MAN SERVED TWENTY YEARS FOR ANOTHER'S CRIME.

'Praying Andy" Toth Was Railroaded to Penitentiary Because He Was a Foreigner.

"Praying Andy" Toth, a life convict at the Western penitentiary, at Pittsburg, Pa., who has served 20 years for a murder he did not even see committed finally has been re-

leased on a pardon from Gov. Tener. Toth is 50 years old. He is bent, weary and looks 70. In the crowd that greeted him as he left the prison, were his four grown sons, all workmen in the mill from which he was led a prisoner 20 years ago. The workmen cheered and Toth's lawyers, who met him at the prison office, took him to their offices down town in a cab, because the little old man would

not trust himself to a trolley car. "I never saw the man I am supposed to have killed," said Toth, who wept during most of his ride from the prison. But he seemed to feel no resentment. As he talked he fondled his rosary beads. "These kept me from going insane," he said. "I prayed every day to God and to the Blessed Virgin that she would intercede with her Son that the truth would some day become known."

When the Frick building was reached Toth shied at the revolving doors at the entrance. He then took the first elevator ride of his life. The attorney's office is on the eighteenth floor. When the car ascended he grasped the bars and held fast. He smiled and remarked: "I feel as if were going to Heaven."

Toth's wife returned to her home in Hungary years a20, broken heart-TO WATCH THEIR CONGRESSMEN ed. HEALTH BOARD URGES CLEAN-UP DAY FOR THE STATE.

State Health Officer Williams Makes Vigorous Plea for Statewide Spring Cleaning Next Month.

April 10 is the day designated by the State board of health for a Statewide "clean-up day." State Health Officer C. F. Williams said Tuesday that the custom of having such an annual "health festival" was of long standing in many of the States, though here it will be an innovation.

Dr. Williams said in discussing the matter that sanitarians today believe will do the work that the legislative in asepsis—the removal of dirtinvestigation committee was to do rather than in antisepsis—the disinfection of dirt. The clean-up day he picturesquely styled a "vernal renaissance of our sanitary morals." vetoed the measure passed by the last Observance of such a day, he said, is general assembly providing for a accepted by the outside world as evicommission to investigate the acts dence "of enlightenment, sanitary and affairs of the old State dispen- culture; and a desire for the best in morals and physique on the part of those participating."
