

Sick Women Made Well

Reliable evidence is abundant that women are constantly being restored to health by Lydia E. Pinkham's Vegetable Compound

The many testimonial letters that we are continually publishing in the newspapers—hundreds of them—are all genuine, true and unsolicited expressions of heartfelt gratitude for the freedom from suffering that has come to these women solely through the use of Lydia E. Pinkham's Vegetable Compound.

Money could not buy nor any kind of influence obtain such recommendations; you may depend upon it that any testimonial we publish is honest and true—if you have any doubt of this write to the women whose true names and addresses are always given, and learn for yourself.

Read this one from Mrs. Waters:

CAMDEN, N.J.—"I was sick for two years with nervous spells, and my kidneys were affected. I had a doctor all the time and used a galvanic battery, but nothing did me any good. I was not able to go to bed, but spent my time on a couch or in a sleeping-chair, and soon became almost a skeleton. Finally my doctor went away for his health, and my husband heard of Lydia E. Pinkham's Vegetable Compound and got me some. In two months I got relief and now I am like a new woman and am at my usual weight. I recommend your medicine to every one and so does my husband."—Mrs. TILLIE WATERS, 1135 Knight St., Camden, N.J.

Read this one from Mrs. Haddock:

UTICA, OHLA.—"I was weak and nervous, not able to do my work and scarcely able to be on my feet. I had backache, headache, palpitation of the heart, trouble with my bowels, and inflammation. Since taking the Lydia E. Pinkham's Vegetable Compound I am better than I have been for twenty years. I think it is a wonderful medicine and I have recommended it to others."—Mrs. MARY ANN HADDOCK, Utica, Oklahoma.

Now answer this question if you can. Why should a woman continue to suffer without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that it has saved many others—why should it fail in your case?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs. It has restored so many suffering women to health.

Write to LYDIA E. PINKHAM, MEDICINE CO., (CONFIDENTIAL) LYNN, MASS., for advice. Your letters will be opened, read and answered by a woman and held in strict confidence.

Unintended Generosity. "One of the distinct shocks of my life," the Vinland Vine quotes Bill Sinclair as saying, "came when I lost a button of my trousers as I went to church. I put it in my pocket along with a quarter I had. Imagine my surprise upon returning home to find that I still had the button."—Kansas City Star.

Just a Suggestion. Neighbor—"Every time you feed your dog, he brings the bones over and gnaws them on our premises. Isn't there some way to stop it?" Owner—"Suppose you feed him hereafter; then he'll probably bring them over and gnaw them on my premises."—Puck.

With Some Parties. "Pa, what does it mean when they say a man is 'the life of the party'?" "The life of a party, my boy, is a man who buys while the other fellows are hanging back trying to remember whose turn it is."—Detroit Free Press.

Best Tree for the Street. The American elm has many times demonstrated its superior value as a street or lawn tree. It is not nearly so subject to disease or insects as many other trees.

SORE THROAT often leads to something worse. Gowan's Preparation gives quick relief for sore throat, hoarseness, croup, colds and pneumonia by destroying inflammation and congestion. Keep it in the home for emergencies—External and penetrating. \$1.00, 50c, 25c. All druggists.

APPAREL SHOP FOR MEN AND LADIES Everything of the best for the personal wear and adornment of both sexes. We fill mail orders carefully and promptly.

DAVID OUTFITTING COMPANY, Charleston, S. C. Easy Money for Planters. Guatemala is about as large as Louisiana. The planters are the most influential element and they sell their products for gold and pay their labor in depreciated currency.

READ WHAT NOTED PEOPLE SAY OF LIPPMAN'S GREAT REMEDY—P. P. P.

Dr. Allred, Regency, Texas, writes: "It is the leading blood purifier." Dr. Whitehead, Wichita, Kan., prescribes it, and with P. P. P. completely cured J. H. Davidson, who had suffered fifteen years with blood poison and sores.

