WORTH WATCHING. We have not seen so far where South Carolina has elected delegates to the National Prohibition Convention. Georgia has recognized this new political party by sending delegates to its convention. If the prohibition wave continues unchecked, in five years time the solid South will be a thing of the past, and it will be the Prohibition party that will split it. There has been a number of efforts made, and deep laid schemes concocted to break up the solid South, but none have succeeded in becoming rooted, until now. The Prohibition party is as distinctly a cratic and Republican, and in Lake City last Friday night. the course of a very few years States Trust Co. spent last week the South will be used to its own here selling bonds. undoing by the shrewd manipulations of politicians working the church organizations to help them in their schemes. The Manning Telephone Company Gives Notice of Some Changes That Will Go Into

Effect the First Day of June, 1908.

First of all we wish to announce that our service now is as good as any town in the State, the company having expended large sums of money for the improvement of their plant in the past six months. Heretofore the out-of-town service has been FREE to all subscribers, but

One other very important matter we wish to call to the attention of the public: At present a great many families are using their neighbors' 'phones to order goods from the stores and markets and for the general transmission of messages. After the lst of June we will be compelled to charge up these messages to the parties sending them at 5 cents per message in town, and send in bill for settlement each month.

Should at any time bad service arise or non-attendance of employees, we beg that such service or such non-attendance be reported to me at once and I will endeavor to correct same, as it is our aim and desire to give the best ser-
