The crop of lower house candidates is not increased so far this week, but we are informed there will be at least two more candidates for this place and that there may be candidates for some of the county offices, aside from the incumbents.

Messrs. T. F. Coffey, Phonso Rigby and Ike A. Bell are touring the country in a Regal machine. They left here Monday, for Sumter, Darlington, Timmonsville, Hartsville and other points north. If they have luck they will get back about Friday.

The Philatelic Class had present at its meeting Sunday morning twenty members, we would be glad to see our class grow in membership and interest, all members are urged to try and get others to join us. We, that try to attend regularly, find the meetings interesting and profitable.

There is in this issue the card of Mr. A. P. Burgess, candidate for re-election to the office of County Auditor. Mr. Burgess is the present incumbent, and his friends all over the county will be pleased to see that he has been re-elected to become a candidate for the office again.

There are some of our readers who can help make the county newspaper of greater interest to their communities, if they will spare a few minutes each week to write for the paper a news item from their section. Come, let us have a nice news letter from every post office in Clarendon.

Next Friday is the fixed for the execution of Willie Behune for the murder of Mr. G. B. Sims. We are told that those who have seen him are not up to that standard, but if Clarendon hopes to invite responsible people here there should not be any attempt made to take the land prices of other counties as a criterion to fix prices by.

Land prospectors from other counties are continuing to look Clarendonwards. The lands in this county are as good as they are in any county in the State, only thing that they lack is high cultivation, of course it takes money to bring lands into a high state of cultivation, and this must be considered when people from elsewhere come here to buy. We can not expect to get the prices which prevail in other counties, because our lands are not up to that standard, but if Clarendon hopes to invite responsible people here there should not be any attempt made to take the land prices of other counties as a criterion to fix prices by.

Ask him when he comes to see you, how much he is getting for his services? Also ask him if he does not think you are as well qualified to represent the county as a candidate as he? Ask him too, why it was that he did not find his objections to the candidate he is fighting before now? Also ask him to back up his stabs in the back by the records, as every act he represents on the State records, that is nearly all of them; occasionally a vote is taken on unimportant matters for which no record is asked for. We think it utter presumption in any man going around "blowing a candidate" to suppose not to be opposed to the man, but it is dirty politics to be endeavoring to poison the minds of the people with false statements. Every man has a full right to espouse the cause of his choice, but he has no right to attempt deception.

The State Board of Health is trying to teach the public some lessons in cleanliness as a means to health. Flies are due to filth and mosquitoes, to a very large extent, to carelessness. The board emphasizes the fact that flies mean filth somewhere and that mosquitoes are a nuisance because they are responsible for a large part of the spread of disease, carrying germs from one person they have bitten and poisoning the blood of another. This has long since been a well known fact. Think of you can sit on your own porch and are bitten by these pests and inoculated with the diseases other people have had and which you never would have had, in all probability, but for them. Weeds and standing water are the breeding places of the mosquito. We have plenty of hatching in our town. Our streets are a grand hatching and our yards and gardens are as good as the most particular mosquito could desire. This is a serious matter. Disease and death is the penalty for carelessness and filth.

Like City News.

How often is it that the word "friend" is understood, in its true meaning. The man who loans you money at a rate of interest is not a friend any more so than the one who sells you goods for a profit. The man who was at one time associated with you and then becomes your friend, because that association would not have been, had it not been the man's personal interest; hence he was with you because it bettered his condition. The banker who lends you money with endorsement or other security is not your friend. He is in that sort of business for what he can make out of it, and did misfortune overtake you that banker would demand what you promised to pay; it would take him some time to get you, or even your friends, who unselfishly risked his own to accommodate you with his endorsement, or out of the security you gave, even if it is the shelter from over the heads of your wife and children. The man who is a little above the level of the man who can go to when in trouble or in need, and without any profit to himself comes to your rescue. He is indeed a friend, while the other man is making of you a barber. So do not let your friends be disappointed with the ordinary relationship which exists in everyday business, where it is the pound of flesh that is demanded, instead of the boon which comes from an unselfish heart to help one in need. Then it is the truth, "A friend in need, is a friend indeed," applies.

