CAPITOL CORRESPONDENCE.

Since my last letter there has been very little but routine work done here. new administration has taken charge, and immediately after the Gov ernor's inauguration I made out and handed into to his office, the list of canlidates for appointment, nominated in the primary. These were: Treasurer, L. L. Wells; Auditor, A. P. Burgess; Magistrates: At Manning, S. M. Youmans; Summerton, A. J. Richbourg; Paxville, . S. Barwick; Pinewood, A. P. Ragin; Foreston, J. E. Richbourg; New Zion, W. E. Fleming; Turbeville, J. P.

Turbeville. As mentioned last week, Dr. Woods has a bill to abolish the magistrate's office at Turbeville. This bill came up for consideration, and Mr. Scarborough moved to strike out the enacting words, which put the Doctor on his mettle and he made a speech to sustain his contention. He contends that it is the wish of Salem to have only one magistrate, and to give that magistrate and his constable increased pay, as all the work done in Salem is done by the magistrate at New Zion. Mr. Scarborough's notion to strike out the enacting words and the approval of Mr. Dingle, and the motion prevailed, which meant the death of the bill, but just before it was finally buried, Mr. Ship, of Florence, directed attention to a House rule relating to officers, and the matter was passed over, thus giving Doctor Woods another opportunity to get his bill before the House. This measure has created a small size storm in the Salem section. There are some in and about the New Zion section wanting the leg-islation Dr. Woods is asking for. Whether or not they believe it to be in the interest of better service, or because they are the friends of the New Zion magistrate and want him and his constable to get more pay, I do know, out when the Doctor claims he is representing the wishes of a large major-ity of Salem in this matter, the rest of the delegation cannot agree with him, because we have in our possession a pe-ition containing the names of 158 citizens of Douglas and Sandy Grove townships, urging us to kill Doctor Woods' bill. Then the delegation views the mat-

ter in another light; the office at Turbeville has been cut off from New Zion by the County Executive Committee so that New Zion and Midway could ote for the magistrate at New Zion, and Douglas and Sandy Grove vote for magistrate at Turbeville. These magistrates were recently nominated by he people of their respective sections, and the delegation, with the exception of Dr. Woods, feel that to not permit the magistrate at Turbeville to have the office to which he was nominated would be a violation of the primary pledge, hence they will stand by the nominee of the primary and leave the magisterial offices in Salem as they

are and upon the same pay.

Mr. Scarborough bas introduced bill in the House to prevent the adulteration of cotton seed meal and to provide a penalty therefor. The bill was referred to the committee on agriculture. The cotton seed mill interests were aroused by this bill, and made a desperate fight before the committee to prevent favorable action, but Mr. Scarborough met their arguments at every turn and succeeded in convincing the committee that his bill was meritorious and it was reported favor able, thus giving the measure the advantage of the committee's prestige and support. I am told by some who were present at the committee meeting "Old Scarborough's" answers to the scientific arguments of the mill men appealed to common business and

he proved in his own peculiar way that his knowledge was obtained, not from lectures and books, but from actual practical experience. When he finished the fine spun theories of the oil mill magnates was full of holes. The bill has not yet been printed, and therefore I am unable to give its details, but as l inderstand, it is to prevent cotton seed meal that has not the proper per cent. of ammonia from being put on the market as standard. I think he wants the standard to be not less than eight per cent. ammonia; anyway his purpose is in the interest of the farmers. regulate the sale of cocaine. Doctor Woods was opposed to it, moved to strike out the enacting words, and after Mr. McMaster spoke in the bill's defence, Dr. Woods again got up and made a speech in opposition. He contradicted some of the statements made

Mr. McIntosh has made a good commissioner, nd it was with reluctance the delegason displaced him. Doctor Geiger was

I showed the delegation at this meetmissioners, and it is far from satisfactory to me. There was spent last year Ridgill. on roads and bridges, and for the chaingang the enormous sum of \$10,road engine upon which there is a debt still hanging over the county of \$2.610. We are informed the county's note is in the bank bearing interest after the first of this month. We can-not remove this indebtedness unless we cause with the present levy it will take a most economical management to meet current evenses. They what it was current expenses. Then what is to be done? The people are crying against oppressive taxes, and we are in debt for a machine which is practically worthless to the county, to pay for it would require not less than threefourths of a mill increase in the levy This debt will have to be paid, sooner or later, but I thought we would wait another year and see how we come out with our new county administration. There is another item of \$1,580.80 spent for the poor. I had no idea Clarendon had that many paupers living on the county's bounty. Where are they? Surely not in the poor house, then they must be living with their kith and kin, and if a proper investigation is made and the law complied with the number of beneficiaries may be cut down. There s an item of \$1,611.35 spent on public buildings, not on the court house, nor the jail; then where? According to the County Commissioners' estimate it will take \$12,215.00 to run the county, and according to my calculations, 2 3-4 mills will not raise this amount, but it is all the cloth we are going to give the commissioners and they must make the

garment accordingly.