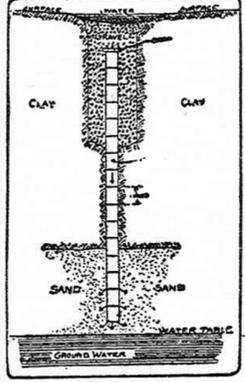

IT WILL HELP YOU, TOO—AT ALL DRUGGISTS—\$1.00 F. V. LIPPMAN, SAVANNAH, GEORGIA

USING THE VERTICAL DRAINS

Whether They Work Successfully or Not Depends Largely on Under-ground Water—How Operated.

Vertical drains can often be used where the cost of tillage is prohibitive for small amount of land. Whether these drains work well or not depends largely on the underground water which in some cases will rise when the impervious sheet above is pierced. This is not often the case when the drain is carried to as low a water table as 12 or 15 feet.

It is quite common to pad several sheets of impervious material which

A VERTICAL DRAIN. These Drains May Serve as Outlets for Horizontal Laterals, With or Without These Laterals, They May Drain Pot-Holes Thoroughly.

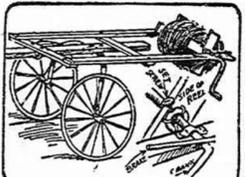

which require to be successively pierced to free the upper soil of water-logging. After the first one has been penetrated the water may rise and again subside when the second or third sheets are pierced.

In seepage lands we may have a stratum of hard soil containing water at a depth injurious to crops and retaining water, the accumulations of years, and these may be wasting into spring holes and wallows in many places, yet the water has not sufficient force to clear itself. In such cases, even if the water flows from bottom, relief often comes by opening up the hardpan and drawing off the water in a tile or open ditch. It will often be found that the water which runs and is coming in very slowly but lies in an underground basin formed by hard pan at a different level from the surface soil, perhaps crossing the underflow with ridges at almost a right angle to the flow and those must, if possible, be cut through if a vertical drain fails to give relief.

REEL CART FOR BARB WIRE

Device Made of Old Cultivator Truck With Shovel Beams Removed Works Quite Rapidly.

With this device two men can reel up barb wire nearly as fast as they can walk. One man guides the truck backwards to make the wire wind evenly on the spool, says a Kansas writer in the Farmers' Mail and Breeze. The cranking pulls the truck

Barb Wire Reel Cart.

Along and rolls the wire on tight. The truck is an old walking cultivator with shovel beams removed. The frame is made of two by four bolts together with a U-bolt to fasten the front to the tongue. The frame is wide enough to have a collar at each end of the spool with set screws. The screws are tightened up against the crank shaft so the reel can't slip.

AMOUNT OF FEED FOR COWS

Brief and Simple Rules Given by Nebraska Experiment Station—Great Aid for Dairymen.

The Nebraska station gives the following brief and simple rules as an aid in determining the amount of feed required by each cow:

- 1st. Feed all the roughage, such as alfalfa, corn silage, etc., that the cow will eat up clean.
- 2d. Feed approximately one pound of grain for every three pounds of milk produced per day.
- 3d. Give the cows as much feed as they will consume without gaining in weight.
- 4th. Feed some succulent feed, such as corn silage or roots, to make the ration more palatable.
- 5th. Be prepared to supplement the pastures by feeding silage when the dry season sets in.

Mineral Matter for Sheep. Scientists tell us that there is often more mineral matter removed from a fleece of wool than is contained in the sheep's entire body from which the wool is clipped; hence the necessity of a ration with plenty of mineral matter in order to supply material for this superior wool growing.

W. O. W.

Woodmen of the World. Meets on First Monday nights at 8:30. Visiting Sovereigns invited.

TAX NOTICE.