No Hanging Friday.

The execution of Willie Behune which was to have taken place Friday has been postponed pending an appeal to the supreme court. J. H. Clifton, Esq., of Sumter went before Judge Meminger at Sumter yesterday and the Judge signed the following order: "Notice of appeal to the Supreme Court of this State from the judgment in the above stated case, pronounced on Wednesday, the 8th day of June, 1910, in the Court of General Sessions for Clarendon County, South Carolina, having been duly given and service thereon made by the Solicitor of the Third Circuit, and the time within which to perfect the appeal to the Supreme Court is in said motion of John H. Clifton, Esq., attorney for defendant-appellant, ordered by the execution of the defendant-appellant heretofore assigned for Friday, July 1st, 1910, be and the same is hereby ordered stayed until the appeal in the above stated case shall be finally disposed of, and that a copy of this order be served upon the Sheriff of Clarendon County, South Carolina."

They Need the Money.

At the recent meeting of the county Democratic executive committee a request was made that the candidates contribute \$100 into the committee's treasury for campaign expenses, but with the understanding the losing candidate shall have his name returned to him. As we understand it, the county executive committee has no right to assess congressional candidates, who are assessed by the State committee, and for that reason the county committee put the question in the shape of a request. Just what the object was in the condition that the losing candidate have his money refunded we do not understand. Why not make this request and condition to the State as well as the congressional candidates if the money is needed? Were this plan to become the custom in the future, then the campaigns would indeed be very bad, because there would be no risk to take and some men who had a good approach would make the campaigns exceedingly unpleasant. It is our judgment that all who take the chances for the sufferance of the people should be governed by the rules of the party.

One Kind of Boys.

Boys with hats on the back of their heads and long hair hanging down over their foreheads and cigars in their mouths are a cheap sort of boys. Nobody wants them at any price. Men don't employ them and sensible girls won't marry them. They are not worth their keeping to anybody, and it is not likely that they will be able to keep themselves. If anybody should happen to read this who answers to above description, let him take a look at himself and jump in a well and say: "Here goes nothing."—Edgefield Chronicle.

Automobile Impressions.

It seems to be the impression of most people that they can operate their cars as fast as they want to on out of the city limits, but this is a mistake. Following are a few interesting bits of law from the acts of the general assembly: "No person shall operate a motor vehicle on a public highway at a rate of speed greater than is reasonable and proper at the time and place having regard to the traffic and use of the highways as its condition or so as to endanger the life, limb or property of any person or in any event at a greater rate than 15 miles an hour."

"Upon approaching a crossing, bridge, steep descent or curve a person shall have his machine under control and operate it at a rate of speed not greater than six miles an hour, and in no event greater than is reasonable and proper having due regard to conditions."

"The driver of a motor vehicle shall give notice by blowing a horn, bell or otherwise so as not to frighten the animals and to use precaution to insure the safety of persons and property. It is also illegal to bring the car to a stop if it is seen that the horses are frightened."

"It is necessary to stop the car at a signal from one who is in the highway and who is driving a wild animal. The raising of the hand, because out of a signal to stop, is also necessary to remain stationary until such an animal could be removed. It is necessary for an automobilist to give the right of way to a horse-drawn carriage, and he shall go to the right of the road."

"Violators of these acts shall be fined from \$10 to \$100 or imprisoned not more than 30 days."

Before operating a car in any county it is necessary to secure from the Clerk of court a certificate saying which is numbered and this number must be placed on the back of the car. The owner's address and a brief description of the car must be given. The registration fee is \$1. But fees is allowed an owner in which to register his car.—Spartanburg Journal.

Workman Pick Ups.

Editor The Manning Times:

Workman is a place not often mentioned to the outside world, so I will give you a few lines for the benefit of you readers that they may know there is such a place, especially the candidates and their friends, who are out teaching us how to read and vote.

