PUTTING SCARECROWS OUT.

It will take but few more editorials such as appeared as a leader in last Monday's issue of the News and Courier to solidify those who supported Governor Bleese in the last primary; there are many who are not altogether pleased with the record the governor is making, they are considerably disappointed, but they will not stand for this ever-constant abuse of that official, and if it is kept up by the two leading dailies in the State, Bleese will be re-elected as sure as the tines comes.

Very sincerely yours, B. H. Tillman. But the offended statesman (?) pursues the subject and writes to the junior Senator for an expression from him. Senator Smith says he remembers having a conversation with the governor in which he spoke in complimentary terms of Congressman Johnson, but he could not recall the exact language used.

WAS BLEESE IMPOLITE?

The Belton Times has given the opponents of Governor Cole L. Bleese an opportunity to manufacture a great big mountain out of a little mole hill, which they seem delighted to take advantage of; had the governor not dignified the story with a denial, there would not have been any affidavits or certificates to contradict him, but he did notice it, and he played right square into the hands of those who are working night and day to bring about his downfall, they brought on a situation which raises a question of veracity in which a woman is involved—a situation which must be embarrassing to any man.

CHILDISH PETULENCY.

Senator Tillman's reply to Congressman Aiken is a classic, and should be preserved for future generations. In a speech in Spartanburg some time ago Governor Bleese said that a United States Senator told him Congressman Johnson and more sense than all of the other members of the House delegation put together. This put ginger into Congressman Aiken, who has been flatterer himself with being possessed of a monopoly of the gray matter, and he set about to discover which of the Senators it was who is guilty of this heresy and had the temerity to give to another what he imagined belonged only to him.

Very sincerely yours, B. H. Tillman. But the offended statesman (?) pursues the subject and writes to the junior Senator for an expression from him. Senator Smith says he remembers having a conversation with the governor in which he spoke in complimentary terms of Congressman Johnson, but he could not recall the exact language used.

LYNCING NOT FRIVOLOUS.

When the lynching spirit takes hold of a frenzied mob, it makes no difference where it is, in the South or West or North. In Pennsylvania last Saturday night a mob took a negro from a hospital and burned him to a crisp because he shot and killed a special policeman. One thousand people gathered at the hospital and demanded the negro, when they were refused, they smashed their way into the building, carried him out on a cot and in the presence of this vast crowd, many of them being women, set fire to him and piled rails on top of him to add more fuel so that no part of him would remain. No such atrocity could happen in this State.

THEY WANT BLUE LAWS ENFORCED.

Mayor Gibbes of Columbia is having a time now with the preachers of that city, because he will not go to extremes in the enforcement of the Sunday laws. The Mayor does not think it wrong to permit the sale of cigars and soda water on Sundays, and he thinks that if he is required to enforce the Sunday ordinance as written; without the exercise of judgment, then the lid would have to be put down hard and fast upon the running of street cars, the selling of newspapers, restaurants would have to be closed, hotels would not be permitted to receive guests on that day, automobile riding would have to be stopped, livery stables would not be permitted to hire out horses, and many other things which custom has sanctioned, and if prohibited, would work great inconveniences upon a large portion of that city's people, especially those who labor until a late hour on Saturday nights.

LOSS OF TIME MEANS LOSS OF PAY.

Kidney trouble and the ills it breeds means lost time and lost pay to many a working man. M. Balent, 1214 Little Penna St., Sreator, Ill., was so bad from kidney and bladder trouble that he could not work, but he says: "I took Foley Kidney Pills for only a short time and got entirely well and was soon able to go back to work, and am feeling well and healthier than before." Foley Kidney Pills are tonic in action, quick in results—a good friend to the working man or woman who suffers from kidney ills. Dickson Drug Co.

THE EXCEPTIONAL YOUNG MAN.

The exceptional young man, says Orison Swett Marden in Success Magazine, is the one who looks upon his employer's interests as he would his own, who regards his vocation as an opportunity to make a man of himself, an opportunity to show his employer the stuff he is made of, and who is always preparing himself to fill the position above him.

FOOLISH.

The dismissal of the notaries who took the affidavits in the measly Belton matter was, to say the least of it, very petty on the part of the governor and not calculated to strengthen him even against the onslaught of his enemies. We believe there are those who would go to any length to destroy the governor's influence with the people, at the same time this does not justify him in giving way to temper to do little things such as dismissing a notary public because his name appears as the attesting officer to a document which reflects upon the governor himself.

LABRADOR'S SHORT SUMMER.

