importance of the common schools. Good read is another plank in his platform. This is a matter of greatest interest. We "don't want such roads that we shall have our religion joited out of us before we get to cauren." He favors seeking and accepting aid from the Nationa. Gov ernment for this purpose. He is op posed to the State dispensary and he is in tayor of local county option as between a county dispensary and prohibition. If you man is brought up charged with a have corruption in the State dispensary, what would you have if there were 41 county boards? He does not favor the Raysor-Manning bill. One of his reasons for this is because one of the amendments provides that whenever the board thinks the dispensary is a nuslance they have the right to close it up. That is not gov erned by the people. They say the dispensary is corrupt. All right. Why is it corrupt? It is because men origi naily opposed to the dispensary law have of recent years been placed in charge of the system. But there is no Cniids wold him yesterday that since the dispensary was voted out in cer tain counties the jug traffic on his railroad had more than doubled. Prohibition has failed in Newberry. He is ready, willing and waiting to defend any attack made on the dispensary system. He, too, favors good roads and good schools. Everybody does But the money of the people is being squandered now. Two more judicial circuits have been provided, but still they clamor for extra Courts. He help ed to defeat the appropriation for the payment of the expenses of these extra Courts. If elected he will endeavor to reduce extra Courts. He favors a liberal appropriation for Ex-Confed erate soldiers, and he wants to see it go to those to whom it belongs and not to those who do not need it.

MR. J. E. BEUNSON. of Sumter, candidate for Governo.

was the next speaker. He plunged at

once into a discussion of the liquor question. This is the leading issue pefore the people, because in involves more in dollars and cents, and carries along with it the moral and intellecuat welfare of the people. It has been contended that the public schools is the proper place to which to apply this "blood m ney," breause in that way the youth of the land will be edu cated against drinking Tois is a fall acy, because the liquor habit is just as apt to strike your brightest boy as our dullest fool. PLEASURE TOURISTS FLOCK TO WESTERN NORTH CAROLINA.

Southern Bailway Peveals "The Land of the 'ky' and "The Sap paire Country."

The Washington P.st says the day as passed when the tide of travel for pleasure or health or to escape from the heat of the summer months flows northward. Imagination for a long time lured tourists in that direction in the belief that toward that point of the compass, and that alone could comfort be found in summer or rest actained by those wearied by prolonged application to business cares. Experience, made possible by the development of the South by the

Southern Railway, bas shown that in the p cture que portions of North and South Caronna, Virginia, Georgia, Tennessee, and other States of the Southern country, nature has provided the ideal conditions that tend to make a summer vacation healthful, restful and thoroughly satisfying.

One naturally thinks of the South as a winter resort, but the Southern Railway has made it possible for shousands of persons to know that in Western North Carolina the climate is perfect the year round, and that in midsummer that region is ideal.

Whether it be the hunter, the ang ler, or the idler, the broad plateau the foothills, and the mountain side. and tops of the picturesque Blue Ridge open day after day new fields for sport and new scenes of rest or recreation. Every desirable spot of this broad plateau, 2 000 feet above the sea, is accessible by the Southern Bailway, whose summer schedule has been arranged to meet the particular requirements of summer traval and especially of those who are limited to week end trips.

The grandeur of the scenery along the line of this road is seen at its best in "The Land of the Sky" and the Beautiful Sapphire Country," the aint of the remarkable beauties unfolded to the visitor.

Asheville is the center of "The Land of the Sky," and radiating rom it may be found Hat Springs. Waynesville, Haywood White Sulphur Springs, Hendersonville, Brevard Biltmore, Lake Tokaway, and, a short distance farther on to the soutbrest, "the Beautiful Sapphire Coun

One of the pledges filed at the last ninute was that of C. A. Snith, of fimmonsyllle, for lieutenant goveror. Mr. Smith's pledge was filed for im by a friend, who stated this fternoon that after reaching the city oday at noon Mr. Smith nad decided at he could not enter the race. He and been solicited to go in the campaign as an anti dispensary candidate, out thought it would be unwise for im to make the race on that line.

The State says an interesting comnent upon what is "news" is given in he reports of the death of the raceers gave the "story" front-page poition and more than a colu nn in each vas devoted to the subject It must tave been a man of national reputaion that could have commanded the ame position and equal space. All of hich goes to show that these days here is such a thing as "fame" among easts as well as am no men, and some least are more famous than most men ean ever hops to be.