The County Treasurer's Office will be open for collection of taxes for 1913 on 15th October 1913, and close 15th March 1914. Following are the tax levies: State tax 2 1/2 mill, Ordinary County 4 1/2 mill, Court House and Jail 1 1/2 mill, School Tax 1 mill, Constitutional School 3 mill, Special School District 1.5 mill, 2.3 mill, 3.6 mill, 5.3 mill, 7.4 mill, 9.10 2/3 mill, 10.3 mill, 11.2 mill, 13.4 mill, 14.4 mill, 15.8 mill, 16.8 mill, 17.4 mill, 18.2 mill, 19.10 mill, 20.13 mill, 21.3 mill, 22.9 mill, 24.4 mill, 25.8 mill, 26.8 mill, 27.6 mill, 28.8 mill, 29.4 mill, 30.6 mill, 31.2 mill, 32.2 mill, 33.2 mill, 33.4 mill.

COTTON PICKERS SAVE TIME

Pneumatic Machine, Invented by Ohio Man, Separates Boll From Pod—Much Labor Saved.

Now it is cotton picking toward which the vacuum principle has been directed. An Ohio man has invented a pneumatic machine which seems to be entirely practical and a great time-saver. An apparatus to create suction is mounted on the rear of a truck and in front is a wire cage to hold the cotton. A tube leading from

New Cotton Picker.

The suction apparatus has a set of teeth in its beak-shaped mouth, so that after the boll has entered the mouth it will not withdraw, but will be sucked into the tube and through the latter into the cage. It is a much swifter and easier operation than slicing cotton by hand, and two or three men can pick a field quicker with it than a small army of negroes could do the work unaided.

Alfalfa Hay for Cows.

Because of the high protein content, alfalfa is especially valuable as a feed for dairy cows, for breeding animals and for growing young stock. It is of considerable economic value when grown and fed on the farm, as it takes the place of high-priced protein-rich concentrates, such as bran and cottonseed meal. It is more economical, un-der most conditions at least, to feed it as a part ration either with corn or some carbohydrate roughage, as corn stover or grass hay, rather than to feed it alone.

FEEDING PEANUTS TO SWINE

They Will Run From One-Half to One Ton Per Acre and is Almost Equal to Alfalfa in Value.

Dry weather and hot winds will have no terror for the Oklahoma farmer who adopts the motto of "Pigs and Peanuts."

The drought this season has demonstrated, says the Dunham Eagle, that peanuts will thrive better during the dry, hot season than even kafir corn, and the peanuts have a still further advantage in having far greater food value than either corn or kafir.

The highest priced pork on the market, says the Oklahoma Farmer, is from the peanut-fed hogs, and the ham from peanut-fed hogs brings from 10 to 15 cents a pound more than the ham from corn-fed hogs.

The peanut hay will run from one-half to one ton to the acre, and is almost the equal of alfalfa in feed value. Farmers who raise peanuts and hogs can have the hogs harvest the crop if they desire to turn them into the peanut field, or they can put the peanuts, vine and all, with a little corn or kafir into a silo, which makes a richer silage than either alone. Thousands of farmers in Oklahoma need to adopt the motto of "Pigs and Peanuts."

The time to plan a pig and peanut campaign is now. Splendid seed peanuts will be offered for sale soon, and the farmer of Oklahoma who selects high-class nuts for seed will be ready in the spring to plant a crop that never fails in Oklahoma.

Use of Fertilizers.

The use of commercial fertilizers is becoming more general among fruit growers, due largely to the fact that stable manure is somewhat scarce in many fruit growing districts. In order to get the best results from the use of fertilizers, the grower must study his soil, and by observing the results obtained from experimental application he will soon learn the requirements of his soil. Commercial fertilizers are expensive, and require intelligent handling. Many growers have, without sufficient cause, condemned their use, while others, after studying their soil conditions, are securing excellent returns for the money invested.

Unexplored Territory.

"I made a lucky discovery today," said the first physician.
"That so?"
"Yes, I discovered a patient that has never been operated on for anything."

Quality of Milk.

The quality of milk—that is, the amount of milk and fat that it contains—is controlled more by the constitutional characteristics of the cow than by the feed.

Separate the Fowls.

Be sure to keep the turkeys, ducks, geese and chickens in separate inclosures. The turkeys are continually fighting the chickens and often kill them.

