FOLEY'S HONEY AND TAR

stops the cough and heals lungs

THE CAMERA.

Some of the Wonderful Things of Which it is Capable.
The camera, which enables time into thousands of a second and records the impressions of each instant permanently on a glass plate or film, is a most wonderful and useful instrument. It is only through the camera that the motions of the wings of flying birds and of the legs of swift running animals have been analyzed. To the camera the busy drivers of the swiftly speeding locomotives stand out clear and stationary, while each flying drop of rain in the driven storm is distinct and seems frozen in its place. The tarpon fisherman, familiar with the first wild leap of the frenzied fish as it casts hook and bait fifty feet in the air, sees first in the finished picture the outstretched gills, the convulsive opening and closing of which had escaped his eye, however closely he may have looked for it. Often the eye of the camera will decipher documents of which the writing had been substantially obliterated by age, and I have successfully copied with the camera the utterly faded photograph of a classmate of forty years previous and thereby been enabled to present to a grizzled veteran a likeness of his curly haired youth. Changes in the pigment of the skin undetectable by the eye appear with distinctness on the sensitive plate, and it is said that ample warning of approaching disease has been thereby given.
By means of the invisible rays lying beyond the violet of the spectrum of light, may be photographed in the darkness and, with the aid of the so called X rays, through substances otherwise opaque. When from the darkness of night and storm the forked lightning flashes, the camera makes a vivid and permanent picture of each fiery trail. Creatures that travel by night can be "caught" in the brief blaze of a magnesium charged pistol, the flash of which is of too short duration for the creature to move or the dull human eye to recognize the subject.—A. W. Dimock in Van Norden's.

Foley's Honey and Tar is the best and safest cough remedy for children. At the first symptoms of a cold, give as directed, and ward off danger of croup, bronchitis, sore throat, cold in the head and stuffy breathing. It brings comfort and ease to the little ones. Contains no opiates or other harmful drugs. Keep always on hand, and refuse substitutes. W. E. Brown & Co.

THE TEASEL.

A Quack Plant With Water Traps For Its Insect Victims.
Among common plants there are few more remarkable than the teasel. There is little doubt, says a well informed natural history contributor to the London Chronicle, that the teasel is as much a flesh eating organism as any spider that ever spun a web. Moreover, its method of securing its victims, though quite as ingenious as that of the spider, is much more comprehensive as well as more efficacious. Not only does this extraordinary plant capture all species of flies and gnats, great or small, but caterpillars, slugs, wood lice and the like are all frequent victims.
How this is brought about forms one of the most wonderful incidents in nature's fasci-ting story of the insect. The spider weaves her net of the finest silk; the teasel makes her snare out of dewdrops. The plant grows up straight as a church spire, throwing out its leaves in pairs at intervals up the juicy green stem. The twin leaves unite at their base to form a deep cup, and the leaves are so contrived that the moisture precipitated on them runs down into this reservoir.
A well developed plant will thus catch and hold in four or five of these water traps a full half pint of liquid, and the heat of the sun appears to evaporate so little of it that the cups will be brimming even at the close of a hot June day. The smooth, steep leaves all lead down into these pits, and their gradient gets sharper as the water is approached.
Thus the teasel's victims are made to "walk the plank" to their death, and once in the water there is no hope of return. They soon drown, and every teasel well has at its bottom a layer of slime formed by their disintegrated bodies.
It is of course difficult to prove that this deposit is absorbed by the plant as nutriment, but careful dissection will show at the base of each cup a ring of apertures—sink holes, in fact—which lead into the substance of the stem and the presence of which affords little room for doubt on the matter.

Alone in Saw Mill at Midnight
unmindful of dampness, drafts, storms or colds, W. J. Atkins worked as night watchman, at Banner Springs, Tenn. Such exposure gave him a severe cold that settled on his lungs. At last he had to give up work. He tried many remedies but all failed till he used Dr. King's New Discovery. "After using one bottle" he writes, "I went back to work as well as ever." Severe Colds, stubborn Coughs, Inflamed Throats and sore Lungs, Hemorrhages, Croup and Whooping Coughs get quick relief and prompt cure from this glorious medicine. 50c and \$1.00. Trial bottle free, guaranteed by all druggists.

Willing to Entertain Her.
My entrance upon my career as a charity visitor was as a volunteer. I arrayed myself for my first attempt with misgiving in my heart. I was so afraid of my reception. I found my first address on the third floor of a rear tenement, studded up the dark stairs and timidly knocked at the door. It was opened instantly by a small boy who peered at me curiously.
"Is-is your mother in?" I inquired.
"No," was the prompt reply.
"She's gone to see the doctor. But you can come in."
He held the door hospitably open, and I stepped across the threshold and entered. I selected a chair and sat down. The small boy wriggled into a chair opposite.
"I have fits," he announced, with importance.
"Win-at?" I stammered.
"I have 'em often," he went on eagerly. "It's real fits. I may have one any time. I might have one right now." But I was already in the hall.
"You won't stay?" he shouted after me as I departed.
"She'll be right back."
But a very much upset volunteer visitor was already out of hearing.—New York Herald.

