W. E. JENKINSON COMP'Y

S.S.S. STANDARD TONIC

THE SWIFT SPECIFIC CO., ATLANTA, GA.

The ingredients of which S. S. S. is composed, and the method of combining and preparing them so that they gently and pleasantly build up and strengthen every part of the body, make it the ideal tonic for a disordered condition of the system. Every one feels the need of a tonic sometimes. The system seems to get "out of gear," the appetite becomes rickety, the energies are depressed, sleep is not restful or refreshing, and the entire body has a nervous, worn-out feeling. When the system is in this depleted, run-down condition it must be aided by a tonic, and S. S. S. is recognized everywhere as the standard. Being made entirely of roots, herbs and barks selected for their gentle action as well as their invigorating effect on the system, it will not disagreeably affect any of the delicate members or tissues as do most of the so-called tonics on the market which contain potash or some other harmful mineral ingredient. These derange the stomach and digestion, unfavorably affect the bowels or otherwise damage the health. S. S. S. tones up the stomach and digestion, improves the appetite, produces refreshing sleep, rids the body of that tired, run-down feeling, and supplies tone and vigor to the entire system. It re-establishes the healthy circulation of the blood, acts more promptly and gives better and more lasting results than any other tonic, and because of its vegetable purity is an absolutely safe medicine for young or old. S. S. S. acts admirably in cases of dyspepsia, indigestion and other stomach troubles, and after using it that uncomfortable feeling of fullness, dizziness or drowsiness, after eating, are no longer felt. Not only is S. S. S. the greatest of all tonics but possesses purifying and restorative properties, and if there is a taint in the blood it will promptly remove every trace and restore perfect health. In selecting your tonic for this year do not experiment but get S. S. S., the recognized standard.

THE SALESWOMAN.

Work and Pay of the Girl Behind the Counter.

Promotion is very slow in a department store. A girl may enter a store at \$6 a week and, after five or six or seven years, receive an advance of \$1 a week if she puts up a pretty stiff fight and is a valuable saleswoman.

Her work is not the dull grind it might be supposed. The hours are long, it is true, but the continual procession of humanity which files before her lends interest and a certain kind of excitement to every hour. Human nature is wonderfully facile in its disclosures, and the shopgirl who has two ideas in her head and keeps her wits about her very soon learns the difference between the real lady and the spurious article. She learns to know at a glance whether her customer is likely to order a box of hairpins or a spool of thread sent home, miles away, by the delivery wagon, or if it may be high priced goods ordered to be sent C. O. D. to a locality which does not contain a residence street. These a girl quickly replaced on a shelf one day and to my inquiring look replied: "She never expected to pay for those things, but she felt ashamed to have taken up so much of my time without buying anything. Oh, yes, it often happens, but we soon know how to size 'em up!"—Mary Rankin Cranton in The World Today.

Trading in Your Own Town.

A right that belongs to every citizen is the privilege of spending his earnings in whatever manner and where he wishes as long as he keeps within the law. No one will dispute the farmer's claim that he can send his money to any place that he wishes and buy goods he needs wherever he wants to. But there is an economic side of the question that should not be overlooked, says D. M. Carr in Home Trade Advocate. The resident of a community should be active in furthering the interests of the place he calls home. He is working contrarily to his own good when he sends his money to the distant city for supplies he knows can be secured in his home town. The dollar sent away goes out of circulation and ceases to be a factor in the building up of the community from which it is sent.

English Elections.

Standing For a Seat in Parliament Is Expensive.

Although there are strict laws against bribery in the English elections, standing for a seat in parliament is by no means an inexpensive matter. Even a small constituency will cost not less than \$3,000, and the expenses run from that up to \$10,000.

At one election a candidate paid out on an average of \$50 for each vote, but this is regarded as the record price, the cost running as low as \$1 a head.

The purchasing of a vote disqualifies the candidate, even though he may be innocent of any participation in the bribery, and as a result candidates and their workers—"agents" they call them in England—are most careful that their actions shall be above suspicion.

Dinners may be served a constituency, but payment even to the women of a family is regarded as bribery, and the candidates are compelled to trust to speeches, house to house conversations and literature, both for hand distribution and in the form of posters.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Mark Lee of Dunstable, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." The Arant Co. Drug Store.

"Uncle Billy's Favorite Blend" of Selected Moyune, Ceylon and Gunpowder

MARY J. MURKIN, Administratrix.

Orangeburg, S. C., June 8, 1906.

Alcohol in Cold Weather.

A scientist thus explains why it is so dangerous to use alcohol in the polar regions: A moderate use of alcohol causes a deposit of fat. Alcohol is not turned into fuel in the muscle and nerve cells, but serves as a pure fuel in the organism and replaces the combustion of fat. Alcohol is therefore dangerous in the extreme cold because it assists the throwing off of heat in a great degree. The effect is as if a stove in a room should be heated red-hot and then all the doors and windows thrown open. Heat produced by muscular work in the body is best obtained from carbohydrates in the food; but, besides this, the indispensable production of heat is best obtained by fats. This explains the instinctive choice of the food of men. In the tropics they eat little fat and much fruit, while the polar dweller requires immense quantities of fat to keep up the bodily combustion.

N. B. Truth, St. Paul, June 31, '08.—"I've lived so long, I remember well when the Mississippi was a brook. My good health and long life came by taking Hollister's Rocky Mountain Tea." 25 cents. Dr. W. E. Brown & Co.

Do Not Neglect Your Bowels.

Many serious diseases arise from neglect of the bowels. Chamberlain's Stomach and Liver Tablets are a pleasant and agreeable laxative. They invigorate the liver and regulate the bowels. For sale by The Arant Co. Drug Store.

The Papal Tiara.

According to Brewer, the tiara of the pope is a composite emblem. The primary meaning is purity and chastity, the foundation and lining of the crown being of the finest linen. The gold band denotes supremacy. The first cap of dignity was adopted by Pope Damasus II. in 1048. The cap was surmounted with a high coronet in 1235 by Boniface VIII. The second coronet was added in 1335 by Benedict XII. to indicate the prerogatives of spiritual and temporal power combined in the papacy. The third coronet is indicative of the Trinity, but it is not known who first adopted it. Some say Urban V., others John XXII., John XXIII. or Benedict XII.

WE

Have on hand a nice lot of Horses and Mules, which must be sold between this and the 1st of April, and we are receiving for our spring trade one Carload of the celebrated

Hackney Buggies.