Question Cleared Up.

Manning Readers Can no Longer Doubt the Evidence.

Again and again we have read of strangers in distant towns who have been cured by this or that medicine. But Manning's pertinent question has always been "Has anyone here in Manning been cured?" The word of a stranger living a hundred miles away may be true, but it cannot have the same weight with us as the word of our own citizens, whom we know and respect, and whose evidence we can so easily prove.

James E. Reardon, Manning, S. C., says: "Some years ago I used Doan's Kidney Pills, procured from Dr. W. E. Brown & Co's Drug Store. (now the Dickson Drug Co.) and I found them to be a valuable kidney medicine. They brought me prompt and lasting relief from backache and pains across my loins and did me a world of good."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Recognized the Burden.

"No wonder then city people complain about being all worn out with their social duties," vouches a prominent citizen of Wayoverbehind. "When I was down to New York I durn near un'finted my neck tryin' to bow to everybody I met on the streets."—Magazine of Fun.

Horrible Blotches of Eczema.

Quickly cured by Dr. Hobson's Eczema Ointment. C. P. Caldwell, of New Orleans, La., states: "My doctor advised me to try Dr. Hobson's Eczema Ointment. I used three boxes of Ointment and three cakes of Dr. Hobson's Derma-Zema Soap. To-day I have not a spot anywhere on my body and can say I am cured." It will do the same for you. Its soothing, healing, anti-pruritic, and skin softening qualities remove humors, blackheads, pimples, Eczema blotches, red unsightly sores, and leave your skin clean and healthy. Get a box to-day. Guaranteed. All Druggists, 50c, or by mail, Pfeiffer Chemical Co., Philadelphia & St. Louis. adv.

Cider for Sufferers From Gout.

The unfortunate individual, living the good things of the table, yet afflicted with the gout, may now take freshening beverage which will not be denied him. Cider, it has been discovered, is excellent for gout, and a splendid tonic for everybody, because of the amount of tannin it contains.

Here is a recipe, handed down in a New England family, for old fashioned mulled cider:

Beat two eggs with two tablespoons of sugar, and pour over the mixture a quart of freshly boiled cider, stirring constantly. Put the mixture on the stove and boil it again. Add some mint leaves, some thin slices of lemon and serve immediately in tall glasses, thick enough to stand the steaming beverage without cracking. Cider jelly is a delicious dessert for autumn days.

Dissolve two ounces of gelatin in a little water, and when thoroughly dissolved add two and a half pints of cider and a pound of granulated sugar. Boil until it begins to thicken; then strain through cloth and pour into a jelly mold. Serve with whipped cream.

Custom of "Suttee" Survives. An Indian "suttee" victim case, emphasizing the slowness of Indian customs in dying has been decided in the Allahabad high court. The widow of a Brahmin committed "suttee" on her husband's death, i. e., was burnt alive on the funeral pyre in the presence of the whole village. Five of the relatives were arrested for abetting her suicide, and were sentenced to imprisonment. They appealed to the high court, the defense being that the fire was lighted by supernatural means, the flames descending from heaven. The high court has now rejected the appeal, and has increased the sentences in two of the cases. The present case is only the fourth recorded in the United Provinces and Bengal since 1829, when "suttee" was prohibited.

The colts will thrive with little feed, but they should have the right kind, with shelter in severe weather, and shade in hot weather.

Good Type of Draft Mare.

three colts every year. The mares will almost pay for their own feed, and that of the colts with their work.

Brood mares, whose property handled, lose little work on account of the colts. Care must be taken, however, not to let the mares get too warm or require them to draw too heavy loads; they should not exert themselves too severely or become too excited when late in the period of gestation.

The colts will thrive with little feed, but they should have the right kind, with shelter in severe weather, and shade in hot weather.

Good Teams ARE ESSENTIAL.

Without Efficient Animals it is Difficult to Prepare Land Well and Cultivate it Thoroughly.