Mrs. S. Joyce, Claremont, N. H., writes: "About a year ago I bought two bottles of Foley's Kidney Remedy. It cured me of a severe case of kidney trouble of several years standing. It certainly is a grand, good medicine and I heartily recommend it." W. E. Brown & Co.

WHAT HE WAS TELLING HIM.

An Incident That Ended the Conversation at the Barber's.
"You are very bald, sir," said the barber to little Binks as the latter took up his position in the chair.
"What's that you say?" asked Binks pleasantly.
"I say you are very bald, sir," repeated the barber.
"Who is?" asked Binks.
"You, sir," said the barber.
"What paper did you see that in?" demanded Binks.
"What paper, sir?" asked the barber.
"What newspaper?" repeated Binks.
"I read all the papers, but I didn't see any reference to this. Was it in one of the early editions of the evening papers?"
"Was what, sir?" queried the puzzled barber.
"This thing you were just telling me," said Binks.
"Why, I don't remember telling you," began the barber.
"About my being bald, you know," said Binks. "You said I was very bald, didn't you?"
"Yes," said the barber, "but I didn't mention the newspapers, sir. Why should I be in the newspapers, sir?"
"Why, because it's the news, isn't it?" said Binks.
"I shouldn't say that, sir," said the barber.
"Well, if it isn't news, what in thunder did you tell me about it for?" demanded Binks. "I supposed you had read about it in one of the papers and had reached the conclusion that I didn't know it. If you find a mole under my left ear while shaving me, break it to me gently, please, and you may omit all mention of the fact that my beard is getting gray. I am trying to stare off a realization of the—"
But just then the barber accidentally ran his lather brush over Bink's mouth, and the conversation ceased.—Lippincott's.

Rich Men's Gifts are Poor
besides this: "I want to go on record as saying that I regard Electric Bitters as one of the greatest gifts that God has made to woman, writes Mrs. O. Rhinehart, of Canton, N. Y. "I can never forget what it has done for me." This glorious medicine gives a woman buoyant spirits, vigor of body and jubilant health. It quickly cures Nervousness, Sleeplessness, Melancholy, Headaches, Backache, Fainting and Dizzy Spells; soon builds up the weak, ailing and sickly. Try them. 50c at all druggists.

The Physician.
Dr. Cathelin of Paris declares that no person who does not possess certain "six moral senses" should attempt to enter the medical profession—viz. the sense of duty, the sense of responsibility, the sense of kindness, the sense of manual skill (which he subdivides into the sense of boldness and the sense of prudence), the sense of beauty and the social role. "The sense of duty toward the patient," so he is quoted by the Boston Globe, "is the very first requisite in a physician. It can only arise from a positive and noble altruism or love of one's fellow creatures—a quality similar to that which makes the hospital nurse to the care of the stricken. There can be no personal sensitiveness nor lack of interest in details, as against an absorbing curiosity that complicated cases arouse, and yet, with all this sense of duty, which calls for extreme goodness and sensitiveness of heart, he must not show a trace of emotion when his duty calls him to operate on a McKinley, a Carnot or a Frederick II."

Stung For 15 Years
by Indigestion's pangs—trying many doctors and \$200 worth of medicine in vain, B. F. Arsenic, of Ingleside, N. C., at last used Dr. King's New Life Pills, and writes that they cured him. They cure Constipation, Bloatingness, Sick Headache, Stomach, Liver, Kidney and Bowel troubles. 25c at all druggists.

Origin of Seals.
The origin of seals is lost in the shades of antiquity. In Assyrian and Babylonian ruins seals still are found, and it is certain that their use passed from those countries to Greece and Rome, to all European countries and from England to America. Originally they were set in rings. The earliest references to them in Biblical history is found in Genesis xxxviii, where it is recorded that, pending certain negotiations between Judah and Tamar, the widow of his son, Tamar demanded a pledge and Judah gave her his signet and ring, belonging to him. And when Abah, king of Israel, tried to lure Naboth's vineyard and couldn't give his wife Jezebel "wrote letters in Abah's name and sealed them with his seal." In the Book of Esther, chapter viii, it is written that King Ahasuerus said to Esther and Mordecai, "Write ye also for the Jews, as it liketh you, in the king's name and seal it with the king's ring, for the writing which is written in the king's name and sealed with his ring may no man reverse." Seals doubtless were used long before the stirring events described in the quoted chapter of Genesis, but no one took the trouble to write about them. From the time of Jeremiah to the present, the seal was used by practically unknown to king, noble or peasant, so the seal was absolutely necessary.—Kansas City Star.

