Guaranteed Eczema Remedy.

The constant itching, burning, redness, rash and disagreeable effects of eczema, tetter, salt rheum, itch, piles and irritating skin eruptions can be readily cured and the skin made clear smooth with Dr. Hobson's Eczema Ointment. Mr. J. C. Eveland, of Bath, Ill., says: "I had eczema twenty-five years and had tried everything. All failed. When I found Dr. Hobson's Eczema Ointment, I found a cure." This ointment is the formula of a physician and has been in use for years—not an experiment. That is why we can guarantee it. All druggists, or by mail Price 50c. Pfeiffer Chemical Co., Philadelphia and St. Louis.

How it Grows.

Until a man does something noteworthy the little bunch of whiskers on his chin is described as a "goatee." After he achieves eminence it is referred to as an "imperial."—Philadelphia Ledger.

CHURCHES IN CHILE.

They Are Always More or Less in an Uncompleted Condition.

When walking through the streets in any large town in Chile one is immediately struck by the fact that church buildings are always undergoing repairs.

One day you will pass a church which for weeks has had about six ladders resting against the walls. Then another day you will find that they have been changed to the other side. This constant changing of ladders goes on year in and year out, but no use ever seems to be made of the ladders, though, perhaps, a new brick or a bit of plaster will occasionally be added to the building.

There would seem, however, to be a very real reason for the presence of these ladders. The Chilean government, in fact, levies a tax upon church buildings, but only when they have been completed. In order to evade this tax, therefore, no church ever has been completed.

The law surely might be altered, then, for the eternal presence of these ladders—certainly an ingenious idea—does not add to the appearance of the buildings or to the comfort of pedestrians in the streets. London Answers.

VALUE OF GRASSES.

They Are In a Measure the Most Useful Plants in the World.

Probably the grasses are the most useful plants in the world. It may be that more than half the individual plants in the world are grasses. It is a great family of more than 3,500 species, embracing species that are so tiny that they hardly reach an inch in height and giant lamboos of the tropics that sometimes grow to be 100 feet or more.

In some regions of Kentucky blue grass is the almost universal pasture grass because it comes in of itself. In other regions with different soil (poor and lacking in lime) redtop has possession. Naturally the farmer follows the line of least resistance, yet it is by no means certain that he has adopted into his agriculture all the best grasses that nature has provided. Some day we shall do more toward using now neglected grasses. Joseph E. Wing in "Meadows and Pastures."

A Worker Appreciates This.

Wm. Morris, a resident of Florence, Oregon, says: "For the last fourteen years my kidneys and bladder incapacitated me for all work. About eight months ago I began using Foley's Kidney Pills, and they have done what other medicines failed to do, and now I am feeling fine. I recommend Foley's Kidney Pills." For sale by all dealers everywhere.
