Prescribes Dr. Blosser's Catarrh Remedy. Dear Sirs-I first used your Catarrh Cure in the case of my son, who had chronic naso-phar-yngeal catarrh, with great benefit to him. I often prescribe it for other of my patients, and often prescribe it for other of my patients, and I think it is quite the finest remedy for catarrh that has eyer been placed on the market.

Thanking you ror past favors, I am.

the light. "And my mother?" he said questioningly. "Tell me how she looks again. I shall soon be able to see, and I know I shall find one more beautiful than all the rest and cry: 'Mother, mother! Why do you not speak?"

His sensitive face was turned reproachfully toward his father. "You have always told me how lovely she is. She is little-not taller than my shoulder-I know that."

The old man laid his arm over the lad's shoulders.

"You must know now what your blindness would have kept you from knowing," he said. "Your mother is your mother's.' The great surgeon looked for a mo-

A Chinese Delicacy. The tips from the topmost shoots of

the bamboo tree are culled when they are not more than three inches long, peeled and preserved much as pineapple is, though the tips are cut in quarters. This fruit has a remarkably delicate and pleasant taste and is largely used as a flavoring for meat, though it can be eaten in the raw state, being rich and fuicy. The edible is expensive on account of the difficulty in securing it from the tops of the tall, slender trees at just the right time.

An Uncomfortable Answer. In one of Sir George Colley's letters he says: "Lord Lytton had a good story about poor Lord Leitrim, who shortly before his murder, talking with a countryman about some cases of landlord shooting, asked, 'Why don't the rascals shoot me? canal connecting the Mediterranean and Red seas did exist. Herodotus ascribes its projection to Pharaoh Necho, 600 B. C. The honor of its completion is given by some to Darius, by others to the Ptolemies. How long this canal continued to be used we do not know, but, becoming finally choked up by sand, it was restored by Trajan early in the second century A. D. Becoming again useless from the same cause, it was reopened by the Caliph Omar, but was finally closed by the "unconquerable sands" about A. D. 767, in which state it has since remained. This anclent canal, from Suez to Bubastis, on the east branch of the Nile, was 92 miles long, from 108 to 160 feet wide and 15 feet deep.