Looking One's Best.
It's a woman's delight to look her best, but pimples, skin eruptions, sores and boils rob life of joy. Listen! Bucklen's Arnica Salve cures them; makes the skin soft and velvety. It glorifies the face. Cures Pimples, Sore Eyes, Cold Sores, Cracked Lips, Chapped Hands. Try it. Infallible for Piles. 25c at all druggists.

How Animals Learn.
Dr. T. Zell, a German naturalist, has collected many instances to prove that animals learn by experience and thus become wiser than their unstructured parents. Game animals of all kinds, he avers, have learned the range of modern rifles. Greyhounds quickly learn to let rabbits alone, and foxhounds pay no attention to either rabbits or hares. Killer whales and gulls follow whaling vessels, just as vultures follow an army. Crows begin to accompany the chimney sweeper as soon as they have seen the result of his first successful shot, and rough legged buzzards follow the sportsman after winged game. The number of birds that kill or injure themselves by flying against telegraph wires is much smaller than it used to be. Dr. Zell also refers to the fact that birds and quadrupeds have learned to disregard passing railway trains, as horses quickly cease to be frightened by automobiles. His instances of the intelligent election exercised by sheep dogs are familiar to all.

Coast Line Changes.

Wilmington, N. C., November 6, 1909. The Times, Manning, S. C. Gentlemen:—Believing the schedule changes which take effect on November 15th on the Atlantic Coast Line will be of interest to your readers, I beg to give you below the changes, which are marked, and will be very glad to have your cooperation in representing same to your readers.
Effective November 15th, the Atlantic Coast Line will inaugurate a new through Pullman dining car train, known as the Palmetto Limited, between New York and Jacksonville, Fla., and Atlanta Ga. It will be equipped with the latest Pullman sleeping cars, thoroughfare coaches and dining cars between New York and Jacksonville, leaving New York at 3:25 p. m., Washington 10 p. m., arrive Florence 10:02 a. m., Augusta 3 p. m., Atlanta 8:20 p. m., where connection is made with outgoing trains for the West. Arriving Charleston 1:36 p. m., Savannah 4:56 p. m., Jacksonville 8:10 p. m., connection being made for all points in Florida. Returning, leave Jacksonville 7:30 a. m., Charleston 4 p. m., Atlanta 8:30 a. m., Eastern time, Augusta 4:20 p. m., Eastern time, Florence 7:48 p. m., arrive Washington 8 a. m., New York 2 p. m.
The above will be in addition to the Florida and West Indian Limited, trains 82 and 85, schedules of which will be arranged as follows: Train 85, leave New York 9:55 a. m., instead of 9:25 a. m., Washington 4:05 p. m., instead of 3:35 p. m., as now, Florence 3:45 a. m., Charleston 6:40 a. m., Jacksonville 1:20 p. m., where connection will be made to all Florida points. Returning, train 82 will leave Jacksonville at 9:30 a. m., instead of 8:59 a. m., as now, arrive Charleston 5:50 p. m., Florence 8:55 p. m., arrive Washington 8:40 a. m., and New York 2:45 p. m.
There will be no change in the schedules of The Coast Line Florida Mail, trains 80 and 89.
An additional local train will be put on between Sumter and Augusta, leaving Sumter at 7 a. m., arriving Augusta 11:15 a. m., leaving Augusta on the return trip at 4 p. m., and arriving Sumter at 8:15 a. m.
The convenient schedule and arrivals of the Palmetto Limited at all points in South Carolina will be appreciated by the traveling public; and the people of your community have now, for the first time in a number of years a through limited train service to and from Atlanta and the West.
Yours very truly,
W. J. CRAIG, Passenger Traffic Manager.

WELL DESERVED.

The Praise That Comes From Thankful Manning People.

One kidney remedy never fails. Manning people rely upon it. That remedy is Doan's Kidney Pills. Manning testimony proves it always reliable.
W. R. White, S. Broadway St., Manning, S. C., writes: "I suffered from kidney trouble for some years, I was forced to arise frequently during the night on account of the too frequent passages of the kidney secretions and backaches and sharp pains across my loins made me miserable. At times I was so lame and stiff that I could hardly turn over in bed and mornings I found it very difficult to dress myself. If I sat down for a little while I would have to lift up and I was unable to find a remedy that would help me until I procured Doan's Kidney Pills. I used but one box of this remedy but the pains were disposed of and the lameness and soreness in my back disappeared. I do not have to get up nights to pass the kidney secretions and I am feeling twenty years younger. I highly recommend Doan's Kidney Pills and can say that I never used another remedy that gave me such great relief."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, or the United States Dispensary, Inc., New York.
Remember the name—Doan's—and take no other.