I had prepared a bill looking to the improvement of our road system. This I submitted to the delegation and after making a few minor changes it was agreed upon, so on Friday I introduced t, and had it placed upon the Calendar without reference, but on Saturday I met with the County Commissioners, and went over the bill with them. This I thought proper, as they would There was a measure in the House to have to operate the law. Out of deference to them I consented to reduce the number of working days on the road to 'six," instead of "eight," as I had originally intended, and make the law effective March 1st. The following

away, was passed to a third reading. I was about to introduce this same bill in accordance with several editorials I had published in THE TIMES. I believe it will have a good effect and is in the interest of our farmers, but when I found that Doctor Sawyer, of Georgetown, had already such a bill, I tore up mine to enlist upon his side. With me it makes no difference who introduces a measure, if it appeals to my judgment as a good thing for the public welfare I will support it.

The bill introduced by myself relating to labor contracts, after the best argument I could make, did not considered the committee that it should asset the county Board of County to said County that the County Board of County Shall order and direct the overseers of the various public highways or said County to summon the hands liable to work upon the said highways render it necessary, each of said highways render it necessary, each of said overseers being ordered and directed to work upon the said highways to labor thereon at such time or times during the year as they may deem proper, and the conditions of said highways render it necessary, each of said highways render it necessary, each of said dury, who shall fail to pay the commutation tax, six days work of ten hours each upon the highways to which he or they shall assign. I should be pleased if some of my friends, after reading this bill, if they can improve upon it, write me their suggestions. I am simply trying to improve present conditions.

The resignation of Judge R. O. Purdy as Judge of the 3rd Circuit, came somewhat as a surprise, although I had heard it rumored. As soon as the news reached Columbia there began at once by the friends of Solicitor John S. Wilson, and Hon. T. B. Fraser, of Sumter, a systematic canvass of the Gen eral Assembly, and in my opinion, Sollicitor Wilson will be Judge Purdy's successor. Mr. Wilson did not reach Columbia until Tuesday, and was taken with a chill and a severe billious attack He was removed to the Columbia hospital where every attention was given him, and when I left him, about one hour before train time, he was on the ness alarming, but fortunately, under the circumstances, he has very loyal and will never lag, or leave a stone unturned until they have succeeded in placing the judicial ermine of the 3rd circuit upon the shoulders of a man who has made one of the best solicitors in the State, and who deserves, upon the ground of long and faithful duty, fearlessly, and honestly performed, the promotion.

COOK STOVES AND RANGES

is an evidence of the splendid values we are giving in these goods. The excel-ent cooking qualities of the O. K. Stove or Range, their handsome and massive appearance, their elegant proportions of their makeup, the favorable impression made by tnem as compared with other stoves all go towards helping us make sales Anyone with a critical eye can readily judge when they once see our O. K. Prince Stove at \$12.50, or our O. K. Duke at \$15.50. Why they are so popular we will appreciate a call from any housekeeper who has never seen these stoves and will take pleasure in showing where they so far excell others.

FARMERS:

Don't forget to harvest your hay crop this year the first favorable weather. If you have not got a Mower come and see us at once, we have Mowers and Rakes that do the work anywhere that machinery can be used, and often where others

Buy Land!

The short crops in the vicinity of Manning have caused prices this fall not to advance as they did last year. Now is the inves tor's opportunity, as with reasonably good crops and prices next year's land will go much higher. Others think as we do. And here are two orders recently placed with us by two men from other counties, and the kind of men this county needs:

First. A farm, within easy reach of a high school and good churches, properly improved and costing from five to ten thousand

Second. A farm of from one to two hundred acres, within reach of a common school and good church, costing from three to five thousand dollars.

If you can't pay cash we will help you to borrow the money