Workman is situated in the fork of Black River, in a house or on a hillside, where the farmer and his family come together at this place. It is one of the finest farming sections in the county. Its disadvantage now is it offers too good an advantage for fishing. The crops are a little above the average, but the fields are grassy on account of the excessive rains, with fair weather the farmer will catch up with the grass and have their fields clean again, and then things will be in shape for a good crop.

Mr. Editor come through this section and take a look at it for yourself. Do not you, or even your friends, who unselfishly risked his own to accommodate you with his endorsement, or out of the security you gave, even if it is the shelter from over the heads of your wife and children. The man who is a little above the level of the man who can go to when in trouble or in need, and without any profit to himself comes to your rescue. He is indeed a friend, while the other man is making of you a barber. So do not let your friends be disappointed with the ordinary relationship which exists in everyday business, where it is the pound of flesh that is demanded, instead of the boon which comes from an unselfish heart to help one in need. Then it is the truth, "A friend in need, is a friend indeed," applies.

Turbeville Dots.

Editor The Manning Times:

On Saturday afternoon the second ones of Turbeville and Shiloh crossed bats on the latter's ground. The game was the best played this season. Timely hitting and good base running connected with errors by the opposing team won for the locals, the score being 3 to 1. Mike Turbeville, the kid who twirled for the home team, fanned ten batters and allowed only three hits, two of which were of the scratchy order. The same teams play here next Saturday.

Mr. D. E. Cole and Miss Sunnie Burgess were quietly married at the home of the bride's parents, Mr. Geo. Burgess, in the Bethel neighborhood of Williamsburg county last Thursday afternoon. Mr. Cole is a prosperous farmer, and Miss Burgess is one of Williamsburg's most attractive young ladies.

Candidates' Cards.

COGGESS.

TO THE VOTERS OF CLARENDON AND THE FIRST CONGRESSIONAL DISTRICT: I announce myself a candidate for Congress from the First Congressional District and solicit your approval and your support. Clarendon County has never furnished a representative in Congress during the fifty-year history of the County's history.

If Clarendon ever wants a congressman I believe now is her opportunity time. If my friends will stand by me in this county and do what they can for me in the other counties of Berkeley, Hartsville, Columbia and Dorchester, I believe there is a chance of this County furnishing a man to look after the District interests in Washington.

J. H. LESSENSE.

TO MY FRIENDS AND CONSTITUENTS OF THE FIRST CONGRESSIONAL DISTRICT: I hereby announce that I shall stand for re-election to Congress, subject to the rules governing the Democratic primary.

During the years I have served your Congressmen I have done my best to serve you honestly and faithfully and to protect your every interest to the best of my ability. I trust you will have confidence in my ability to serve you, and I shall esteem and appreciate very highly any assistance you may render me in the coming primary.

GEO. S. LEGARE.

Governor.

I HEREBY ANNOUNCE MY CANDIDACY for the office of Governor, subject to the decision of the Democratic voters of the State. Campaign promises are easily made. My purpose is to elect a Governor who will give a plain, honest and business-like administration, of course I shall advocate good roads, good schools and good government. My attitude as to the same being well known to the public for many years.

I consistently advocated prohibition and was among the first to give money and lend influence to push this movement more than twenty years ago.

As a business man my chief aim, if elected, will be to conduct a State government along business lines.

F. H. HYATT.

Senate.

I HEREBY ANNOUNCE MYSELF A CANDIDATE for the Senate, subject to the rules of the Democratic primary.

W. C. DAVIS.

FEELING that I have given to the people of Clarendon County and to the State, a conscientious service as State Senator, I offer myself as a candidate for re-election to the Senate, subject to the requirements of the Democratic primary.

D. L. GRIDER.

I HEREBY ANNOUNCE MYSELF A CANDIDATE for the House of Representatives, subject to the rules and requirements of the Democratic party. My experience as a legislator places me in position to aid in making such laws as are suited to the people's needs, and to oppose those articles of legislation which would seek to add the classes against the interest of the masses.

I. M. WOODS.

Auditor.