How brief is the summer on the highlands of Labrador! says Hesketh Frichard in the World. "It does not melt till July, then will a rush midsummer comes. Grasses and leaves grow rapidly, the wild cotton soon flings out its little white pennons, millions of berries ripen on the ground, the loon cries, the ptarmigan calls, and you may even see a butterfly balancing in the warm wind. But then also wakens the countless army of hunchbacks, lean and gray mosquitoes, piping blithely for blood. So summer reigns. Then suddenly one day at the end of August, after the sun has sunk behind the barren crags through a balmy warmth of evening, one may wake up to find everything transfigured and the first snow of another season already falling.

FOUND OUT HIS MAN.

A southerner who was visiting St. Louis wandered into the dining room of the hotel, and seeing a negro servant who had all the importance of an army officer standing near the door, asked him who the "head nigger" was around here. The negro stretched himself to his full height and pompously replied that "there ain't no niggers in St. Louis, sah. We is all gem-men of color."

WHERE BLUEBEARD LIVED.

Most of our readers have heard of Bluebeard, the enterprising gentleman who made a hobby of marriage and had a way of his own for getting rid of superfluous wives. Probably very few people, however, know that the story has any sort of basis in fact. Yet on the banks of the world famous Bosphorus near Constantinople there is situated a picturesque old medieval fortress known as "Bluebeard's castle" and which is said to have been the abode of a terrible old pasteur whose playful little ways gave rise to the story.—Wide World Magazine.

FIRST CALCULATING MACHINE.

The first calculating machine was invented and constructed by Blaise Pascal, a Frenchman, in 1642, in which year he was but nineteen years of age. It was made by him with the aid of one workman and was presented to the chancellor of France. During the revolution it was found in a junk shop at Bordeaux and at present is the property of M. Boussouin of that city. All of the four simple mathematical operations can be made with it.

FLOW OF SOLID METALS.

Metals flow into each other just as gases and liquids mix, though more slowly. If a cube of lead is placed on one of gold, the surfaces of contact being kept smooth and clean, and left for a month a small quantity of gold will be found to have penetrated the lead.

NOT PLAYING THE GAME.

Mrs. Fitz Suburbia—The next door person must be a very suspicious character. Hubby—Why so? Mrs. F. S.—She employs a maid who is deaf and dumb, the mean cat!—New York Journal.

DOING THEIR DUTY.

Scores of Manning Readers are Learning the Duty of the Kidneys. To filter the blood is the kidneys' duty. When they fail to do this the kidneys are sick. Backache and many kidney ills follow: Urinary trouble, dropsy, Doan's Kidney Pills should be used. Manning people endorse them. Mrs. H. D. Jenkinson, Church St., Manning, S. C., says: "I gladly recommend Doan's Kidney Pills, for I know from personal experience they are a remedy of merit. I was annoyed by kidney complaint and had pains through the small of my back. Doan's Kidney Pills helped me wonderfully, not only relieving the misery in my back but strengthening my kidneys. You may use my testimonial at any time."

THE DEMOCRATIC SOUTH IS AT THIS TIME APPLAUDING THE WORK OF THE DEMOCRATIC CONGRESS, THE WAY THEY ARE SHAVING DOWN THE TARIFF IS MEETING WITH GENERAL APPROVAL UNTIL THE COTTON SCHEDULE WAS STRUCK, AND THEN WITH ONE ACCORD THE CRY GOES UP "WATCHMAN SPARE THAT COTTON."

TURN IT OVER TO THE STATE.

The legislature of Georgia has refused to appropriate money for state fair purposes on the ground that it would be unconstitutional. When a similar measure was pending in the last general assembly in this state there were some members who took the unpopular view that the legislature was misappropriating the people's tax money if it gave it to the state fair, as that association was solely a private corporation, the appropriation however was allowed by the conference committee, which was sustained by a very narrow margin, but when it reached the governor he vetoed it, and then came a howl. There is too great a tendency to appropriate money for these semi-public institutions but when it is done it is in violation of the fundamental law. We regard our state fair as an important feature and we believe the state ought to give it encouragement, but the only way this can be done is by those owning the fair grounds to cede the property to the state and let it become a state institution.

THE CONFEDERATE MONUMENT.

The movement so long neglected has at last begun to erect a monument to the memory of the heroes who wore the gray—soldiers whose record was the marvel of the civilized world. Clarendon now proposes to place upon the court house square a suitable mark of its patriotism by having erected a shaft in honor of those who responded and laid down their lives upon their country's altar. All contributions sent to THE MANNING TIMES will be acknowledged through its columns.