Good teams are essential in good farming. Without efficient animals it is difficult to prepare the land well and cultivate it economically. Light teams and not enough animals to draw efficient implements have caused much poverty among the farmers, and this condition should be changed.

One of the cheapest ways of providing cheap teams is to keep two or three good mares and raise colts—horses and mules—to supply the farm with suitable teams. With a few acres of pasture and plenty of feed it should not cost much to raise two or

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Pastine

A soluble Antiseptic Powder to be dissolved in water as needed. As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Pastine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At drugists 50c. large box, or by mail, The Paxton Toilet Co., Boston, Mass.

IT PAYS TO KEEP ACCOUNTS.

Many Farmers Lose Money Because of Neglect to Make Record of Money Spent During the Year.

Ask the average farmer what paid him best last year. Was it corn, oats, hay, hogs, horses, or cattle? The chances are 100 to 1 he cannot tell you exactly. Did he make money last year, or did he lose money?

Most men hate to keep farm accounts. They will not take two or three minutes every day to write down in a book as to how time and money have been spent on the farm.

City business men hire bookkeepers to keep accounts. They do this because they want to know at least once every year as to whether or not they are getting ahead or falling behind. They want to know what parts of the business are making money for them, and what parts are losing money. Knowing these things, they plan on what to do in the future.

Thousands of farmers keep no accounts, and yet get along very well. Some of them have such good brains that they can keep things fairly straight in their heads. But all of them lose money once in a while that could have been saved if they had only kept accounts.

CARING FOR YOUNG ALFALFA

Practice of Pasturing Field in Fall and Winter is Harmful to Young and Old Plants.

(By C. C. CHESTER, Oklahoma Agricultural College.)

Many people, on account of shortage of pasture and to save feed, pasture their alfalfa during the fall and winter. This practice is harmful to all alfalfa, whether it is young or old. No doubt it reduces the yields the following season, although the reduction may be very slight if conditions are favorable.

With the young alfalfa the practice is very harmful. It reduces the vigor of the plant, reduces the yield very materially the following year, and frequently kills out some of the young plants at a time when they are not very well developed. Fall seeded alfalfa should never be pas-

Rhode Island Alfalfa Field, Third Crop.

started during the same fall and winter in which it is seeded. The little feed which the alfalfa will furnish during the winter is far more offset by the decrease in yield.

When young alfalfa receives a harvest it may require two or three years for it to fully recover, and during all this time the yields are smaller than they otherwise would be. It pays to give young alfalfa careful treatment and to give it every opportunity to make a good development.

Companions for Children.

A few-choice lambs make suitable farm companions for the children.

Picked Up Bargain at Auction Sale.

A fortune in a pipe bowl was discovered by a Portsmouth (Eng.) architect, Mr. Fordham, who purchased an old meerschaum pipe at a recent auction sale for a few shillings. He found on taking his purchase home, that the front of the bowl was set with a cluster of diamonds, emeralds and rubies. The gems have been valued at over \$500. Dealers from all parts of England were present at the sale, but failed to discover the bargain.

Feel Miserable.

Out of sorts, depressed, pain in the back—Electric Bitters renews your health and strength. A guaranteed Liver and Kidney remedy. Money back if not satisfied. It completely cures Robert Madsen, of West Burlington, Iowa, who suffered from virulent liver trouble for eight months. After four doctors gave him up, he took Electric Bitters and is now a well man.

Get a bottle to-day. It will do the same for you. Keep in the house for all liver and kidney complaints. Perfectly safe and dependable. Its results will surprise you. 50c and \$1.00. H. E. Sucklen & Co., Philadelphia or St. Louis, adv.

Mrs. Lapeling Explains.

"We're always careful about those contagious diseases," said Mrs. Lapeling. "When Johnny had got well of the measles we bought some sulphur candles and discontinued the house from top to bottom."—Chicago Tribune.

How is Your Boiler?

It has been stated that a man's stomach is his boiler, his body is his engine and his mouth the fire box. Is your boiler (st
