## "The Box Party."

The Westminster league of the Presbyterian Church gave a most delightobject of the entertainment was to raise funds to aid the cause of Missions, as well as to give social pleasure to the young people of the town.

The managers of this pleasant and profitable affair arranged and carried out the program of a box party on an original plan, each young lady present was invited by a committee to bring a box of something to tempt the eye, appetite, and generosity of the young gentlemen

This invitation was responded to lit erally and liberally. The boxes came decorated in many colored ribbons and flowers, and the young men found themselves "in a box" when the auctioneer began to cry his wares. Very respectfully, LOUIS APPELT, Editor THE MANNING TIMES

Editor THE MANNING TIMES: Your letter of Nov 15th asking this office to furnish you for publication certain information concerning the Town's financial condition, received. Question 1. What was the total income and disbursements for the years 1903, 1904, 1905, 1906, up to August 30,

Our fiscal year closes April 15th each year, so that the following is an exhibit from the annual reports rendered and published by you each year.

For the year ending April 15th, 1903, the total receipts were \$7,318.46, including an unexpended cash balance the preceding year of \$627.94, leaving the true income for that year \$7,090.52; total spent for all purposes was \$4,720.15 leaving a cash balance for the following year of \$2,598.31. The sum total ending April 15, 1904 was \$10,408.97, which, less the cash balance last re-ported, leaves the net receipts \$7,810.66. The expenditures for all purposes were \$5,302.61, leaving a balance for the next year of \$5,106.36, including bills receivable of \$250.94, or a net cash balance of \$4,855.42. The following year the total was \$13,815.40. Deducting the April 15, 1905, \$8,959.98. The expendiassessors who are honest themselves and who have the mankood to make other people honest that are not disposed to be. A scrutiny of the taxbooks of this town will show there are people who own a valuation of \$25,000 that pay but little more taxes than some who only own a valuation of \$4000. It is unfair and there should be a remedy.

The people are prope to blame countries of the said that pay but little more taxes than some who only own a valuation of \$4000. It is unfair and there should be a remedy.

The people are prope to blame countries of the said that they be and appear before me, in the Court of Probate, to be held at Manning on the 5th day of December next after publications. April 15, 1907, up to the present time are \$9,236.58. Expenditures \$8,416.43. Outstanding debts. \$2,824,29. Cash on Given under my hand, this 19th day hand and in Bank, \$820.15. The town has had large expenses to meet this year, and was compelled to borrow several times from the bank to to enable it to meet all its accounts. The new fire engine cost net \$1,600, the old one repurchased \$212.50. The hose, Lose reel, fire horses and other equipments cost several hundred more. The own has had ten cisterns constructed o far, the largest ones costing slightly n excess of \$200 each, and the smaller ones slightly in excess of \$150 each, or

about an everage of \$175 each for the ten that have been constructed. The total taxes collected so far amount to \$2,557.32. The balance yet INSURANCE to be collected together with the dispensary profits anticipated at the end of the next quarter should put the

expenses to date have been met. Question 3. What was the total amount of the Town's indebtedness for which no notes have been given, so far as came to your official knowledge up to August 30, 1907?

Of the outstanding indebtedness the Bank of Manning holds notes aggregating \$2,362.14, of which only \$1,000 was borrowed to meet local expenditures, the balance being notes to the Howe Engine Company, which the Bank discounted and accounts due by the town of \$462.15 for brick, cement, oil, horse feed, etc. I certify that the above exhibit is correct.

E. J. BROWNE. Clerk and Treas.

It will be noticed that Mr. Browne goes beyond our questions in bringing in the receipts and disbursements to date, when we only wanted information to August 30, 1907. The object of wanting information to August 30, 1907 was to avoid mixing the present tax collection with the town's fund before the present collection began, so that the taxpayers could judge whether or not there was good financial judgment exercised in raising the property levy 150 per cent, and the street tax 50 per cent. After going over Mr. as clear as mud to us, but perhaps to those more accustomed to handling books and figures it may be clearer, we

If the statement above published is from the town books, and we must presume it is, those books needs auditing so that a clear understanding can be obtained from them. We will ;venture that there is not an accountant in this town who can take the town clerk's statement, and tell how much the town was in debt prior to the tax collection. Take the matter of notes held by the Bank of Manning, Mr. Browne says the aggregate is \$2,362.14, but he does not say that to reduce this amount to \$2,362.14, there was a considerable sum taken from the present tax collection. The public estimate of the town's indebtedness prior to the present collec-tion was between \$4000 and \$5000, and the statement by the Clerk has not lowered the estimate. If however the town was only in debt for the small amount the statement indicates, then and those owing said estate will make payment to the undersigned
